

# 2020 | Provider Manual

# Introduction to the Provider Manual

## **THE MARYLAND HEALTHCHOICE PROGRAM**

### **MEDICAID and HEALTHCHOICE**

HealthChoice is the name of Maryland Medicaid's managed care program. There are approximately 1.2 million Marylanders enrolled in Medicaid and the Maryland Children's Health Program. With few exceptions Medicaid beneficiaries under age 65 must enroll in HealthChoice. Individuals that do not select a Managed Care Organization (MCO) will be auto-assigned to an MCO with available capacity that accepts new enrollees in the county where the beneficiary lives. Individuals may apply for Medicaid, renew their eligibility and select their MCO online at [www.marylandhealthconnection.gov](http://www.marylandhealthconnection.gov) or by calling 855-642-8572 (TTY: 855-642-857). Members are encouraged to select an MCO that their PCP participates with. If they do not have a PCP they can choose one at the time of enrollment. MCO members who are initially auto-assigned can change MCOs within 90 days of enrollment. Members have the right to change MCOs once every 12 months. The HealthChoice program's goal is to provide patient-focused, accessible, cost-effective, high quality health care. The state assesses the quality of services provided by MCOs through various processes and data reports. To learn more about the state's quality initiatives and oversight of the HealthChoice program go to: <https://mmcp.health.maryland.gov/healthchoice/Pages/Home.aspx>

Providers who wish to serve individuals enrolled in Medicaid MCOs are now required to register with Medicaid. Priority Partners also encourages providers to actively participate in the Medicaid fee-for service (FFS) program. Beneficiaries will have periods of Medicaid eligibility when they are not active in an MCO. These periods occur after initial eligibility determinations and temporarily lapses in Medicaid coverage. While MCO providers are not required to accept FFS Medicaid, it is important for continuity of care. For more information go to: <https://eprep.health.maryland.gov/sso/login.do?>. All providers must verify Medicaid and MCO eligibility through the Eligibility Verification System (EVS) before rendering services.

This manual is divided into 9 sections:

**SECTION I – Introduction and General Information.** This section provides general descriptive information on the HealthChoice program including, but not limited to, program eligibility, MCO reimbursement policies, continuity of care and member rights and responsibilities.

**SECTION II – Outreach and Support Services, Appointment Scheduling, Early Periodic Diagnostic and Treatment (EPSDT) Requirements and Special Populations.** This section details Priority Partners outreach and support services, non-emergency transportation services, state support services and other information.

**SECTION III – Member Benefits and Services.** This section provides a listing of the benefits that are and are not the responsibility of all MCOs that participate in HealthChoice. This section briefly outlines some of the optional benefits that Priority Partners may provide. This section also identifies benefit limitations and services that are not the responsibility of Priority Partners and gives information on the Rare and Expensive Case Management (REM) program.

**SECTION IV – Preauthorization and Member Complaint, Grievance and Appeal Procedures.** This section describes services requiring preauthorization, services not requiring preauthorization, preauthorization procedures, medical necessity criteria and other procedures and criteria.

**SECTION V – Pharmacy Management.** This section provides information on pharmacy benefit management, specialty pharmacy, prescriptions and the Priority Partners formulary, the Maryland Prescription Drug Monitoring Program, Corrective Managed Care Program and the Maryland Opioid Policy.

**SECTION VI – Claims Submission, Provider Appeals, Quality Initiatives and Pay-for-Performance.** This section covers the claims submission process, billing inquiries, the appeal process, quality initiatives and other claims and appeal information.

**SECTION VII – Provider Services and Responsibilities.** This section gives an overview of provider responsibilities, along with information on credentialing and re-credentialing, PCP responsibilities, contract terminations, specialty providers and other topics.

**SECTION VIII – Quality Assurance Monitoring Plan and Reporting Fraud, Waste and Abuse.** This section provides information on Priority Partners' assurance monitoring plan, as well as fraud, waste and abuse policies and procedures.

**SECTION IX – Additional Priority Partners Information.**

# SECTION I.

## Introduction and General Information

# MEDICAID AND THE HEALTHCHOICE PROGRAM

HealthChoice is the name of Maryland Medicaid's managed care program. There are approximately 1.2 million Marylanders enrolled in Medicaid and the Maryland Children's Health Program (MCHP). The HealthChoice program's philosophy is based on providing quality cost-effective and accessible health care that is patient-focused.

## HEALTHCHOICE ELIGIBILITY

All individuals qualifying for Maryland Medical Assistance or MCHP are enrolled in the HealthChoice program, except for the following categories:

- Individuals who receive Medicare
- Individuals age 65 or over
- Individuals who are eligible for Medicaid under spend down
- Medicaid participants who have been or are expected to be continuously institutionalized for more than 90 successive days in a long-term facility or 30 days in an institution for mental disease.
- Individuals institutionalized in an intermediate care facility for people with intellectual disabilities (ICF-MR)
- Participants enrolled in the Model Waiver
- Participants who receive limited coverage, such as women who receive family planning; services through the Family Planning Waiver, or Employed Individuals with Disabilities Program
- Inmates of public institutions, including a state-operated institution or facility
- A child receiving adoption subsidy who is covered under the parent's private insurance
- A child under state supervision receiving adoption subsidy who lives outside of the state
- A child who is in an out-of-state placement

All Medicaid participants who are eligible for the HealthChoice program, without exception, will be enrolled in an MCO or in the Rare and Expensive Case Management program (REM). The REM program is discussed in detail in Section II.

Members must complete an updated eligibility application every year in order to maintain their coverage through the HealthChoice program.

HealthChoice members are permitted to change MCOs if they have been in the same MCO for 12 months or more.

HealthChoice providers are prohibited from steering members to a specific MCO. You are only allowed to provide information on which MCOs you participate with if a current or potential member seeks your advice about selecting an MCO.

Medicaid-eligible individuals who are not eligible for HealthChoice will continue to receive services in the Medicaid fee-for-service system.

# OVERVIEW

- Priority Partners must provide a complete and comprehensive benefit package that is equivalent to the benefits that are available to Maryland Medicaid participants through the Medicaid fee-for-service delivery system. Carve-out services (which are not subject to capitation and are not Priority Partners responsibility) are still available for HealthChoice members. Medicaid will reimburse these services directly, on a fee-for-service basis.
- A Priority Partners PCP serves as the entry point for access to health care services. The PCP is responsible for providing members with medically necessary covered services, or for referring members to a specialty care provider to furnish the needed services. The PCP is also responsible for maintaining medical records and coordinating comprehensive medical care for each assigned member.
- A member has the right to access certain services without prior referral or authorization by a PCP. This applies to specified self-referred services and emergency services. We are responsible for reimbursing out-of-plan providers who have furnished these services to our members.
- Only benefits and services that are medically necessary are covered.
- HealthChoice members may not be charged any copayments, premiums or cost sharing of any kind, except for the following:
  - Up to a \$3 copayment for brand-name drugs
  - Up to a \$1 copayment for generic drug;
  - Any other charge up to the fee-for-service limit as approved by the MDH
- We do not impose pharmacy copayments on the following:
  - Family planning drugs and devices
  - Individuals under 21 years old
  - Pregnant women
  - Institutionalized individuals who are inpatient in long-term care facilities or other institutions requiring spending all but a minimal amount of income for medical costs.
  - Limitations on covered services do not apply to children under age 21 receiving medically necessary treatment under the Early Periodic Screening Diagnosis and Treatment (EPSDT) program
  - The pharmacy cannot withhold services even if the member cannot pay the copayment. The member's inability to pay the copayment does not excuse the debt and they can be billed for the copayment at a later time.

## MEMBER RIGHTS AND RESPONSIBILITIES

Priority Partners provides our members with a copy of their rights and responsibilities in the Priority Partners Member Handbook, which can be located online at [www.ppmco.org](http://www.ppmco.org).

## PROCEDURE FOR SELECTING A PCP

Members have the right to select their PCP. Upon enrollment, the member may select a PCP from the Priority Partners provider directory or call Customer Service at 800-654-9728 for help in selecting a new provider. The member may consider the provider's specialty, accessibility, gender, ethnic background and languages spoken in the selection process.

# DEFAULT ASSIGNMENT OF A PCP

Priority Providers' provider network will be submitted to Customer Service to assist new members in selecting a PCP. Members who do not select a PCP will be assigned to one using the enrollment information provided (e.g., geographic proximity to the provider, age and language).

# HIPAA AND MEMBER PRIVACY RIGHTS

The Health Insurance Portability and Accountability Act (HIPAA) was signed into law in August 1996. The legislation improves the portability and continuity of health benefits, ensures greater accountability in the area of health care fraud and simplifies the administration of health insurance.

Priority Partners strives to ensure both Priority Partners and contracted participating providers conduct business in a manner that safeguards member information in accordance with the privacy regulations enacted pursuant to HIPAA. Contracted providers shall have the following procedures implemented to demonstrate compliance with the HIPAA privacy regulations:

- Priority Partners recognizes its responsibility under HIPAA privacy regulations to only request the minimum necessary member information from providers to accomplish the intended purpose; conversely, network providers should only request the minimum necessary member information required to accomplish the intended purpose when contacting Priority Partners. However, privacy regulations allow the transfer or sharing of member information, which may be requested by Priority Partners to conduct business and make decisions about care, such as a member's medical record, authorization determinations or payment appeal resolutions. Such requests are considered part of the HIPAA definition of treatment, payment or health care operations.
- Fax machines used to transmit and receive medically sensitive information should be maintained in an environment with restricted access to individuals who need member information to perform their jobs. When faxing information to Priority Partners, verify the receiving fax number is correct, notify the appropriate staff at Priority Partners and verify the fax was appropriately received.
- Internet email (unless encrypted) should not be used to transfer files containing member information to Priority Partners (e.g., Excel spreadsheets with claim information); such information should be mailed or faxed.
- Please use professional judgment when mailing medically sensitive information such as medical records. The information should be in a sealed envelope marked "confidential" and addressed to a specific individual, P.O. Box or department at Priority Partners.
- The Priority Partners voicemail system is secure and password protected. When leaving messages for Priority Partners associates, leave only the minimum amount of member information required to accomplish the intended purpose.
- When contacting Priority Partners, please be prepared to verify the provider's name, address and tax identification number (TIN) or Priority Partners provider number.

# MEMBER PRIVACY PRACTICES

## Safeguarding Your Protected Health Information

**Information We Provide To Our Members:** Priority Partners Managed Care Organization (PPMCO) is committed to protecting your health information. In order to provide treatment or to pay for your health care, PPMCO will ask for certain health information and that health information will be put into your record. The record usually contains your symptoms, examination and test results, diagnoses, and treatment. That information, referred to as your health or medical record, and legally regulated as health information may be used for a variety of purposes. PPMCO is required to follow the privacy practices described in this notice, although PPMCO reserves the right to change our privacy practices and the terms of this notice at any time. You may request a copy of the new notice from PPMCO Customer Service at 800-654-9728.

## How PPMCO May Use and Disclose Your Protected Health Information

The PPMCO workforce will only use your health information when doing their jobs. For uses beyond what PPMCO normally does, PPMCO must have your written authorization unless the law permits or requires it. The following are some examples of our possible uses and disclosures of health information.

### Uses and Disclosures Relating to Treatment, Payment, or Health Care Operations:

**For treatment:** PPMCO may use or share your health information to approve, deny treatment and to determine if your medical treatment is appropriate. For example, PPMCO health care providers may need to review your treatment plan with your health care provider for medical necessity or for coordination of care.

**To obtain payment:** PPMCO may use and share your health information in order to bill and collect payment for your health care services and to determine your eligibility to participate in our services. For example, your health care provider may send claims for payment of medical services provided to you.

**For health care operations:** PPMCO may use and share your health information to evaluate the quality of services provided, or to our state or federal auditors and regulators.

### Other Uses and Disclosures of Health Information Required or Allowed by Law:

**Information purposes:** Unless you provide us with alternative instructions, PPMCO may send appointment reminders and other materials about the program to your home.

**Required by law:** PPMCO may disclose health information when a law requires us to do so.

**Public health activities:** PPMCO may disclose health information when PPMCO is required to collect or report information about disease or injury, or to report vital statistics to other divisions in the department and other public health authorities.

**Health oversight activities:** PPMCO may disclose your health information to the MDH and other agencies for oversight activities required by law. Examples of these oversight activities are audits, inspections, investigations, accreditations, and licensure.

**Coroners, medical examiners, funeral directors and organ donations:** PPMCO may disclose health information relating to a death to coroners, medical examiners or funeral directors, and to authorized organizations relating to organ, eye, or tissue procurement, donations or transplants.

**Research purposes:** In certain circumstances, and under supervision of an Institutional Review Board or other designated privacy board, PPMCO may disclose health information to assist medical research.

**Avert threat to health or safety:** In order to avoid a serious threat to health or safety, PPMCO may disclose health information as necessary to law enforcement or other persons who can reasonably prevent or lessen the threat of harm.

**Abuse and neglect:** PPMCO will disclose your health information to appropriate authorities if we reasonably believe that you are a possible victim of abuse, neglect, domestic violence, or some other crime. PPMCO may disclose your health information to the extent necessary to avert a serious threat to your health or safety or the health or safety of others.

**Specific government functions:** PPMCO may disclose health information of military personnel and veterans in certain situations, to correctional facilities in certain situations, to government benefit programs relating to eligibility and enrollment, and for national security reasons, such as protection of the President.

**Families, friends or others involved in your care:** Unless you say no, PPMCO may share your health information with people as it is directly related to their involvement in your care. PPMCO may share your health information if related to payment of your care. Unless you say no, PPMCO may also share health information with people to notify them about your location, general condition, or death.

**Worker's compensation:** PPMCO may disclose health information to worker's compensation programs that provide benefits for work-related injuries or illnesses without regard to fault.

**Lawsuits, disputes and claims:** If you are involved in a lawsuit, a dispute, or a claim, PPMCO may disclose your health information in response to a court or administrative order, subpoena, discovery request, investigation of a claim filed on your behalf, or other lawful process.

**Law enforcement:** PPMCO may disclose your health information to a law enforcement official for purposes that are required by law or in response to a subpoena.

### **You have a right to:**

**Request restrictions:** You have a right to request a restriction or limitation on the health information PPMCO uses or discloses about you. PPMCO will accommodate your request, if possible, but is not legally required to agree to the requested restriction. If PPMCO agrees to a restriction, PPMCO will follow it except in emergency situations.

**Request confidential communications:** You have the right to ask that PPMCO send you information at an alternative address or by alternative means. PPMCO must agree to your request as long as it is reasonably easy for us to do so.

**Inspect and copy:** You have a right to see your health information upon your written request. If you want copies of your health information, you may be charged a fee for copying, depending on your circumstances. You have a right to choose what portions of your information you want copied and to have prior information on the cost of copying.

**Request amendment:** You may request in writing that PPMCO correct or add to your health record. PPMCO may deny the request if PPMCO determines that the health information is: (1) correct and complete; (2) not part of our records; or (3) not permitted to be disclosed. If you request an amendment to records that we did not create, we will consider your request only if the creator of the records is unavailable. If PPMCO approves the request for amendment, PPMCO will amend the health information and inform you, and will tell others that need to know about the amendment in the health information.

**Accounting of disclosures:** You have a right to request a list of the disclosures made up of your health information after April 14, 2003. Exceptions are health information that has been used for treatment, payment, and operations. In addition, PPMCO does not have to list disclosures made to you, made in connection with a permitted use or disclosure, based on your written authorization, made to your family, friends or others involved in your care, provided for national security, made to law enforcement officials or correctional facilities, or made as part of a limited data set (where all but a few identifiers are removed). There will be no charge for up to one such list each year.

**Notice:** You have the right to receive a paper copy of this notice and/or an electronic copy by email upon request.

## For More Information

This document is available in other languages and alternate formats that meet the guidelines for the Americans with Disabilities Act. If you have questions and would like more information, you may contact the PPMCO Corporate Compliance division at 410-424-4996 (local) or 844-422-6957 (toll-free).

## To Report a Problem about our Privacy Practices

If you believe your privacy rights have been violated, you may file a complaint.

- You can file a complaint with PPMCO Complaint Division by calling 410-424-4996 (local) or 844- 422-6957 (toll-free) or by mail:  
Johns Hopkins HealthCare  
7231 Parkway Drive, Suite 100  
Hanover, MD 21076  
Attn: PPMCO Corporate Compliance Department
- You can file a complaint with the Secretary of the U.S. Department of Health and Human Services, Office of Civil Rights. You may call PPMCO for the contact information. PPMCO will take no retaliatory action against you if you make such complaints.

**Effective Date:** This notice became effective on April 14, 2003.

# ANTI-GAG PROVISIONS

Providers participating with Priority Partners will not be restricted from discussing with or communicating to a member, enrollee, subscriber, public official, or other person information that is necessary or appropriate for the delivery of health care services, including:

- Communications that relate to treatment alternatives including medication treatment options regardless of benefit coverage limitations
- Communications that is necessary or appropriate to maintain the provider-patient relationship while the member is under the participating physician's care

- Communications that relate to a member's or subscriber's right to appeal a coverage determination with which the provider, member, enrollee, or subscriber does not agree
- Opinions and the basis of an opinion about public policy issues

Our providers agree that a determination by Priority Partners that a particular course of medical treatment is not a covered benefit shall not relieve providers from recommending such care as he/she deems to be appropriate nor shall such benefit determination be considered to be a medical determination.

Providers further agree to inform beneficiaries of their right to appeal a coverage determination pursuant to the applicable grievance procedures and according to law. Providers contracted with multiple MCOS are prohibited from steering recipients to any one specific MCO.

## ASSIGNMENT AND REASSIGNMENT OF MEMBERS

Members can request to change their MCO one time during the first 90 days if they are new to the HealthChoice program as long as they are not hospitalized at the time of the request. They can also make this request within 90 days if they are automatically assigned to an MCO. Members may also change their MCO if they have been in the same MCO for 12 or more months. Members may change their MCO and join another MCO near where they live for any of the following reasons at any time:

- If they move to another county where Priority Partners does not offer care
- If they become homeless and find that there is another MCO closer to where they live or have shelter which would make getting to appointments easier
- If they or any member of their family have a doctor in a different MCO and the adult member wishes to keep all family members together in the same MCO
- If a child is placed in foster care and the foster care children or the family members receive care by a doctor in a different MCO than the child being placed, the child being placed can switch to the foster family's MCO
- The member desires to continue to receive care from their primary care provider (PCP) and Priority Partners terminated the PCP's contract for one of the following reasons:
  - For reasons other than quality of care
  - The provider and Priority Partners cannot agree on a contract for certain financial reasons.
  - Priority Partners has been purchased by another MCO.
  - Newborns are enrolled under their mother in Priority Partners on the date of delivery and cannot change for 90 days.

Once an individual chooses or is auto-assigned to Priority Partners and selects a PCP, Priority Partners enrolls the member into that practice and mails them a member ID card. Priority Partners will choose a PCP close to the member's residence if a PCP is not selected.

Priority Partners is required to provide PCPs with their rosters on a monthly basis. Please note that information changes frequently and should not be used to determine member eligibility. Priority Partners members may change PCPs at any time. Members can call Customer Service Monday-Friday from 8 a.m. to 5 p.m. at 800-654-9728 to change their PCP.

PCPs may see Priority Partners members even if the PCP name is not listed on the membership card. As long as the member is eligible on the date of service and the PCP is participating with Priority Partners, the PCP may see the member.

# CREDENTIALING AND RE-CREDENTIALING

The JHHC credentialing process is an important component of the JHHC Quality Assurance program. JHHC's credentialing process is reviewed, at a minimum, annually by the Special Credentials Review Committee, JHHC's credentialing governing body.

The goal of credentialing is to ensure that JHHC has a qualified multidisciplinary practitioner panel to deliver safe, effective and appropriate care to its members. At the time of initial credentialing and prior to issuing approval all provider candidate applications undergo the following primary source verifications:

- Licensure
- Education
- Office of Inspector General
- Board certification (if applicable)
- Hospital affiliation

Practitioners are re-credentialed on at least an every three-year cycle.

## **Types of Providers Requiring Credentialing**

- Hospitals-acute care, general and special
- Organ transplantation centers
- Organ transplant consortia
- Hospitals- psychiatric
- Hospitals – long term (tuberculosis, chronic care or rehabilitation,
- Skilled nursing facilities
- Residential treatment centers
- Other special institutional providers
- Freestanding ambulatory surgical centers
- Birthing centers
- Psychiatric partial hospitalization programs
- Hospice programs
- Substance-use disorder rehabilitation facilities

## **Types of Individual Professional Providers Requiring Credentialing**

- Doctors of medicine
- Doctors of osteopathy

## **Types of Other Allied Health Professionals Requiring Credentialing**

- Clinical psychologist
- Doctors of optometry
- Doctors of podiatry or surgical chiropody
- Certified nurse midwives
- Certified nurse practitioner
- Certified clinical social worker

- Certified psychiatric nurse specialist
- Certified physician assistants
- Certified registered nurse anesthetist
- Other individual paramedical providers
- Licensed registered physical therapists and occupational therapists
- Extramedical individual providers (certified marriage and family therapists, mental health counselors)

In order to facilitate timely re-credentialing, 120 days prior to the practitioner's expiration date, JHHC's Credentialing department will pull out applications from the CAQH. JHHC will only mail a blank current state of Maryland Uniform Credentialing Form (UCF) to the provider if the practitioner is not in CAQH. For your convenience, this state mandated form can be found at <https://insurance.maryland.gov/Insurer/Pages/HealthCareProviders.aspx>.

Practitioners are required to:

- Submit either a completed current copy of the UCF or a current downloaded CAQH application
- Correct and/or update any necessary information
- Attach the required documentation
- Ensure that all information is up-to-date and accurate before signing the authorization for release of information
- Return it in the envelope provided within 15 days of receipt

Continued network participation is dependent upon completion of the re-credentialing process within the established timeframe. Please contact your Provider Relations network manager at 410-762-5385 or 888-895-4998 or the Credentialing department at 410-424-4619 if you have questions about the credentialing process.

## **Rights to Appeal the Denial of Re-Credentialing**

No appeal rights for a re-credentialing denial are available if there is a:

- Revocation of license
- Conviction of fraud
- Initial credentialing is denied

Providers who are eligible for appeal must submit their request in writing within 30 calendar days of the denial of their re-credentialing. The credentialing manager or designee will convene an appeal panel comprised of three qualified practitioners. At least one practitioner is a clinical peer of the appealing provider who is not otherwise involved in JHHC network management operations activities. For the purpose of this requirement, a clinical peer is a provider with the same type of license. The panel shall not include any individual who is in direct economic competition with the affected provider or who is professionally associated with or related to the provider or who otherwise might directly benefit from the outcome.

Knowledge of the matter shall not preclude any individual from serving as a member of the panel; however, involvement with any earlier decision concerning the initial determination or corrective action will require the individual to remove him/herself from the panel.

Within 10 calendar days of either a first- or second-level panel review, and after reviewing any written statements submitted by the provider and any other relevant information, the panel will render a decision. The credentialing department designee will notify the affected provider in writing within five calendar days of the panel's decision. This notice will be sent either by certified mail return receipt requested or express mail with receipt of delivery.

If the provider requests a second review, the provider is subject to the following:

- There is no right to personal appearance before the panel;
- The burden of proof remains with provider to explain their actions or lack of actions;
- The provider may submit a written statement for the panel's consideration;
- The provider may submit the written statements of others for the panel's consideration;
- The provider may submit other documents relevant to the determination; and
- A determination by the Second Level Review Panel is final with no further appeal rights

## PROVIDER REIMBURSEMENT

Payment is in accordance with your provider contract with Priority Partners (or with their management groups that contract on your behalf with Priority Partners). In accordance with the Maryland Annotated Code, Health General Article 15-1005, we must mail or transmit payment to our providers eligible for reimbursement for covered services within 30 days after receipt of a clean claim. If additional information is necessary, we shall reimburse providers for covered services within 30 days after receipt of all reasonable and necessary documentation. We shall pay interest on the amount of the clean claim that remains unpaid 30 days after the claim is filed. You must verify through the Eligibility Verification System (EVS) that participants are assigned to Priority Partners before rendering services.

Reimbursement for hospitals and other applicable provider sites will be in accordance with Health Services Cost Review Commission (HSCRC) rates.

Priority Partners is not responsible for payment of any remaining days of a hospital admission that began prior to a Medicaid participant's enrollment in Priority Partners. However, we are responsible for reimbursement to providers for professional services rendered during the remaining days of the admission if the member remains Medicaid eligible.

## SELF-REFERRAL AND EMERGENCY SERVICES

The state allows members to self-refer to out-of-network providers for the services listed below.

Priority Partners will pay out-of-plan providers the state's Medicaid rate for the following services:

- Emergency services provided in a hospital emergency facility and medically necessary post-stabilization services
- Family planning services except sterilizations
- School-based health center services. School-based health centers are required to send a medical encounter form to the child's MCO. We will forward this form to the child's PCP who will be responsible for filing the form in the child's medical record. A school-based health center reporting form is linked here and can be found in Section IX of the manual and also at: [https://mmcp.dhmh.maryland.gov/epsdt/healthykids/Documents/Section\\_5/Addendum/Sec\\_5\\_SBHC%20Health%20Visit%20Report%20Form%20-%20Electronic%2007.09.09%20\(4\).pdf](https://mmcp.dhmh.maryland.gov/epsdt/healthykids/Documents/Section_5/Addendum/Sec_5_SBHC%20Health%20Visit%20Report%20Form%20-%20Electronic%2007.09.09%20(4).pdf)
- Pregnancy-related services when a member has begun receiving services from an out-of-plan provider prior to enrolling in Priority Partners
- Initial medical examination for children in state custody
- Annual diagnostic and evaluation services for recipients with HIV/AIDS

- Renal dialysis provided at a Medicare-certified facility
- The initial examination of a newborn by an on-call hospital physician when we do not provide for the service prior to the baby's discharge
- Services performed at a birthing center, including an out-of-state center located in a contiguous state

## Self-Referred Services for Children with Special Health Care Needs

If a provider contracts with Priority Partners for any of the services listed above the provider must follow our billing and preauthorization procedures. Reimbursements will be paid the contracted rate.

Children with special health care needs may self-refer to providers outside of the Priority Partners network under certain conditions. Self-referral for children with special needs is intended to ensure continuity of care and appropriate plans of care. Self-referral for children with special health care needs will depend on whether or not the condition that is the basis for the child's special health care needs is diagnosed before or after the child's initial enrollment in Priority Partners. Medical services directly related to a special needs child's medical condition may be accessed out-of-network only if the following specific conditions are satisfied:

- **New member:** A child who, at the time of initial enrollment, was receiving these services as part of a current plan of care may continue to receive these specialty services provided the pre-existing out-of-network provider submits the plan of care to us for review and approval within 30 days of the child's effective date of enrollment into Priority Partners and we approve the services as medically necessary.
- **Established member:** A child who is already enrolled in Priority Partners when diagnosed as having a special health care need requiring a plan of care that includes specific types of services may request a specific out-of-network provider. We are obliged to grant the member's request unless we have a local in-network specialty provider with the same professional training and expertise who is reasonably available and provides the same services and service modalities.

If we deny, reduce, or terminate the services, members have an appeal right, regardless of whether they are a new or established member. Pending the outcome of an appeal, we may reimburse for services provided.

## CONTINUITY OF CARE

Under Maryland insurance law, HealthChoice members have certain continuity of care rights. These apply when the member:

- Is new to the HealthChoice program
- Switched from another company's health benefit plan
- Switched to Priority Partners from another MCO

The following services are excluded from Continuity of Care provisions for Health Choice members:

- Dental services
- Mental health services
- Substance use disorder services
- Benefits or services provided through the Maryland Medicaid fee-for-service program.

## **Preauthorization for health care services**

If the previous MCO or company preauthorized services Priority Partners will honor the approval if the member calls 800-654-9728. Under Maryland law, insurers must provide a copy of the preauthorization within 10 days of the member's request. There is a time limit for how long we must honor this preauthorization. For all conditions other than pregnancy, the time limit is 90 days or until the course of treatment is completed, whichever is sooner. The 90-day limit is measured from the date the member's coverage starts under the new plan. For pregnancy, the time limit lasts through the pregnancy and the first visit to a health practitioner after the baby is born.

## **Right to use non-participating providers**

Members can contact Priority Partners to request the right to continue to see a non-participating provider. This right applies only for one or more of the following types of conditions:

- Acute conditions
- Serious chronic conditions
- Pregnancy
- Any other condition upon which Priority Partners and the out-of-network provider agree.

There is a time limit for how long we must allow the member to receive services from an out of network provider. For all conditions other than pregnancy, the time limit is 90 days or until the course of treatment is completed, whichever is sooner. The 90-day limit is measured from the date the member's coverage starts under the new plan. For pregnancy, the time limit lasts through the pregnancy and the first visit to a health care provider after the baby is born.

If the member has any questions they should call Priority Partners Member Services at 800-654-9728 or the state's HealthChoice Help Line at 800-284-4510.

## SECTION II.

### Outreach and Support Services, Appointment Scheduling, EPSDT and Special Populations

# PRIORITY PARTNERS SUPPORT SERVICES

## Member Services

Priority Partners' Member Services department provides clear communication mechanisms to expedite linkages to community-based resources that address the needs of our members. Requests for Member Services may be generated from members, PCPs, specialty providers, care coordinators, case managers, members' friends and family.

Requests for Member Services may be submitted by telephone, electronically (via the website) or by faxing in a completed Member Services Referral Form.

- Phone 800-654-9728, option 3
- Fax 410-424-4030
- Email [oreferrals@jhhc.com](mailto:oreferrals@jhhc.com)

Notification of members for upcoming health maintenance activities and written reminders of appointment dates to ensure scheduling of initial appointment within specified guidelines for targeted populations

- Follow-up on members who miss two consecutive health maintenance appointments by telephone or letter to include assistance with rescheduling appointments
- Schedule necessary and mandated referrals and collaborate with the local health department (LHD)
- Work with local Social Service departments in obtaining solutions to resolve social issues
- Work collaboratively with care coordinators in the coordination and implementation of member's care plans
- Coordinate and/or arrange transportation
- Coordinate and/or arrange interpretation services, including services for the hearing impaired

## Special Needs/Enhanced Care Management

Care Management is an intensive coordination and evaluation of care that is appropriate when a member is part of a special needs population.

Enhanced case management services are available for members who are part of a special needs populations including:

- Children with special health care needs
- Children in state-supervised care
- Individuals with a physical disability
- Individuals with a developmental disability
- Pregnant and postpartum women
- Individuals who are homeless
- Individuals with HIV/AIDS
- Individuals with a need for substance abuse treatment

For assistance in coordinating care for a special needs member, contact the special needs coordinator at 410-424-4906 or 800-261-2396 ext. 4906, or fax a completed Priority Partners Managed Care Organization Special Needs Referral form to 410-424-4887.

## Health Education

In addition to member and special needs services, the Priority Partners Health Education team is a resource for providers that include the following educational methods:

- Individual member health education for special needs populations and those referred by the PCP as having problems following a plan of care
- Provisions for individual and group health education and health promotion activities
- Participation in community-based health screening programs for Priority Partners’ members
- Collaboration with care coordinators and case managers in providing member education, reinforcement of member participation in the treatment plan and follow-up of missed appointments
- Serve as a member advocate
- Facilitate member’s participation on the Priority Partners’ Consumer Advisory Board

For additional program information, a Priority Partners Health Educator can be contacted by calling 800-957-9760, or emailing [healtheducation@jhhc.com](mailto:healtheducation@jhhc.com).

# STATE NON-EMERGENCY MEDICAL TRANSPORTATION (NEMT) ASSISTANCE

If a member needs transportation assistance contact the LHD to assist members in accessing non-emergency transportation services. Priority Partners will cooperate with and make reasonable efforts to accommodate logistical and scheduling concerns of the LHD.

Transportation services that are provided through LHDs. Priority Partners will assist members to secure non-emergency transportation through their LHD. Additionally, we provide non-emergency transportation to access a covered service if we choose to provide the service at a location that is outside of the closest county in which the service is available. The following is a list of the transportation contact numbers for each county.

County	Company	Telephone Number
Alleghany		301-759-5123
Anne Arundel		410-222-7152
Baltimore City	Problem Resolution	410-396-7007

Wicomico		410-548-5142 Opt. #1
Worcester		410-632-0092 or 410-632-0093

## PRIORITY PARTNERS TRANSPORTATION ASSISTANCE

Under certain circumstances Priority Partners may provide limited transportation assistance through the LHD.

Priority Partners has revised its member transportation program with the goals of reducing no-shows and cancellations.

To assist members with transportation needs, Priority Partners has a transportation specialist who can help members apply for other services, such as Mobility and Paratransit, which are designed for people who are unable to use local bus, metro or light rail services. The transportation specialist also has access to community resources throughout Maryland to assist members with transportation.

Priority Partners will only provide transportation to medical appointments for Priority Partners members who cannot access specialty medical appointments, or urgent PCP appointments, but only as a last resort. Members must exhaust all other available means of transportation (e.g. personal vehicles, family and friends, public transportation). Even then, this does not guarantee the request will be approved.

Reimbursement for gas is available to members who arrange transportation on their own and meet the criteria for reimbursement. If you have additional questions about our transportation program, please call Priority Partners Member Services at 800-654-9728.

## STATE SUPPORT SERVICES

The state provides grants to local health departments to operate Administrative Care Coordination/ Ombudsman services (ACCUs) to assist with outreach to certain non-complaint members and special populations as outlined below. MCOs and providers are encouraged to develop collaborative relationships with the local ACCU.

See the chart below for the local ACCU contact information. If you have questions call the Division of Community Liaison and Care Coordination at 410-767-6750, which oversees the ACCUs or the HealthChoice Provider Help Line at 800-766-8692.

County	Main Phone Number	Transportation Phone Number	Administrative Care Coordination Unit (ACCU) Phone Number	Website

# SCHEDULING APPOINTMENTS

HealthChoice members must be scheduled for an initial appointment within 90 days of enrollment unless one of the following exceptions apply:

- You determine that no immediate initial appointment is necessary because the member already has an established relationship with you.
- For children under 21, the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) periodicity schedule requires a visit in a shorter timeframe. For example, new members up to two years of age must have a well-child visit within 30 days of enrollment unless the child already has an established relationship with a provider and is not due for a well-child visit.
- For pregnant and postpartum women who have not started to receive care, the initial health visit must be scheduled and the women seen within 10 days of a request.
- As part of the MCO enrollment process the state asks the member to complete a Health Services Needs Information (HSNI) form. This information is then transmitted to the MCO. A member who has an identified need must be seen for their initial health visit within 15 days of Priority Partners' receipt of the HSNI.
- During the initial health visit, the PCP is responsible for documenting a complete medical history and performing and documenting results of an age appropriate physical exam.
- In addition, at the initial health visit, initial prenatal visit, or when a member's physical status, behavior, or laboratory findings indicate possible substance use disorder, you must refer the member to the Behavioral Health System at 800-888-1965.

# EPSDT DIAGNOSIS AND TREATMENT

## EPSDT Requirements

Priority Partners will assign children and adolescents under age 21 to a PCP who is certified by the EPSDT/Healthy Kids program. If member's parent, guardian, or care taker, as appropriate, specifically requests assignment to a PCP who is not EPSDT-certified, the non-EPSDT provider is responsible for ensuring that the child receives well childcare according to the EPSDT schedule. If you provide primary care services to individuals under age 21 and are not EPSDT certified call 410-767-1836. For more information about the HealthyKids/EPSDT program and expanded EPSDT services for children under age 21 go to <https://mmcp.health.maryland.gov/epsdt/Pages/Home.aspx>.

Providers must follow the Maryland Healthy Kids/EPSDT program periodicity schedule and all associated rules to fulfill the requirements under Title XIX of the Social Security Act for providing children under 21 with EPSDT services. The program requires you to:

- Notify members of their due dates for wellness services and immunizations.
- Schedule and provide preventive health services according to the state's EPSDT periodicity schedule and screening annual.
- Refer infants and children under age 5 and pregnant teens to the supplemental nutritional program for Women Infants and Children (WIC). Provide the WIC Program with member information about hematocrits and nutrition status to assist in determining a member's eligibility for WIC.

- Participate in the Vaccines for Children (VFC) program. Many of the routine childhood immunizations are furnished under the VFC program. The VFC program provides free vaccines for health care providers who participate in the VFC program. We will pay for new vaccines that are not yet available through the VFC program.
- Schedule appointments at an appropriate time interval for any member who has an identified need for follow-up treatment as the result of a diagnosed condition.

Members under age 21 are eligible for a wider range of services under EPSDT than adults. PCPs are responsible for understanding these expanded services. See Section III Member Benefits and Services for more information. PCPs must make appropriate referrals for services that prevent, treat, or ameliorate physical, mental or developmental problems or conditions.

Providers shall refer children for specialty care as appropriate. Referrals must be made when a child:

- Is identified as being at risk of a developmental delay by the developmental screen required by EPSDT
- Has a 25 percent or more delay in any developmental area as measured by appropriate diagnostic instruments and procedures
- Manifests atypical development or behavior
- Has a diagnosed physical or mental condition that has a high probability of resulting in developmental delay.

A child thought to have been physically, mentally, or sexually abused must be referred to a specialist who is able to make that determination.

## EPSDT Outreach and Referral to LHD

For each scheduled Healthy Kids appointment, written notice of the appointment date and time must be sent by mail to the child's parent, guardian, or caretaker, and attempts must be made to notify the child's parent, guardian, or caretaker of the appointment date and time by telephone.

- For children from birth through 2 years of age who miss EPSDT appointments and for children under age 21 who are determined to have parents, care givers or guardians who are difficult to reach, or repeatedly fail to comply with a regimen of treatment for the child, you should follow the procedures below to bring the child into care.
- Document outreach efforts in the medical record. These efforts should include attempts to notify the member by mail, by telephone, and through face-to-face contact.
- Schedule a second appointment within 30 days of the first missed appointment. Within 10 days of the child missing the second consecutive appointment, you can request assistance in locating and contacting the child's parent, guardian or caretaker by calling Priority Partners at 800-6549728.
- You may concurrently make a written referral to the LHD ACCU by completing the Local Health Services Request form linked here and located in Section IX in the back of this manual.
- Continue to work collaboratively with Priority Partners and the ACCU until the child is in care and up to date with the EPSDT periodicity schedule or **receives appropriate** follow-up care.

Support and outreach services are also available to members that have **impaired cognitive ability or psychosocial problems such as homelessness** or other conditions likely to cause them to have difficulty understanding the importance of care instructions or difficulty navigating the health care system. You must notify Priority Partners if these members miss three consecutive appointments or repeatedly does not follow their treatment plan. We will attempt to outreach the member and may make a referral to the ACCU to help locate the member and get them into care.

# STATE DESIGNATED SPECIAL NEEDS POPULATIONS

The state has identified certain groups as requiring special clinical and support services from Priority Partners. These special needs populations are:

- Pregnant and postpartum women
- Children with special health care needs
- Children in state-supervised care
- Individuals with HIV/AIDS
- Individuals with a physical disability
- Individuals with a developmental disability
- Individuals who are homeless

To provide care to a special needs population, it is important for the PCP and specialist to:

- Demonstrate their credentials and experience to us in treating special populations.
- Collaborate with our case management staff on issues pertaining to the care of a special needs member.
- Document the plan of care and care modalities and update the plan annually.

Individuals in one or more of these special needs populations must receive services in the following manner from us and/or our providers:

- Upon the request of the member or the PCP, a case manager trained as a nurse or a social worker will be assigned to the member. The case manager will work with the member and the PCP to plan the treatment and services needed. The case manager will not only help plan the care, but will help keep track of the health care services the member receives during the year and will serve as the coordinator of care with the PCP across a continuum of inpatient and outpatient care.
- The PCP and our case managers, when required, coordinate referrals for needed specialty care. This includes specialists for disposable medical supplies (DMS), durable medical equipment (DME) and assistive technology devices based on medical necessity. **PCPs should follow the referral protocols established by us for sending HealthChoice members to specialty care networks.**
- We have a special needs coordinator on staff to focus on the concerns and issues of special needs populations. The special needs coordinator helps members find information about their condition or suggests places in their area where they may receive community services and/or referrals. To contact the special needs coordinator call 800-654-9728.
- Providers are required to treat individuals with disabilities consistent with the requirements of the Americans with Disabilities Act of 1990 (P.L. 101-336 42 U.S.C. 12101 et. seq. and regulations promulgated under it).

## Special Needs Population-Outreach and Referral to the LHD

A member of a special needs population who fails to appear for appointments or who has been non-compliant with a regimen of care must be referred to Priority Partners. If a member continues to miss appointments, call Priority Partners at 800-654-9728. We will attempt to contact the member by mail, telephone and/or face-to-face visit. If we are unsuccessful in these outreach attempts, we will notify the LHD ACCU. You may also make a written referral to the ACCU by completing the Local Health Services Request Form, which is linked here and also located at the back of this manual under section IX. The local ACCU staff will work

collaboratively with Priority Partners to contact the member and encourage them to keep appointments and provide guidance on how to effectively use their Medicaid/HealthChoice benefits.

## Services for Pregnant and Postpartum Women

Prenatal care providers are key to assuring that pregnant women have access to all available services. Many pregnant women will be new to HealthChoice and will only be enrolled in Medicaid during pregnancy and the postpartum period. Medicaid provides full benefits to these women during pregnancy and for two months after delivery after which they will automatically be enrolled in the Family Planning Waiver Program. (For more information visit: [https://mmcp.health.maryland.gov/Documents/Factsheet3\\_Maryland%20Family%20Planning%20Waiver%20Program.pdf](https://mmcp.health.maryland.gov/Documents/Factsheet3_Maryland%20Family%20Planning%20Waiver%20Program.pdf))

Priority Partners and our providers are responsible for providing pregnancy-related services, which include:

- Comprehensive prenatal, perinatal, and postpartum care (including high-risk specialty care)
- Prenatal risk assessment and completion of the Maryland Prenatal Risk Assessment form (MDH 4950)
- An individualized plan of care based upon the risk assessment and which is modified during the course of care as needed
- Appropriate levels of inpatient care, including emergency transfer of pregnant women and newborns to tertiary care centers
- Case management services
- Prenatal and postpartum counseling and education including basic nutrition education;
- Nutrition counseling by a licensed nutritionist or dietician for nutritionally high-risk pregnant women.

The state provides these additional services for pregnant women:

- Special access to substance use disorder treatment within 24 hours of request and intensive outpatient programs that allow for children to accompany their mother
- Dental services

Encourage all pregnant women to call the state's Help Line for Pregnant Women at 800-456-8900. This is especially important for women who are newly eligible or not yet enrolled in Medicaid. If the woman is already enrolled in HealthChoice call us and also instruct her to call Priority Partners at 800-654-9728.

Pregnant women who are already under the care of an out of network practitioner qualified in obstetrics may continue with that practitioner if they agree to accept payment from Priority Partners. If the practitioner is not contracted with us, a care manager and/or Member Services representative will coordinate services necessary for the practitioner to continue the member's care until postpartum care is completed.

The prenatal care providers must follow, at a minimum, the applicable American College of Obstetricians and Gynecologists (ACOG) clinical practice guidelines. For each scheduled appointment, you must provide written and telephone, if possible, notice to member of the prenatal appointment dates and times. The prenatal care provider, PCP and Priority Partners are responsible for making appropriate referrals of pregnant members to publicly provided services that may improve pregnancy outcome. Examples of appropriate referrals include the WIC program and local evidence-based home visiting programs such as Healthy Families America or Nurse Family Partnership. Prenatal care providers are also required to:

- Provide the initial health visit within 10 days of the request.
- Complete the Maryland Prenatal Risk Assessment form-MDH 4850 during the initial visit and submit it to the Local Health Department within 10 days of the initial visit. Priority Partners will pay for the initial prenatal risk assessment (use CPT code H1000).
- Offer HIV counseling and testing and provide information on HIV infection and its effects on the unborn child.
- At each visit provide health education relevant to the member's stage of pregnancy. Priority Partners will pay for this (use CPT code H1003 for Enriched Maternity Services). You may only bill for one unit of Enriched Maternity Services per visit. Refer pregnant and postpartum women to the WIC program.
- If under the age 21, refer the member to their PCP to have their EPSDT screening services provided.
- Reschedule appointments within 10 days if a member misses a prenatal appointment. Call Priority Partners if a prenatal appointment is not kept within 30 days of the first missed appointment.
- Refer pregnant women to the Maryland Healthy Smiles Dental Program. Members can contact Healthy Smiles at 855-934-9812; TDD: 855-934-9816; website: <http://member.mdhealthysmiles.com/> if you have questions about dental benefits.
- Refer pregnant and postpartum women who may be in need of diagnosis and treatment for a mental health or substance use disorder to the Behavioral Health System; if indicated they are required to arrange for substance abuse treatment within 24 hours.
- Record the member's choice of pediatric provider in the medical record prior to her eighth month of pregnancy. We can assist in choosing a PCP for the newborn. Advise the member that she should be prepared to name the newborn at birth. This is required for the hospital to complete the *Hospital Report of Newborns, MDH 1184*. (The hospital must complete this form so Medicaid can issue the newborns ID number.) The newborn will be enrolled in the mother's MCO.

## Childbirth Related Provisions

Special rules for length of hospital stay following childbirth:

A member's length of hospital stay after childbirth is determined in accordance with the ACOG and AAP Guidelines for perinatal care unless the 48 hour (uncomplicated vaginal delivery) / 96 hour (uncomplicated cesarean section) length of stay guaranteed by state law is longer than that required under the guidelines.

If a member must remain in the hospital after childbirth for medical reasons, and she requests that her newborn remain in the hospital while she is hospitalized, additional hospitalization of up to 4 days is covered for the newborn and must be provided.

If a member elects to be discharged earlier than the conclusion of the length of stay guaranteed by state law, a home visit must be provided. When a member opts for early discharge from the hospital following childbirth, (before 48 hours for vaginal delivery or before 96 hours for C-section) one home nursing visit within 24 hours after discharge and an additional home visit, if prescribed by the attending provider, are covered.

Postnatal home visits must be performed by a registered nurse, in accordance with generally accepted standards of nursing practice for home care of a mother and newborn, and must include:

- An evaluation to detect immediate problems of dehydration, sepsis, infection, jaundice, respiratory distress, cardiac distress, or other adverse symptoms of the newborn
- An evaluation to detect immediate problems of dehydration, sepsis, infection, bleeding, pain, or other adverse symptoms of the mother
- Blood collection from the newborn for screening, unless previously completed
- Appropriate referrals
- Any other nursing services ordered by the referring provider.

If the member remains in the hospital for the standard length of stay following childbirth, a home visit, if prescribed by the provider, is covered.

Unless we provide for the service prior to discharge, a newborn's initial evaluation by an out-of-network on-call hospital physician before the newborn's hospital discharge is covered as a self-referred service.

We are required to schedule the newborn for a follow-up visit within 2 weeks after discharge if no home visit has occurred or within 30 days after discharge if there has been a home visit. Breast pumps are covered under certain situations for breastfeeding mothers. Call us at 800-654-9728.

## Children with Special Health Care Needs

Self-referral for children with special needs is intended to ensure continuity of care and appropriate plans of care. Self-referral for children with special health care needs will depend on whether or not the condition that is the basis for the child's special health care needs is diagnosed before or after the child's initial enrollment in Priority Partners.

Medical services directly related to a special needs child's medical condition may be accessed out-of-network only if the following specific conditions are satisfied:

**New Member:** A child who, at the time of initial enrollment, was receiving these services as part of a current plan of care may continue to receive these specialty services provided the pre-existing out-of-network provider submits the plan of care to us for review and approval within 30 days of the child's effective date of enrollment into Priority Partners and we approve the services as medically necessary.

**Established Member:** A child who is already enrolled in Priority Partners when diagnosed as having a special health care need requiring a plan of care that includes specific types of services may request a specific out-of-network provider. We are obliged to grant the member's request unless we have a local in-network specialty provider with the same professional training and expertise who is reasonably available and provides the same services and service modalities.

If we deny, reduce, or terminate the services, members have an appeal right, regardless of whether they are a new or established member. Pending the outcome of an appeal, we may reimburse for services provided.

For children with special health care needs Priority Partners will:

- Provide the full range of medical services for children, including services intended to improve or preserve the continuing health and quality of life, regardless of the ability of services to affect a permanent cure.
- Provide case management services to children with special health care needs as appropriate. For complex cases involving multiple medical interventions, social services, or both, a multi-disciplinary team must be used to review and develop the plan of care for children with special health care needs.
- Refer special needs children to specialists as needed. This includes specialty referrals for children who have been found to be functioning one third or more below chronological age in any developmental area as identified by the developmental screen required by the EPSDT periodicity schedule.
- Allow children with special health care needs to access out-of-network specialty providers under certain circumstances. We log any complaints made to the state or to Priority Partners about a child who is denied a service by us. We will inform the state about all denials of service to children. All denial letters sent to children or their representative will state that members can appeal by calling the state's HealthChoice Help Line at 800-284-4510.
- Work closely with the schools that provide education and family services programs to children with special needs.

## Children in State-Supervised Care

We will ensure coordination of care for children in state-supervised care. If a child in state-supervised care moves out of the area and must transfer to another MCO, the state and Priority Partners will work together to find another MCO as quickly as possible.

## Individuals with HIV/AIDS

We are required to provide the following services for persons with HIV/AIDS:

- An HIV/AIDS specialist for treatment and coordination of primary and specialty care
- A diagnostic evaluation service (DES) assessment can be performed once every year at the member's request. The DES includes a physical, mental and social evaluation. The member may choose the DES provider from a list of approved locations or can self-refer to a certified DES for the evaluation.
- Substance use treatment within 24 hours of request.
- The right to ask us to send them to a site doing HIV/AIDS related clinical trials. We may refer members who are individuals with HIV/AIDS to facilities or organizations that can provide the members access to clinical trials.
- Providers will maintain the confidentiality of client records and eligibility information, in accordance with all federal, state and local laws and regulations, and use this information only to assist the participant in receiving needed health care services.

Priority Partners will provide case management services for any member who is diagnosed with HIV. These services will be provided with the member's consent, and will facilitate timely and coordinated access to appropriate levels of care and support continuity of care across the continuum of qualified service providers. If a member initially refuses HIV case management services they may request services at a later time. The member's case manager will serve as the member's advocate to resolve differences between the member and providers pertaining to the course or content of therapeutic interventions.

## Individuals with Physical or Developmental Disabilities

Providers who treat individuals with physical or developmental disabilities must be trained on the special communications requirements of individuals with physical disabilities. We are responsible for accommodating hearing impaired members who require and request a qualified interpreter. We can delegate the financial risk and responsibility to our providers, but we are ultimately responsible for ensuring that our members have access to these services.

Before placement of an individual with a physical disability into an intermediate or long-term care facility, we will cooperate with the facility in meeting their obligation to complete a Pre-admission Screening and Resident Review (PASRR) ID Screen.

## Homeless Individuals

Homeless individuals may use the local health department's address to receive mail. If we know an individual is homeless we will offer to provide a case manager to coordinate health care services.

# RARE AND EXPENSIVE CASE MANAGEMENT PROGRAM

The Rare and Expensive Case Management (REM) Program is an alternative to managed care for children and adults with certain diagnosis who would otherwise be required to enroll in HealthChoice. If the member is determined eligible for REM they can choose to stay in Priority Partners or they may receive services through the traditional Medicaid fee-for-service program. They cannot be in both an MCO and REM. See the following sections for the list of qualifying diagnosis and a full explanation of the referral process.

## Overview

The MDH administers a Rare and Expensive Case Management (REM) program to address the special needs of waiver-eligible individuals diagnosed with rare and expensive medical conditions. The REM program, a part of the HealthChoice program, was developed to ensure that individuals who meet specific criteria receive high-quality, medically-necessary and timely access to health services.

Qualifying diagnoses for inclusion in the REM program must meet the following criteria:

- Occurrence is generally fewer than 300 individuals per year
- Cost is generally more than \$10,000 on average per year
- Need is for highly specialized and/or multiple providers/delivery system
- Chronic condition
- Increased need for continuity of care
- Complex medical, habilitative and rehabilitative needs

## Medicaid Services and Benefits

To qualify for the REM program, a member must have one or more of the diagnoses specified in the Rare and Expensive Disease List at the end of this section. The members may elect to enroll in the REM program, or to remain in Priority Partners if the department agrees that it is medically appropriate. REM participants are eligible for fee-for-service benefits currently offered to Medicaid-eligible participants not enrolled in MCOs as well as additional, optional services, which are described in COMAR 10.09.69. All certified Medicaid providers other than HMOs, MCOs, ICF-MRs and IMDs are available to REM participants, in accordance with the individual's plan of care.

## Case Management Services

In addition to the standard and optional Medicaid services, REM participants have a case manager assigned to them. The case manager's responsibilities include

- Gathering all relevant information needed to complete a comprehensive needs assessment
- Assisting the participant with selecting an appropriate PCP, if needed
- Consulting with a multidisciplinary team that includes providers, participants, and family/care givers, to develop the participant's plan of care
- Implementing the plan of care, monitoring service delivery, and making modifications to the plan as warranted by changes in the participant's condition
- Documenting findings and maintaining clear and concise records
- Assisting in the participant's transfer out of the REM program, when and if appropriate

## Care Coordination

REM case managers are also expected to coordinate care and services from other programs and/or agencies to ensure a comprehensive approach to REM case management services. Examples of these agencies and programs are:

- DHMH – Healthy Start Program – follow up newborn assessments
- Developmental Disability Administration – coordinate services for those also in the Home and Community-based Services Waiver
- DHMH – Maternal Child Health Division on EPSDT – guidelines and benchmarks and other special needs children's issues
- AIDS Administration – consult on pediatric AIDS
- DHR – coordinate Medical Assistance eligibility issues, coordinate/consult with Child Protective Services and Adult Protective Services, coordinate with foster care programs
- Department of Education – coordination with the service coordinators of Infants and Toddlers Program and other special education programs
- Mental Hygiene Administration – referral for mental health services to the Specialty Mental Health System, as appropriate, and coordination of these services with somatic care

## Referral and Enrollment Process

Candidates for REM are generally referred from HealthChoice MCOs, providers, or other community sources. Self-referral or family-referral is also acceptable. Referral must include a physician's signature and the required supporting documentation for the qualifying diagnosis(es). A registered nurse reviews the medical information in order to determine the member's eligibility for REM. If the intake nurse determines that there is no qualifying REM diagnosis, the application is sent to the REM physician advisor for a second-level review before a denial notice is sent to the member and referral source.

If the intake nurse determines that the member has a REM-qualifying diagnosis, the nurse approves the member for enrollment. However, before actual enrollment is completed, the intake unit contacts the PCP to see if he/she will continue providing services in the fee-for service environment. If not, the case is referred to a case manager to arrange a PCP in consultation with the member.

If the PCP will continue providing services, the intake unit then calls the member to notify of the enrollment approval, briefly explain the program, and give the member an opportunity to refuse REM enrollment. If enrollment is refused, the member remains in the MCO. At the time of member notification, the intake unit also ascertains if the member is receiving services in the home, e.g., home nursing, therapies, supplies, equipment, etc. If so, the case is referred to a case manager for service coordination.

We are responsible for providing the member's care until they are actually enrolled in the REM program. If the member does not meet the REM criteria, they will remain enrolled in Priority Partners.

For questions, or to request a REM Referral Form, please call 800-565-8190. Referrals may be faxed to the REM Intake Unit at 410-333-5426, or mailed to the following address:

REM Program Intake Unit  
 Maryland Department of Health and Mental Hygiene Office of Health Services  
 201 W. Preston Street, Room 210  
 Baltimore, MD 21201-2399

## Table of Rare and Expensive Diagnosis

ICD10	ICD 10 Description	Age Limit
B20	Human immunodeficiency virus (HIV) disease	0-20
C96.0	Multifocal and multisystemic Langerhans-cell histiocytosis	0-64
C96.5	Multifocal and unisystemic Langerhans-cell histiocytosis	0-64
C96.6	Unifocal Langerhans-cell histiocytosis	0-64
D61.01	Constitutional (pure) red blood cell aplasia	0-64
D61.09	Other constitutional aplastic anemia	0-64

## SECTION III. Member Benefits & Services

# COVERED BENEFITS AND SERVICES

Priority Partners must provide comprehensive benefits equivalent to the benefits that are available to Maryland Medicaid participants through the Medicaid fee-for-service system. Only benefits that are medically necessary are covered.

## Audiology Services for Children and Adults

Audiology services will be covered by Priority Partners for both adults and children. For individuals under age 21, bilateral hearing amplification devices are covered by Priority Partners. Bilateral hearing amplification devices are only covered for adults 21 and older when the individual has a documented history of using bilateral hearing aids before age 21.

## Blood and Blood Products

Blood, blood products, derivatives, components, biologics, and serums to include autologous services, whole blood, red blood cells, platelets, plasma, immunoglobulin, and albumin.

## Care Management Services

Our care management model promotes prevention skills, performs health risk identification, and manages member compliance to avoid costly treatments. We not only outreach to the sickest members to stabilize and manage conditions, we guide healthy members further along the prevention path. Through our four main service areas of Preventive Health, Transition of Care, Complex Care, and Maternal/Child Health, we catch members wherever they are on the health continuum.

### Member Identification

Members are identified for targeted care management interventions through the following means:

- Claims and encounters
- Pharmacy data
- Laboratory data
- PCP, hospital staff, and other referrals from the health care team
- Utilization management staff
- Member self-referral
- Predictive modeling using ACGs (Adjusted Clinical Groups) developed by the Johns Hopkins Bloomberg School of Public Health

### Service Areas

#### Preventive Health

Services are provided to members showing a potential risk, an anticipated risk, or a known risk, with the intent to prevent that risk from becoming a significant care need. Includes health and wellness promotion such as exercise, nutrition and screenings, but these services are also designed to stabilize a member's health to prevent it from worsening. Qualified health care professionals will provide assistance to help close gaps in care, which may include: annual wellness visits, screenings, monitoring labs to ensure therapeutic levels of a medication, earlier intervention, and engagement with a health care provider to proactively manage a potential health exacerbation based on clinical indicators (i.e. elevated blood pressure and HbA1c that are not within range). Services include:

- Health maintenance and prevention reminders to promote self-management skills
- Health Education
- Recommendations on how to manage and maintain overall health and wellness

## **Complex Care**

Complex care management provides care management services for members with one or more complex medical conditions and over or under utilization of health care services. Priority Partners recognizes that individuals often have two or more health problems that can be well served by evidenced-based care management.

We provide service to adults with asthma, diabetes, cardiovascular conditions, chronic obstructive pulmonary disease, sickle cell, cancer, pain management, Alzheimer's, rehabilitative needs, HIV/AIDS, seizure disorders, developmental disabilities, chronic kidney disease and chronic lung disease. We provide services to children 18 years and younger with chronic conditions such as asthma, diabetes, sickle cell disease, neurological devastation, various genetic syndromes, cancer and morbid obesity, or after an organ transplant.

Services include:

- Complex Care Management Assessment completed on all members
- Coordinate transitions of care that do not fit within the Transition of Care Services model
- Coordinate care with PCPs, specialists, DME/service providers
- Support self-management
- Address barriers and gaps in care by creating innovative solutions and involving community resources
- Assist with pharmacy preauthorizations, medical necessity reviews and quality of care referrals
- Education on signs and symptoms of worsening disease
- Identify appropriate level of care

## **Transition of Care**

Provided following a health event, such as a recent hospitalization, the diagnosis of an illness, a life-changing event such as a birth, or a decision to receive long-term care services. Designed to assist members and their loved ones with coordinating a set of clinical resources and navigating the complexities of the health care system.

Services include:

- Coordination of durable medical equipment and supplies
- Medication management and reconciliation
- Appointments with providers (existing and newly identified)
- Understanding diagnosis
- Establish a relationship with providers

## **Maternal/Child Health**

Partners with Mom is a maternity care management program that targets all pregnant women. High-risk moms with a history or current symptoms of asthma, diabetes, pre-term labor, substance abuse, hypertension, and/or adolescent pregnancy are followed by our OB nurse care manager. Pregnant mothers with other high-risk OB diagnoses that may benefit from care management interventions are also considered for inclusion into this program. Pregnant women with no risk factors receive ongoing assessments during the pregnancy to identify any potential risks.

If a baby needs care in the NICU, our care managers work with the parents to ensure their understanding of their baby's care. We also assist the parents in their transition home.

Through early identification and intervention, the program has reduced antepartum admissions, decreased NICU births, and improved maternal/fetal outcomes. Partners with Mom care managers are available for onsite, high-risk clinic sessions to provide the critical resources and services needed. Care managers work closely with the provider and member to improve compliance, coordinate care, and maximize favorable outcomes.

This care management service area will also serve high-risk and at-risk pediatric members from birth through age 18.

### **Behavioral Health**

For members living with a mental health condition such as depression, autism spectrum disorder, anxiety or addiction, we provide care management services. Priority Partners' benefits may include access to confidential care coordination support.

These clinicians use a unique team approach to assist you through your treatment needs. Services include coordination with all providers, treatment resources, and health coaching.

Priority Partners' behavioral health services can be obtained by calling 800-557-6916, Monday – Friday, 8 a.m. – 5 p.m.

### **Other Services**

#### **Health Coaching**

The Health Coaching program, offered to members age 18 years and older, is an evidence-based lifestyle management and disease prevention program. The target population includes members who have well-managed chronic conditions or are at risk for developing chronic conditions.

Risk factors may include: hypertension, high cholesterol, obesity and pre-diabetes. The program focuses on the areas of smoking cessation, weight loss, nutrition, fitness and stress management. Improvements in these areas have been shown to reduce the frequency and length of hospitalizations and over the long term should reduce the incidence of chronic health conditions.

#### **Health Education**

The health education program provides educational seminars to promote awareness of health, increase knowledge, and provide members with the skills and tools needed to improve their health.

Health educators plan, deliver, and evaluate behavior modification programs with the goal of improving overall health outcomes and reducing disability. In addition to offering awareness through health education tables, waiting room literature and bulletin boards, the health education staff also offers a catalog of classes specific to the needs of individual sites. These classes are developed and/ or approved by nationally known institutes and associations, such as the National Institute of Aging, American Heart Association, American Diabetes Association, American Cancer Association and others. Health coaching and health education services can be accessed by calling our Health Promotion and Wellness team at 800-957-9760.

### **Chiropractic Care**

A covered benefit for children 6-20 years of age in the EPSDT program and adults enrolled in the REM program.

### **Clinical Trials Items and Services**

We cover certain routine costs that would otherwise be a cost to the member. Refer to our Clinical Trials medical policy for more information at [https://www.hopkinsmedicine.org/johns\\_hopkins\\_healthcare/downloads/Updated\\_Policies/cms\\_03\\_01\\_clinical\\_trials\\_mca\\_2015.pdf](https://www.hopkinsmedicine.org/johns_hopkins_healthcare/downloads/Updated_Policies/cms_03_01_clinical_trials_mca_2015.pdf).

### **Dental Services**

These services are provided by the Maryland Healthy Smiles Dental Program, administered by Scion. Contact them at 855-934-9812 if you have questions about dental benefits.

## Diabetes Care Services

We cover all medically necessary diabetes care services. For members who have been diagnosed with diabetes we cover:

- Diabetes nutrition counseling
  - Diabetes outpatient education
  - Diabetes-related durable medical equipment and disposable medical supplies, including:
    - Blood glucose meters for home use
    - Finger sticking devices for blood sampling
- Blood glucose monitoring supplies
- Diagnostic reagent strips and tablets used for testing for ketone and glucose in urine and glucose in blood
  - Therapeutic footwear and related services to prevent or delay amputation that would be highly probable in the absence of specialized footwear.

## Diabetes Prevention Program

Members are eligible to participate in an evidence-based diabetes prevention program established by the Centers for Disease Control and Prevention if they:

- Are 18 to 64 years old
- Overweight or obese
- Have an elevated blood glucose level or a history of gestational diabetes mellitus
- Have never been diagnosed with diabetes
- Are not currently pregnant

## Diagnostic and Laboratory Services

Diagnostic services and laboratory services performed by providers who are CLIA certified or have a waiver of a certificate registration and a CLIA ID number are covered. However, viral load testing, genotypic, phenotypic, or HIV/AIDS drug resistance testing used in treatment of HIV/AIDS are reimbursed directly by the state.

## Dialysis Services

We cover dialysis services either through participating providers or members can self-refer to non-participating Medicare certified providers. HealthChoice members with End State Renal Disease (ESRD) are eligible for the REM Program.

## DMS/DME

We cover medically necessary DMS/DME services. We must provide authorization for DME and/or DMS within a timely manner so as not to adversely affect the member's health and within 2 business days of receipt of necessary clinical information but not later than 14 calendar days from the date of the initial request. We must pay for any durable medical equipment authorized for members even if delivery of the item occurs within 90 days after the member's disenrollment from Priority Partners, as long as the member remains Medicaid eligible during the 90-day time period.

We cover disposable medical supplies, including incontinence pants and disposable underpants for medical conditions associated with prolonged urinary or bowel incontinence, if necessary to prevent institutionalization or infection. We cover all DMS/DME used in the administration or monitoring of prescriptions. We pay for breast pumps under certain circumstances in accordance with Medicaid policy.

## **Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) Services**

For members under 21 years of age, all of the following EPSDT services are covered:

- Well-child services provided in accordance with the EPSDT periodicity schedule by an EPSDT-certified provider, including:
  - Periodic comprehensive physical examinations
  - Comprehensive health and developmental history, including an evaluation of both physical and mental health development
  - Immunizations
  - Laboratory tests including blood level assessments
  - Vision, hearing, and dental screening
  - Health education
- The state must also provide or assure Priority Partners provides expanded EPSDT services and partial or inter-periodic well-child services necessary to prevent, treat, or ameliorate physical, mental, or developmental problems or conditions. Services must be sufficient in amount, duration, and scope to treat the identified condition, and all must be covered subject to limitations only on the basis of medical necessity. These include such services as:
  - Chiropractic services
  - Nutrition counseling
  - Audiological screening when performed by a PCP
  - Private duty nursing
  - Durable medical equipment including assistive devices
  - Behavioral health services

Limitations on covered services do not apply to children under age 21 receiving medically necessary treatment under the EPSDT program. Providers are responsible for making appropriate referrals for publicly funded programs not covered by Medicaid, including Head Start, the WIC program, Early Intervention services; School Health-Related Special Education Services, vocational rehabilitation, and evidenced based home visiting services provided by community based organizations.

The Schedule reflects minimum standards required for all Maryland Medicaid recipients from birth to 21 years of age. The Maryland Healthy Kids Program requires yearly preventive care visits between ages 3 years through 20 years. <sup>1</sup>Refer to AAP 2006 Policy Statement referenced in the Healthy Kids Program Manual.-Screening required using standardized tools. <sup>2</sup>Newborn Hearing Screen follow-up recommended for abnormal results. <sup>3</sup>Blood Pressure measurement in infants and children with specific risk conditions should be performed at visits before age 3 years. <sup>4</sup>The fluoride varnish may be administered by either a primary care provider or a dentist.

<http://mmcp.dhmh.maryland.gov/epsdt>

Healthy Kids Program

Effective 01/01/2018

## Family Planning Services

Comprehensive family planning services are covered, including:

- Office visits for family planning services
- Laboratory tests including pap smears
- All FDA-approved contraceptive devices, methods and supplies
- Immediate postpartum insertion of IUDs
- Oral contraceptives (must allow a 12-month supply to be dispensed for refills)
- Emergency contraceptives and condoms without a prescription
- Voluntary sterilization procedures (Sterilization procedures are not self-referred. A member must be 21 years of age and must use an in-network provider or have authorization for out-of-network care.)

## Gender Transition Services

We cover medically necessary gender reassignment surgery and other somatic care for members with gender identity disorder. Details about covered gender transition services can be found in our Gender Transition Medical Policy or at [https://www.hopkinsmedicine.org/johns\\_hopkins\\_healthcare/downloads/Updated\\_Policies/cms\\_07\\_05\\_gender\\_reassignment\\_2017.pdf](https://www.hopkinsmedicine.org/johns_hopkins_healthcare/downloads/Updated_Policies/cms_07_05_gender_reassignment_2017.pdf).

## Habilitative Services

We cover habilitative services when medically necessary for certain adults who are eligible for Medicaid under the Affordable Care Act (ACA). These services include: Physical therapy, occupational therapy and speech therapy. If you have questions about which adults are eligible call 888-895-4998.

## Home Health Services

Home health services are covered when the member's PCP or attending physician certifies that the services are necessary on a part-time, intermittent basis by a member who is homebound and requires home visits.

Covered home health services are delivered in the member's home and include:

- Skilled nursing services including supervisory visits
- Home health aide services (including biweekly supervisory visits by a registered nurse in the member's home, with observation of aide's delivery of services to member at least every other visit)
- Physical therapy services
- Occupational therapy services
- Speech pathology services
- Medical supplies used in a home health visit

## Hospice Care Services

Hospice care services can be provided in a hospice facility, in a long-term care facility, or at home. We do not require a hospice care member to change his/her out-of-network hospice provider to an in-network hospice provider. Hospice providers should make members aware of the option to change MCOs. MDH will allow new members who are in hospice care to voluntarily change their MCO if they have been auto-assigned to a MCO with whom the hospice provider does not contract. If the new member does not change their MCO, then the MCO to which the new member is currently enrolled must pay the out-of-network hospice provider.

## Inpatient Hospital Services

Inpatient hospital services are covered. Priority Partners is not responsible for payment of any remaining days of a hospital admission that began prior to the individual's enrollment in Priority Partners. We are, however, responsible for reimbursement of professional services rendered during the remaining days of the admission if the member remains Medicaid eligible.

## Long-term Care Facility Services/Nursing Facility Services

For members who were enrolled in Priority Partners prior to admission to a nursing facility, chronic hospital or chronic rehabilitation hospital and who meet the state's level of care (LOC) criteria, Priority Partners is responsible for up to 90 days of the stay subject to specific rules.

## Outpatient Hospital Services

Medically necessary outpatient hospital services are covered. As required by the state, we limit observation stays to 24 hours.

## Oxygen and Related Respiratory Equipment

Oxygen and related respiratory equipment are covered.

## Pharmacy Services

Priority Partners formulary includes products approved by the Food and Drug Administration (FDA) and products mentioned in COMAR 10.09.67.04D(3). Priority Partners is responsible for most pharmacy services and maintaining a drug formulary that is at least equivalent to the standard therapies of the Maryland Medical Assistance Program. This requirement pertains to new drugs or equivalent drug therapies, routine childhood immunizations, vaccines prescribed for high risk and special needs populations and vaccines prescribed to protect individuals against vaccine-preventable diseases.

Drug coverage may be subject to preauthorization to ensure medical necessity for specific therapies. For formulary drugs requiring preauthorization, a decision will be provided in a timely manner so as not to adversely affect the member's health and in accordance with the COMAR regulations. If the service is denied, Priority Partners will notify the prescriber and the member in writing of the denial (COMAR 10.67.09.04).

When a prescriber believes that a non-formulary drug is medically indicated, Priority Partners has procedures in place for non-formulary requests (COMAR 10.09.67.04F(2)(a)).

**For related pharmacy services and copays, please refer to Section V of this manual.**

### Pharmacy Services and Copays

We cover medical supplies or equipment used in the administration or monitoring of medication prescribed or ordered for a member by a qualifying provider. Most behavioral health drugs are on the state's formulary and are the responsibility of the state.

The Maryland Department of Health is responsible for formulary management of drugs used for substance use disorder (SUD) and most drugs used for behavioral health. Please refer to the Maryland Medicaid Mental Health Formulary and the Maryland DHMH Clinical Criteria for Substance Use Disorders (SUD) Medications for more specific information. This list may also be viewed at the Maryland Department of Health Medicaid Pharmacy Program website.

## Plastic and Reconstructive Surgery

Priority Partners covers these services when the service corrects a deformity from disease, trauma, congenital or developmental anomalies or to restore body functions. Cosmetic surgery to solely improve appearance or mental health is not covered by the state or Priority Partners.

## Podiatry Services

Priority Partners provides its members medically necessary podiatry services as follows:

- For members younger than 21 years old
- Individuals with diabetes receive the diabetes care services specified in COMAR 10.09.67.24
- Routine foot care for members 21 years old or older with vascular disease affecting the lower extremities and for members with diabetes

## Pregnancy-Related Care

Please see Section II-Special Populations.

## Primary Care Services

Primary care is generally received through a member's PCP, who acts as a coordinator of care, and has the responsibility to provide accessible, comprehensive, and coordinated health care services covering the full range of benefits for which a member is eligible. In some cases, members will opt to access certain primary care services by self-referral to providers other than their PCPs, for example, school-based health centers.

Primary care services include:

- Addressing the member's general health needs
- Coordination of the member's health care
- Disease prevention and promotion and maintenance of health
- Treatment of illness
- Maintenance of the members' health records
- Referral for specialty care

For female members: If the member's PCP is not a women's health specialist, she may see a women's health specialist within Priority Partners without a referral, for covered services necessary to provide women's routine and preventive health care services.

## Primary Behavioral Health Services (for mental health and substance use disorders)

- We cover primary behavioral health services required by members, including clinical evaluation and assessment, provision of primary behavioral health services, and/or referral for additional services, as appropriate.
- The PCP of a member requiring behavioral health services may elect to treat the member, if the treatment, including visits for Buprenorphine treatment, falls within the scope of the PCP's practice, training, and expertise. Neither the PCP nor Priority Partners may bill the Behavioral Health System for the provision of such services because these services are included in the HealthChoice capitation rates.
- When, in the PCP's judgment, a member's need for behavioral health treatment cannot be adequately addressed by primary behavioral health services provided by the PCP, the PCP should, after determining the member's eligibility (based on probable diagnosis), refer the member to the Behavioral Health System, 800-888-1965, for specialty behavioral health services.

Priority Partners no longer coordinates substance abuse or mental health services. These services are coordinated through Beacon Health Options. They can be reached at 800-888-1965, Monday through Friday from 8 a.m. to 6 p.m.

## Rehabilitative Services

Rehabilitative services including, but not limited to medically necessary physical therapy, for adults are covered. For members under 21, rehabilitative services are covered by Priority Partners only if it's a part of a home health visit or inpatient hospital stay. All other rehabilitative services for members under 21 must be billed Medicaid fee-for-service.

## Second Opinions

If a member requests one, we will provide for a second opinion from a qualified health care professional within our network. If necessary, we will arrange for the member to obtain one outside of our network.

## Specialty Care Services

Specialty care services provided by a physician or an advanced practice nurse (APN) are covered when services are medically necessary and are outside of the PCP's customary scope of practice. Specialty care services covered under this section also include:

- Services performed by non-physician, non-APN practitioners, within their scope of practice, employed by a physician to assist in the provision of specialty care services, and working under the physician's direct supervision;
- Services provided in a clinic by or under the direction of a physician or dentist
- Services performed by a dentist or dental surgeon, when the services are customarily performed by physicians

A member's PCP is responsible for making the determination, based on our referral requirements, of whether or not a specialty care referral is medically necessary. PCPs must follow our special referral protocol for children with special healthcare needs who suffer from a moderate to severe chronic health condition which:

- Has significant potential or actual impact on health and ability to function
- Requires special health care services
- Is expected to last longer than 6 months

A child functioning at 25 percent or more below chronological age in any developmental area, must be referred for specialty care services intended to improve or preserve the child's continuing health and quality of life, regardless of the services ability to effect a permanent cure.

## Telemedicine and Remote Patient Monitoring

Priority Partners offers telemedicine and remote patient monitoring services to the extent they are covered by the Medicaid FFS program.

## Transplants

Medically necessary transplants are covered to the extent they are covered by the Medicaid FFS Program.

## Vision Care Services

We cover medically necessary vision care services. We are required to cover one eye examination every two years for members age 21 or older; and for members under age 21, at least one eye examination every year in addition to EPSDT screening. For members under age 21 we are required to cover one pair of eyeglasses per year unless lost, stolen, broken, or no longer vision appropriate; contact lenses, must be covered if eyeglasses are not medically appropriate for the condition. Priority Partners members are entitled to one pair of glasses or contact lenses every two years. For more information, contact Superior Vision at 866-819-4298.

## Optional Services Covered By Priority Partners

In addition to those services previously noted, Priority Partners currently provides the following optional services to our members. These services are not taken into account when setting our capitation rate. MCO optional services may change each calendar year. We may not discontinue or reduce these services without providing advance notification to the state.

### Dental Care for Adults Age 21 and Older Who Are Not Pregnant

Priority Partners offers coverage for an oral exam and cleaning every six months, limited X-rays and a 20-percent discount on all other noncovered services. A member may self-refer for these adult dental benefits by contacting DentaQuest directly at 800-341-8478.

## Vision Care for Adults Age 21 and Older

Priority Partners offers coverage of one eye exam every year and one pair of eyeglasses or contact lenses every two years. A member may self-refer for these adult vision benefits by contacting Block Vision directly at 866-819-4298.

## Over-the-Counter Drugs

In addition to prescription benefits, Priority Partners covers some over-the-counter (OTC) medications as listed in the pharmacy formulary. These drugs are covered up to a maximum 30-day supply when ordered by a network provider. OTC products are restricted to generics whenever available. If both a prescription and OTC product are available, and clinically appropriate, providers are encouraged to prescribe OTC products.

## Medicaid Benefits Covered by the State (not covered by Priority Partners)

- The state covers dental services for children under age 21, former foster care youth up to age 26, and pregnant women. The Maryland Healthy Smiles dental program is responsible for routine preventative services, restorative service and orthodontia. Orthodontia must meet certain criteria and requires preauthorization by Scion, the state's ASO. Scion assigns members to a dentist and issues a dental Healthy Smiles ID card. However the member may go to any Healthy Smiles participating dentist. If you have questions about dental benefits for children and pregnant women call 855-934-9812.
- Outpatient rehabilitative services for children under age 21
- Specialty mental health and substance use disorders covered by the Specialty Behavioral Health System
- Intermediate care facilities for individuals with intellectual disabilities or persons with developmental disabilities
- Personal care services
- Medical day care services, for adults and children
- Abortions (covered under limited circumstances – no federal funds are used-claims are paid through the Maryland Medical Care Program). If a woman was determined eligible for Medicaid based on her pregnancy she is not eligible for abortion services.
- Emergency transportation (billed by local EMS)
- Non-emergency transportation services provided through grants to local governments
- Services provided to members participating in the state's Health Home program
- The spinal muscular atrophy drug Zolgensma.

## Benefit Limitations

**Priority Partners does not cover these services except where noted and the state does not cover these services.**

- Services performed before the effective date of the member's enrollment in the MCO are not covered by the MCO but may be covered by Medicaid fee-for-service if the member was enrolled in Medicaid
- Services that are not medically necessary
- Services not performed or prescribed by or under the direction of a health care practitioner (i.e., by a person who is licensed, certified, or otherwise legally authorized to provide health care services in Maryland or a contiguous state)
- Services that are beyond the scope of practice of the health care practitioner performing the service
- Experimental or investigational services, including organ transplants determined by Medicare to be experimental, except when a member is participating in an authorized clinical trial

- Cosmetic surgery to improve appearance or related services, but not including surgery and related services to restore bodily function or correct deformity resulting from disease, trauma, or congenital or developmental abnormalities;
- While enrolled in an MCO, services, except for emergency services, are not covered when the member is outside the state of Maryland unless the provider is part of Priority Partners network. Services may be covered when provided by an MCO network provider who has obtained the proper referral or preauthorization if required. If a Medicaid beneficiary is not in an MCO on the date of service, Medicaid fee-for service may cover the service if it is a covered benefit and if the out-of-state provider is enrolled in Maryland Medicaid.
- Services provided outside the United States
- Immunizations for travel outside the U.S.
- Piped-in oxygen or oxygen prescribed for standby purposes or on an as-needed basis
- Private hospital room is not covered unless medically necessary or no other room is available
- Autopsies
- Private duty nursing services for adults 21 years old and older
- Dental services for adult members (age 21 and older - except pregnant women and former foster care youth up to age 26)
- Orthodontia is not covered by the MCO but may be covered by Healthy Smiles when the member is under 21 and scores at least 15 points on the Handicapping Labio-lingual Deviations Index No. 4 and the condition causes dysfunction
- Ovulation stimulants, in vitro fertilization, ovum transplants and gamete intra-fallopian tube transfer, zygote intra-fallopian transfer, or cryogenic or other preservation techniques
- Reversal of voluntary sterilization procedures
- Reversal of gender reassignment surgeries
- Medications for the treatment of sexual dysfunction
- MCOs are not permitted to cover abortions. We are required **to assist women** in locating these services and we are responsible for related services (sonograms, lab work), but the abortion procedure, when conditions are met, must be billed to Medicaid fee-for service.
- Non-legend chewable tablets of any ferrous salt when combined with vitamin C, multivitamins, multivitamins and minerals, or other minerals in the formulation when the member is under 12 years old and non-legend drugs other than insulin and enteric-coated aspirin for arthritis
- Non-medical ancillary services such as vocational rehabilitation, employment counseling, or educational therapy
- Diet and exercise programs for weight loss except when medically necessary
- Lifestyle improvements (physical fitness programs and nutrition counseling, unless specified)
- MCOs do not cover emergency transportation services and are not required to cover non-emergency transportation services (NEMT). Priority Partners will assist members to access non-emergency transportation through the local health department. We will provide some transportation if necessary to fill any gaps that may temporarily occur in our network. See Section I-Transportation Services.

## SECTION IV.

### Preauthorization, Referrals, Member Complaint, Grievance & Appeal Procedures

# SERVICES REQUIRING PREAUTHORIZATION FOR MEDICAL NECESSITY

The following services listed below either require preauthorization, a referral or are direct access. For services that require preauthorization, the PCP and/or specialist must obtain authorization prior to rendering services. All services that require a referral must be on file prior to claims submission. All out-of-network providers require preauthorization.

Fax for outpatient intake services .....	410-424-4603
Fax for preauthorization .....	410-762-5205

## Audiology Services for Children and Adults

Audiology services for children and adults require preauthorization and a referral from the member's PCP to the audiologist.

## Physical/Occupational Therapy

For members over 21 years of age, a preauthorization is required after the first 12 visits. The initial six visits require the referral to be faxed to the Care Management department in order for an authorization number to be generated. For members 21-years-old and younger, services are carved out to the state.

## Speech Therapy

For members over 21 years of age, all speech services require preauthorization prior to rendering services. For members 21-years-old and younger, services are carved out to the state.

***For additional details, please refer to the Outpatient Referral & Preauthorization Guidelines at [https://www.hopkinsmedicine.org/johns\\_hopkins\\_healthcare/providers\\_physicians/resources\\_guidelines/provider\\_communications/repository](https://www.hopkinsmedicine.org/johns_hopkins_healthcare/providers_physicians/resources_guidelines/provider_communications/repository)***

## Services Requiring Clinical Information for Prospective Review

- Admission to physical rehabilitation
- Admission to skilled nursing or transitional care facilities
- Admission to nonparticipating facilities by participating providers
- Procedures requiring medical benefit determination
- Services that are potentially investigational or experimental
- All procedures requiring preauthorization listed on the Priority Partners Outpatient Referral and Preauthorization Guidelines

## Free Communication with Members

As stated in the Johns Hopkins HealthCare LLC Participating Provider Agreement: Nothing in this agreement nor any payor addenda shall preclude or restrict a provider from discussing or communicating to covered persons, public officials, or other individuals, information that is necessary or appropriate for the delivery of health care services, including: communications that relate to treatment alternatives, REGARDLESS OF

BENEFIT LIMITATIONS; communications that are necessary or appropriate to maintain the provider-patient relationship while the covered person is under the provider's care; communications that relate to a covered person's right to appeal a coverage determination with which the provider or covered person does not agree; and opinions and the basis of an opinion about public policy issues.

## Hospital Notification

Hospitals are required to notify Priority Partners within 48 hours, or next business day, of a member's admission.

# SERVICES NOT REQUIRING PREAUTHORIZATION

This section lists the services that do not require a referral or preauthorization. For services provided by participating providers in-office (Place of Service 11), outpatient hospital (Place of Service 22), or ambulatory surgery centers (Place of Service 24) by specialties listed below, no notification or preauthorization is required. These are general guidelines and are subject to change. Please review our Medical Policies section of the JHHC website for the most up-to-date and current information.

- Allergy
- Blood transfusions
- Cardiology
- Chiropractic services
- Coumadin clinics
- Dermatology
- Diabetic education
- Dialysis
- Endocrinology
- ENT/Otolaryngology
- Gastroenterology (some require preauthorization)\*
- General surgery
- Gynecology
- Hematology
- Infectious disease
- Nephrology
- Neurology
- Nutritional counseling (up to 4 visits)
- Oncology
- Ophthalmology (some require preauthorization)\*
- Oral surgery
- Orthopedics

- Pain management
- Perinatology
- Podiatry
- Pulmonology
- Rheumatology
- Routine foot care – PVD/DM diagnosis only
- Sleep study
- Urgent care centers
- Urology
- Vascular

## PREAUTHORIZATION/REFERRAL PROCESS

The Primary Care Provider (PCP) is responsible for determining when a member's health care needs exceed his/her scope of practice and directs the member's care to other providers to meet specific member care goals.

Referrals for all services must be made to participating Priority Partners providers. Consult the Priority Partners Provider Directory search function on [www.ppmco.org](http://www.ppmco.org) for participating specialist, facility and ancillary providers.

The PCP or designated staff notifies the Priority Partners intake coordinator at 410-424-4480 or 800-261-2421 prior to admission.

The intake coordinator obtains the following information for the admission:

- Patient name
- Priority Partners member ID number
- Admitting physician
- Hospital name and address
- Admission date
- Diagnosis and clinical information
- Procedure
- Name and telephone number of contact person
- Tax Identification Number (TIN)

The Priority Partners intake coordinator reviews the information for authorization entry process. Specific surgical procedures may require review by the medical director for determination of coverage.

**When a provider requests an authorization for a member, and JHHC approves that authorization, the provider needs to notify the member that their authorization has been approved.**

## Referral Procedures for Preauthorization by Care Management

Referrals may be telephoned, faxed or mailed to the Care Management department.

- Phone 410-424-4480 or 800-261-2421
- Fax 410-424-4603 – Referral not needing medical review
- Fax 410-424-4894 – Inpatient
- Fax 410-762-5205 – Outpatient medical review
- Fax 410-762-5250 – Durable Medical Equipment (DME)
- Mail to: Johns Hopkins HealthCare LLC  
7231 Parkway Drive, Suite 100  
Hanover, MD 21076  
Attn: Priority Partners Care Management

Regardless of the process used to notify Priority Partners of the referral, the PCP must communicate to the specialist the reason for and the parameters of the referral.

- PCPs must provide specialists with pertinent lab and x-ray results.
- Key referral information: Patient name, DOB, member's Priority Partners ID number, address, referring physician, referred services, reason for referral, and any limitations on referral.
- PCPs must specify the time span and number of visits up to a maximum of 50 visits in one year from the date of the referral. If the time span and number of visits are not specified by the PCP, the referral will default to one visit within 120 days of the date the referral was written. Referrals which require medical review (preauthorization) may have the number visits and date spans changed per Johns Hopkins HealthCare policy.

### Telephone Referrals

The PCP or designated staff may call in a referral 24 hours a day, seven days a week by calling 410-424- 4480 or 800-261-2421. After regular business hours, or if all the referral coordinators are busy, the following required information may be left in the Care Management department's confidential voice mailbox:

- Member's name
- Member's Priority Partners ID number
- Specialist's name and NPI number
- Diagnosis/Reason for referral
- Services authorized (e.g. consultation only, consultation and testing, consultation, testing and treatment)
- Time span for the referral
- Any limitations on the referral

### Written Referrals

The PCP or designated staff may utilize the Maryland Uniform Consultation form as a convenience to provide written documentation for the member, the PCP and the specialty provider. To refer a member using the form, the first copy should be given to the member, the second copy should be forwarded to the specialist and the third copy should be mailed directly to Priority Partners.

### Faxed Referrals

The completed Maryland Uniform Consultation Referral form may be faxed directly to Priority Partners. The PCP should retain the referral form in the member's medical record with the fax confirmation. It is the responsibility of the PCP to inform the member and specialist of the limitations on referrals.

### **Out-of-Network Referrals**

All out-of-network referrals require the approval of the Care Management department. Out-of-network referrals based on medical necessity require the approval of the Priority Partners' medical director.

Out-of-network referral requests, with appropriate clinical information, should be faxed to Care Management Medical Review at 410-762-5205.

Urgent requests will be responded to within one business day. Non-urgent requests will be responded to within seven calendar days.

### **Late Referrals**

For the purposes of tracking and trending, referrals not requiring preauthorization submitted to Priority Partners after 180 days will be redirected to the Provider Relations department for educational purposes and must be submitted to appeals for review.

### **Referral Extensions**

Referrals for specialty care can be extended for a number of visits, or beyond the original date of service by a phone, fax or written request. The request can be submitted by the PCP or specialist to the Care Management department. If the specialty services require medical review (preauthorization), clinical notes and/or treatment plans may need to be submitted with the request for additional visits to be authorized.

## **INPATIENT ADMISSIONS AND CONCURRENT REVIEW**

The PCP may refer or admit within the network with preauthorization for medically necessary procedures/ diagnoses.

Inpatient admissions which have not been preauthorized will be reviewed for medical necessity from the date of notification through discharge. If notification is not received within 48 hours of admission, or the next business day prior to notification, the admission will be denied unless there are documented extenuating circumstances.

Once notification of an admission is received, and throughout the hospital stay, the utilization management staff will request clinical information on the patient to certify continued stay as an inpatient. If requested information is not received within two business days of the request, the days will be administratively denied for lack of clinical information.

All elective admissions are reviewed to determine if the service could be provided in an ambulatory setting and meet the criteria. The care coordinator, based on consultation with the medical director, will notify the requesting provider of an adverse decision and discuss alternatives.

## **PERIOD OF PREAUTHORIZATION**

Preauthorization numbers are valid for the date of service authorized. For services without a specific date the preauthorization is valid for 30 days. The member must be eligible for Medicaid and enrolled in Priority Partners on each date of service. For information about how to verify member eligibility call 866-819-1965.

# PREAUTHORIZATION AND COORDINATION OF BENEFITS

Priority Partners may not refuse to preauthorize a service because the member has other insurance. Even if the service is covered by the primary payer, the provider must follow our preauthorization rules. Preauthorization is not a guarantee of payment. Except for prenatal care and Healthy Kids/EPSTD screening services, you are required to bill other insurers first. For these services, we will pay the provider and then seek payment from the other insurer.

## MEDICAL NECESSITY CRITERIA

A “medically necessary” service or benefit must be:

- Directly related to diagnostic, preventive, curative, palliative, habilitative or ameliorative treatment of an illness, injury, disability, or health condition
- Consistent with current accepted standards of good medical practice
- The most cost-effective service that can be provided without sacrificing effectiveness or access to care
- Not primarily for the convenience of the member, the member’s family or the provider.

### **Cases will be referred to the medical director for the following reasons**

- Submitted documentation is unclear as to whether medical necessity criteria have been met
- Submitted documentation does not meet the medical necessity criteria

A decision will be made upon receipt of required documentation, within two days for non-urgent care, and one day for urgent care.

Members and providers will be notified in writing when services are denied partially or in full. The notification will include reasons for the denial, instructions on obtaining additional information, and the appeals process.

## UTILITIZATION MANAGEMENT

### **Overview**

Priority Partners, as a corporation and as individuals involved in Utilization Management (UM) decisions, is governed by the following statements:

- UM decision-making is based only on appropriateness of care and service and existence of coverage.
- Priority Partners does not specifically reward practitioners or other individuals for issuing denial of coverage or care. Decisions about hiring, promoting or terminating practitioners or other staff are not based on the likelihood or perceived likelihood that they support, or tend to support denials of benefits.
- Financial incentives for UM decision-makers do not encourage decisions that result in underutilization, or create barriers to care and service.
- Access to UM staff is available. Priority Partners associates are available at least eight hours a day during normal business hours, Monday through Friday, for inbound communications regarding UM inquiries. Health plan UM associates are available eight hours a day, Monday through Friday, during normal business hours, excluding some state and federal holidays. NCC clinical services

unit associates are available 24 hours a day, seven days a week. Priority Partners offers TDD/TTY services for deaf, hard of hearing or speech-impaired members. For all members who request language services, Priority Partners provides services free of charge through bilingual staff or interpreter to help members with UM issues.

## Criteria and Clinical Information for Medical Necessity

Johns Hopkins HealthCare LLC (JHCC) medical policies, which are publicly accessible on its website ([www.jhhc.com](http://www.jhhc.com)), are the primary benefit plan policies for determining whether services are considered to be a) investigational/experimental, b) medically necessary, and c) cosmetic or reconstructive for all JHCC lines of business.

McKesson InterQual® criteria will continue to be used to determine medical necessity for acute inpatient care. In the absence of licensed McKesson InterQual criteria, Priority Partners may use JHHC medical policies or clinical UM guidelines. A list of the specific JHHC medical policies used will be posted and maintained on the JHHC website and can be obtained in hard copy by written request. The policies described above will support preauthorization requirements, acute inpatient care, clinical-appropriateness claims edits and retrospective review.

Federal and state law, as well as contract language, including definitions and specific contract provisions/exclusions, take precedence over medical policy and must be considered first when determining eligibility for coverage. As such, in all cases, state Medicaid contracts will supersede McKesson InterQual, JHHC medical policy, and JHHC clinical UM criteria. Medical technology is constantly evolving, and JHHC reserves the right to review and periodically update medical policy and utilization management criteria. The JHHC Utilization Management department reviews the medical necessity of medical services using:

- State guidelines
- JHHC medical policies
- McKesson InterQual (inpatient care)
- JHHC clinical utilization management guidelines

Priority Partners follows established procedures for applying medical necessity criteria based on individual member needs and an assessment of the availability of services within the local delivery system. To learn more about these procedures, visit the Providers and Physicians section of the JHHC website at [https://www.hopkinsmedicine.org/johns\\_hopkins\\_healthcare/providers\\_physicians/policies/](https://www.hopkinsmedicine.org/johns_hopkins_healthcare/providers_physicians/policies/).

These procedures apply to:

- Preauthorization
- Concurrent reviews
- Retrospective reviews

Only a medical director/physician reviewer may make an adverse determination (denial) based on medical necessity. Requests for services/care should include current applicable and appropriate ICD and CPT codes and relevant clinical information. Appropriate clinical information includes:

- Office and/or hospital records
- A history of the presenting problem
- A clinical examination
- Diagnostic testing results
- Treatment plans and progress notes
- Psychosocial history

- Consultation notes
- Operative and pathological reports
- Rehabilitation evaluations
- Patient characteristics and information
- Estimated/anticipated length and/or frequency of treatment

## Referral/Preauthorization Process

Referrals to in-network specialists are not required for payment; however, Priority Partners highly recommends PCPs supply the member with instructions for follow-up care. Visit the For Providers section of our website to download a Personalized Treatment Plan form under Communications Repository > Forms. This form is also available in Section VII of this manual, under “Important Forms.”

### Preauthorization and Notification — General

Some covered services require preauthorization prior to services being rendered, while other covered services require notification prior to being rendered.

Notification is a communication received from a provider informing Priority Partners of the intent to render covered medical services to a member. For services that are emergent or urgent, notification should be provided within 24 hours or by the next business day.

- Notification is received by telephone, fax or electronically.
- Member eligibility and provider status (in-network and out-of-network) is verified.

Preauthorization is the prospective process whereby licensed clinical associates apply designated criteria sets against the intensity of services to be rendered and a member’s severity of illness, medical history and previous treatment to determine the medical necessity and appropriateness of a given coverage request. Prospective means the coverage request occurred prior to the service being provided.

Services requiring preauthorization include but are not limited to:

- Elective inpatient admissions
- Select outpatient and specialty care provided outside of the PCP’s scope of practice
- High-tech radiology
- Durable medical equipment
- Home health services
- Skilled nursing facilities
- Out-of-network services
- Acute rehabilitation

To verify whether or not a particular service requires preauthorization, visit our website for the most recent guidelines.

Through the Johns Hopkins Prior Authorization Lookup tool (JPAL), providers may check and verify preauthorization requirements for services and procedures. Located in the [HealthLINK portal](#), JPAL offers a user-friendly way for providers to look up preauthorization requirements without needing to call Customer Service.

Providers can simply click on the JPAL link in [HealthLINK](#) to access this tool.

-Search by specific procedure code or procedure description.

-Search results are organized by procedure code, modifier, procedure description, and individual line of business.

-Clicking on the procedure code link or on any line of business link brings up specific details, such as the rules pertaining to preauthorization for each line of business and access to the medical policy document.

NOTE: JPAL is a way to look up preauthorization requirements only; it does not handle preauthorization requests. Please follow JHHC's policies and procedures as usual to request an authorization:

- Confirm the status of all procedures before delivery of service.
- If preauthorization status is unclear, submit an authorization request.
- Authorizations are not a guarantee of payment.

Preauthorization is not required for the following medically necessary covered services:

- Routine laboratory tests (excluding genetic testing) performed in the PCP's office or contracted laboratory
- Routine x-rays, EKGs, EEGs or mammograms at a network specialist office with referral, at a freestanding radiology facility or at some network hospitals

The medical director will periodically review and revise this list with the expectation that additional services will be added as practice patterns of the network warrants.

### **Preauthorization Determination Time Frames**

For services that require preauthorization, Priority Partners will make a determination in a timely manner so as not to adversely affect the health of the member. The determination will be made within two business days of receipt of necessary clinical information, but no later than seven calendar days from the date of the initial request.

## **Utilization Management – Inpatient Services**

### **Inpatient Admission Preauthorization**

Notification/preauthorization requirements are as follows:

- Except for an emergency admission, the admitting physician is responsible for contacting Priority Partners to obtain preauthorization for a hospital admission.
- The hospital is responsible for notifying Priority Partners and the MDH and Hygiene of the birth of a child in accordance with the admission time frames noted below.
- For transfer of a newborn from the nursery to the NICU or to another level of care, or to detain a newborn beyond the OB global period, the hospital must notify Priority Partners within 24 hours or by the next business day. These circumstances are considered separate, new admissions and are not part of the mother's admission.

### **Inpatient Admission Notification Time Frames**

- All elective admissions must receive prior approval through Provider Services at least 72 hours prior to the admission or scheduled procedure.
- Urgent and emergent admissions require notification to Priority Partners within 48 hours or by the next business day following the presentation of emergency services.

The following information should be provided to UM for preauthorization via fax at 410-424-4894 or 410-424-2770

- Member's name
- Member's address
- Member's Priority Partners ID number
- Member's date of birth
- Member's PCP
- Scheduled date of admission and/or surgery

- Name of hospital
- Member's diagnosis
- Attending provider
- Clinical information (if applicable)

All Priority Partners members scheduled for inpatient surgery must be admitted to the hospital on the day of the surgery except in preapproved medically necessary cases. Priority Partners will not pay for any costs associated with admissions on the day before surgery unless specific medical justification is provided and approved. Each member's case will be examined individually in this respect.

The following are not acceptable reasons for an admission before surgery:

- Member, provider or hospital convenience
- Routine laboratory or x-ray
- NPO (i.e., nothing by mouth)
- Distance or transportation to the hospital
- Most preps

Upon notification, Priority Partners reviews the clinical basis for admission and authorizes benefits for the admission. The medical director reviews any potential denial of coverage after evaluating the member's medical condition, medical criteria and practice standards.

### **Inpatient Specialist Referrals**

Referrals to in-network specialists are not required for payment; however, Priority Partners highly recommends PCPs supply the member with instructions for follow-up care. The Personalized Treatment Plan form can be found in the Forms section in the back of this manual or online at [https://www.hopkinsmedicine.org/johns\\_hopkins\\_healthcare/providers\\_physicians/resources\\_guidelines/forms.html](https://www.hopkinsmedicine.org/johns_hopkins_healthcare/providers_physicians/resources_guidelines/forms.html).

### **Inpatient Admission Review**

- All medical inpatient hospital admissions, including those that are urgent and emergent, will be reviewed for medical necessity within one business day of the facility notification to Priority Partners.
- Clinical information for the initial (admission) review will be requested by Priority Partners at the time of the admission notification.
- For medical admissions, the facilities are required to provide the requested clinical information within 24 hours of that request.
- If the information is not received within 24 hours, an administrative adverse determination (i.e., a denial) will be issued.
- Priority Partners will adhere to NCQA determination and notification time frames for inpatient reviews.

### **Inpatient Concurrent Review**

Each network hospital will have an assigned concurrent review clinician. The concurrent review clinician will conduct a review of the medical records electronically or by telephone to determine the authorization of coverage for a continued stay.

- The concurrent review clinician will conduct continued stay reviews daily and will review discharge plans unless the member's condition is such that it is unlikely to change within the upcoming 24 hours and discharge-planning needs cannot be determined.
- When the clinical information received meets the applicable nationally recognized clinical criteria,

or guidelines, approved days and bed-level coverage will be communicated to the facility for the continued stay.

- The Priority Partners concurrent review clinician will help coordinate discharge planning needs with the designated facility staff and the attending provider. The attending provider is expected to coordinate with the member's PCP or outpatient specialty provider regarding follow-up care and services after discharge. The PCP or outpatient specialty provider is responsible for contacting the member to schedule all necessary follow-up care.
- Priority Partners will authorize covered length of stay one day at a time based on the clinical information provided to support the continued stay. Additional information may be requested in order to make a determination, and must be provided within 24 hours of the request. If the information is not received within the 24 hours, an administrative adverse determination (i.e., a denial) will be issued.

Exceptions to one-day-at-a-time authorizations may be made for confinements when the severity of the illness and subsequent course of treatment is likely to be several days. Examples of confinements may include NICU, CCU, rehabilitation and cesarean section or vaginal deliveries. Exceptions are made by the medical director/physician reviewer.

Upon fax notification of the intention to deny, the member's treating physician can request a physician-to-physician review to provide additional information not previously submitted to Priority Partners.

The request for this review must be made within 24 hours two (2) business days of the fax notification of intent to deny, and the review must take place within four (4) business days of fax notification of denial. To initiate this request the physician may contact Priority Partners at 800-261-2421 from 8:30 a.m. to 5:30 p.m. Eastern time.

## **Discharge Planning**

Discharge planning is designed to assist the provider with coordination of the member's discharge when acute care (i.e., hospitalization) is no longer necessary.

When a lower level of care is necessary, Priority Partners works with the provider to help plan the member's discharge to an appropriate setting for extended services. These services can often be delivered in a nonhospital facility such as:

- Hospice facility
- Skilled nursing facility
- Home health care program (e.g. home IV antibiotics)

When the provider identifies medically necessary services for the member, Priority Partners will assist the provider and the discharge planner in providing timely and effective transfer to the next appropriate level of care.

Discharge plan authorizations follow the applicable nationally recognized clinical criteria or guidelines and documentation requirements. Authorizations include, but are not limited to transportation, home health, durable medical equipment (DME), follow-up visits to providers or outpatient procedures.

## **Utilization Management – Outpatient Services**

### **Outpatient Preauthorization**

Preauthorization is required and must be requested at a minimum of 72 hours before the service/procedure/etc. must be provided. This applies to the following types of care (the list may be modified periodically):

- Home health care
- Hospice programs (notification only for outpatient hospice services)
- Skilled nursing or extended care facilities
- DME
- Cardiac rehabilitation
- Telephonic pacemaker check
- Outpatient diagnostic radiology

Please visit our website for the most recent Outpatient Referral Guidelines.

In addition, preauthorization is required for all out-of-network care (certain exclusions apply) and for specialty visits (i.e., services beyond the initial evaluation and management) if performed by a nonparticipating provider.

For preauthorization requirements for behavioral health services, please refer to the Beacon Health Options website at <http://maryland.beaconhealthoptions.com> or the DHMH website at [dhmh.maryland.gov/ohcq/Pages/home.aspx](http://dhmh.maryland.gov/ohcq/Pages/home.aspx). Upon fax notification of the intention to a denial for outpatient/pre-service requests, the member's treating physician can request a peer-to-peer review to provide additional information not previously submitted to Priority Partners.

Upon fax notification of the intention to a denial for outpatient/pre-service requests, the member's treating physician can request a peer-to-peer review to provide additional information not previously submitted to Priority Partners.

The request for this review must be made within three (3) business days of the fax notification of intent to deny, and the review must take place within five (5) business days of fax notification of denial. To initiate this request the physician may contact Priority Partners at 800-261-2421 from 8:30 a.m. to 5:30 p.m. Eastern time.

### **Ambulatory Surgery Preauthorization**

Priority Partners is committed to providing quality, accessible health care in the most efficient manner. In most cases, certain outpatient services can be safely performed in a freestanding facility rather than a hospital outpatient setting. Therefore, certain types of outpatient surgery/services will require site-of-service preauthorization if hospital outpatient service is requested. Services that cannot be safely and effectively provided at a freestanding site will be precertified at hospitals in these areas. These ambulatory surgical procedures must receive coverage approval through the Medical Management department at least 72 hours prior to the scheduled procedure.

For code-specific preauthorization requirements for these services when performed in a participating clinic/ outpatient facility/ambulatory surgery center, visit [https://www.hopkinsmedicine.org/johns\\_hopkins\\_healthcare/providers\\_physicians/resources\\_guidelines/provider\\_communications/repository](https://www.hopkinsmedicine.org/johns_hopkins_healthcare/providers_physicians/resources_guidelines/provider_communications/repository)

### **Preauthorization Requirement Review and Updates**

Priority Partners will review and revise policies when necessary. The most current policies are available on the JHHC website.

### **Second Opinions**

Priority Partners will provide for a second opinion from a qualified health care professional within the network, or, if necessary, arrange for the member to obtain one outside the Priority Partners network.

Priority Partners may also request a second opinion at its own discretion. This includes but is not limited to the following scenario:

- A second opinion review of the case will be performed by the Priority Partners medical director before a transfer to an intermediate care facility or a long-term care facility is implemented.

When Priority Partners requests a second opinion, Priority Partners will make the necessary arrangements for the appointment, payment and reporting the results. Once the second opinion is completed, Priority Partners will inform the member and the PCP of the results and the consulting provider's conclusion and recommendation(s) regarding further action.

## Medical Exception and Prior Authorization Process

For information regarding prior authorization for provider administered medications, refer to Section V of this manual.

# CLINICAL GUIDELINES

## Clinical Practice Guidelines

Johns Hopkins Priority Partners Health Plan seeks to enrich the quality of clinical care for plan members by encouraging the use of clinical practice guidelines. Clinical practice guidelines are evidence-based recommendations for diagnosis, treatment and management of specific clinical circumstances. Clinical practice guidelines adopted by the plan were developed by nationally-recognized medical organizations and are reviewed every two years at minimum and updated when changes occur to ensure the most current version is provided.

JHHC has adopted Clinical Practice Guidelines developed by specialty groups, associations, and other medical organizations as the foundation for our population health programs. The complete list of adopted guidelines and web links to download copies is available on the [provider section](#) of the [jhhc.com](#) website. You may also refer to JHHC's [clinical practice guidelines](#) and [preventative health guidelines](#).

Please refer to the Resources and Guidelines section of our website to access the Clinical Practice Guidelines Policy, which includes the current list of guidelines along with embedded links to each resource:  
[http://www.hopkinsmedicine.org/johns\\_hopkins\\_healthcare/providers\\_physicians/resources\\_guidelines](http://www.hopkinsmedicine.org/johns_hopkins_healthcare/providers_physicians/resources_guidelines).

# TIMELINESS OF DECISIONS AND NOTIFICATIONS TO PROVIDERS AND MEMBERS

Priority Partners makes prior authorization decisions and notifies providers and applicable members in a timely manner. Unless otherwise required by the MDH, Priority Partners adheres to the following decision/notification time standards:

- Standard authorizations - within 2 business days of receipt of necessary clinical information, but not later than 14 calendar days of the date of the initial request
- Expedited authorizations - no later than 72 hours after receipt of the request if it is determined the standard timeframe could jeopardize the member's life, health, or ability to attain, maintain, or regain maximum function

- Covered outpatient drug authorizations - within 24 hours by telephone to either authorize the drug or request additional clinical information

Priority Partners will send notice to deny authorizations to providers and members:

- Standard authorizations – within 72 hours from the date of determination
- Expedited authorizations – within 24 hours from the date of determination

## OUT-OF-NETWORK PROVIDERS

When approving or denying a service from an out-of-network provider, Priority Partners will assign a prior authorization number, which refers to and documents the approval. Priority Partners sends written documentation of the approval or denial to the out-of-network provider within the time frames appropriate to the type of request. Refer to Section I for list of self-referred services which are services we must allow members to access out-of-network. Occasionally, a member may be referred to an out-of-network provider because of special needs and the qualifications of the out-of-network provider. Priority Partners makes such decisions on a case-by-case basis.

## COMPLAINT, GRIEVANCE AND APPEAL PROCESS

### Overview

Our Priority Partners member services line, 800-654-9728, can be reached Monday through Friday, 8 a.m. to 5 p.m. Member services resolves or properly refers members' inquiries or complaints to the state or other agencies. Priority Partners informs members and providers of the grievance system processes for complaints, grievances, appeals, and Maryland State Fair Hearings. This information is contained in the Member Handbook and is available on the Priority Partners website at [www.ppmco.org](http://www.ppmco.org).

Members or their authorized representatives can file an appeal or a grievance with Priority Partners orally or in writing. An authorized representative is someone who assists with the appeal on the member's behalf, including but not limited to a family member, friend, guardian, provider, or an attorney. Representatives must be designated in writing.

Standard preservice appeals require signed member consent for submission, either by signed letter or via JHHC's [Authorization for Release of Health Information-Specific Request form](#). If submitting with the form, send the original to the Compliance department and a copy of the form along with your appeal to the Appeal Intake department. Expedited appeals, due to their urgency, do not require a consent.

Johns Hopkins HealthCare LLC  
Compliance Department  
7231 Parkway Drive, Suite 100  
Hanover, MD 21076

or Fax to 410-762-1527

Members and their representatives may also request any of the following information from Priority Partners, free of charge, to help with their appeal by calling 800-654-9728:

- Medical records
- Any benefit provision, guideline, protocol, or criterion Priority Partners used to make its decision
- Oral interpretation and written translation assistance; and
- Assistance with filling out Priority Partners appeal forms.

Priority Partners will take no punitive action for:

- Members requesting appeals or grievances
- Providers requesting expedited resolution of appeals or grievances
- Providers supporting a member's appeal or grievance
- Members or providers making complaints against Priority Partners or MDH.

Priority Partners will also verify that no provider or facility takes punitive action against a member or provider for using the appeals and grievance system. Providers may not discriminate or initiate disenrollment of a member for filing a complaint, grievance, or appeal with Priority Partners.

Our internal complaint materials are developed in a culturally sensitive manner, at a suitable reading comprehension level, and in the member's native language if the member is a member of a substantial minority. Priority Partners delivers a copy of its complaint policy and procedures to each new member at the time of initial enrollment, and at any time upon a member's request.

### **Quarterly Complaint Reporting**

We are responsible for gathering and reporting information to the state about member appeals and grievances and our interventions and resolution to these appeals and grievances. The reports contain data on appeals and grievances in a standardized format and are submitted on a quarterly basis. To accomplish this, we are required to operate a Consumer Services Hotline and an internal complaint process.

### **Priority Partners Member Hotline**

Priority Partners maintains a member services unit that operates a member services hotline Monday through Friday, 8 a.m. to 5 p.m. This unit handles and resolves or properly refers members' inquiries or complaints to other agencies and can be reached at 800-654-9728. Additionally, we provide members with information about how to access our member services unit and consumer services hotline to obtain information and assistance.

### **Priority Partners Member Grievance Procedures**

A grievance is a complaint about a matter that cannot be appealed. Grievance subjects may include but are not limited to dissatisfaction with access to coverage, any internal process or policy, actions or behaviors of our employees or vendors or provider office teams, care or treatment received from a provider, and drug utilization review programs applying drug utilization review standards.

Examples of reasons to file an administrative grievance include:

- The member's provider's office was dirty, understaffed, or difficult to access.
- The provider was rude or unprofessional.
- The member cannot find a conveniently located provider for his/her health care needs.
- The member is dissatisfied with the help he/she received from the provider's staff or Priority Partners.

Examples of reasons to file a medical grievance include:

- The member is having issues with filling his/her prescriptions or contacting the provider.
- The member does not feel he/she is receiving the right care for his/her condition.
- Priority Partners is taking too long to resolve the member's appeal or grievance about a medical issue.
- Priority Partners denies the member's request to expedite his/her appeal about a medical issue.

Grievances may be filed at any time with Priority Partners orally or in writing by the member or their authorized representative, including providers. Priority Partners responds to grievances within the following timeframes:

- 30 calendar days of receipt for an administrative (standard) grievance
- 5 calendar days of receipt for an urgent (medically related) grievance
- 24 hours of receipt for an emergent or an expedited grievance.

If we are unable to resolve an urgent or administrative grievance within the specified timeframe, we may extend the timeframe of the grievance by up to fourteen (14) calendar days if the member requests the extension or if we demonstrate to the satisfaction of the MDH, upon its request, that there is need for additional information and how the delay is in the member's interest. In these cases, we will attempt to reach you and the member by phone to provide information describing the reason for the delay and will follow with a letter within two (2) calendar days detailing the reasons for our decision to extend.

For expedited grievances, Priority Partners will make reasonable efforts to provide oral notice of the grievance decision and will follow the oral notice with written notification. Members are advised in writing of the outcome of the investigation of all grievances within the specified processing timeframe. The notice of resolution includes the decision reached, the reasons for the decision, and the telephone number and address where the member can speak with someone regarding the decision. The notice also tells members how to ask the state to review our decision and to obtain information on filing a request for a state fair hearing, if applicable.

## Priority Partners Member Appeal Procedures

An appeal is a review by the Priority Partners or the MDH when a member is dissatisfied with a decision that impacts their care. Reasons a member may file an appeal include:

- Priority Partners denies covering a service ordered or prescribed by the member's provider. The reasons a service might be denied include:
  - The treatment is not needed for the member's condition, or would not help you in diagnosing the member's condition.
  - Another more effective service could be provided instead.
  - The service could be offered in a more appropriate setting, such as a provider's office instead of the hospital.
- Priority Partners limits, reduces, suspends, or stops a service that a member is already receiving. For example:
  - The member has been getting physical therapy for a hip injury and he/she has reached the frequency of physical therapy visits allowed.
  - The member has been prescribed a medication, it runs out, and he/she does not receive any more refills for the medication.
- Priority Partners denies all or part of payment for a service a member has received.
- Priority Partners fails to provide services in a timely manner, as defined by the MDH (for example, it takes too long to authorize a service a member or his/her provider requested).
- Priority Partners denies a member's request to speed up (or expedite) the resolution about a medical issue.

The member will receive a Notice of Adverse Benefit Determination (also known as a denial letter) from us. The Notice of Adverse Benefit Determination informs the member of the following:

- Priority Partners' decision and the reasons for the decision, including the policies or procedures which provide the basis for the decision
- A clear explanation of further appeal rights and the timeframe for filing an appeal
- The availability of assistance in filing an appeal

- The procedures for members to exercise their rights to an appeal and request a state fair hearing if they remain dissatisfied with Priority Partners' decision
- That members may represent themselves or designate a legal counsel, a relative, a friend, a provider or other spokesperson to represent them, in writing
- The right to request an expedited resolution and the process for doing so
- The right to request a continuation of benefits and the process for doing so

If the member wants to file an appeal with Priority Partners, they have to file it within 60 days from the date of the denial letter. Our denial letters must include information about the HealthChoice Help Line. If the member has questions or needs assistance, direct them to call 800-284-4510. Providers may call the state's HealthChoice Provider Help Line at 800-766-8692.

When the member files an appeal, or at any time during our review, the member and/or provider should provide us with any new information that will help us make our decision. The member or representative may ask for up to 14 additional days to gather information to resolve the appeal. If the member or representative needs more time to gather information to help Priority Partners make a decision, they may call Priority Partners at 800-654-9728 and ask for an extension.

Priority Partners may also request up to 14 additional days to resolve the appeal if we need to get additional information from other sources. If we request an extension, we will send the member a letter and call the member and his/her provider.

When reviewing the member's appeal we will:

- Use doctors with appropriate clinical expertise in treating the member's condition or disease
- Not use the same Priority Partners staff to review the appeal who denied the original request for service
- Make a decision within 30 days, if the member's ability to attain, maintain, or regain maximum function is not at risk

On occasion, certain issues may require a quick decision. These issues, known as expedited appeals, occur in situations where a member's life, health, or ability to attain, maintain, or regain maximum function may be at risk, or in the opinion of the treating provider, the member's condition cannot be adequately managed without urgent care or services. Priority Partners resolves expedited appeals effectively and efficiently as the member's health requires. Written confirmation or the member's written consent is not required to have the provider act on the member's behalf for an expedited appeal. If the appeal needs to be reviewed quickly due to the seriousness of the member's condition, and Priority Partners agrees, the member will receive a decision about their appeal as expeditiously as the member health condition requires or no later than 72 hours from the request. If an appeal does not meet expedited criteria, it will automatically be transferred to a standard timeframe. Priority Partners will make a reasonable effort to provide verbal notification and will send written notification **within two (2) calendar days**.

Once we complete our review, we will send the member a letter letting them know our decision. Priority Partners will send written notification for a standard appeal timeframe, including an explanation for the decision, within 2 business days of the decision.

For an expedited appeal timeframe, Priority Partners will communicate the decision verbally at the time of the decision and in writing, including an explanation for the decision, within 24 hours of the decision. If we decide that they should not receive the denied service, that letter will tell them how to ask for a state fair hearing.

## **Request to Continue Benefits During the Appeal**

If the member's appeal is about ending, stopping, or reducing a service that was authorized, they may be able to continue to receive the service while we review their appeal. The member should contact us within 10 days of receiving the denial notice at 800-654-9728 if they would like to continue receiving services while their appeal is reviewed. The service or benefit will continue until either the member withdraws the appeal or the appeal or fair hearing decision is adverse to the member. If the member does not win their appeal, they may have to pay for the services that they received while the appeal was being reviewed.

Members or their designated representative may request to continue to receive benefits while the state fair hearing is pending. Benefits will continue if the request meets the criteria described above when the member receives the Priority Partners appeal determination notice and decides to file for a state fair hearing. If Priority Partners or the Maryland fair hearing officer does not agree with the member's appeal, the denial is upheld, and the member continues to receive services, the member may be responsible for the cost of services received during the review. If either rendering party overturns the Priority Partners denial, we will authorize and cover the costs of the service within 72 hours of notification.

## **State Fair Hearing Rights**

A HealthChoice member may exercise their state fair hearing rights but the member must first file an appeal with Priority Partners. If Priority Partners upholds the denial the member may appeal to the Office of Administrative Hearings (OAH) by contacting the HealthChoice Help Line at 800-284-4510. If the member decides to request a state fair hearing we will continue to work with the member and the provider to attempt to resolve the issue prior to the hearing date.

If a hearing is held and the Office of Administrative Hearings decides in the member's favor, Priority Partners will authorize or provide the service no later than 72 hours of being notified of the decision. If the decision is adverse to the member, the member may be liable for services continued during our appeal and state fair hearing process. The final decision of the OAH is appealable to the Circuit Court, and is governed by the procedures specified in State Government Article, §10-201 et seq., Annotated Code of Maryland.

## **State HealthChoice Help Lines**

If a member has questions about the HealthChoice Program or the actions of Priority Partners direct them to call the state's HealthChoice Help Line at 800-284-4510. Providers can contact the HealthChoice Provider Line at 800-766-8692.

## **Priority Partners Provider Complaint Process**

The Provider Relations Department will receive provider inquiries, suggestions, and grievances directly from providers via email, provider satisfaction surveys, in person or by phone, mail or fax, as well as referrals from the Customer Service department, Credentialing department and the Complaint and Grievance department. The Provider Relations department will abide by all processing timelines as identified in regulatory standards. (Johns Hopkins HealthCare Policy #PNM.004, Provider Inquiries and Grievances).

## **Provider Claims/Payment Dispute Process**

Providers may access a timely payment dispute resolution process. A payment dispute is any dispute between the health care provider and Priority Partners for reason(s) including but not limited to:

- Corrected claim
- Rejected untimely filing of claim
- Eligible per EVS
- Coordination of benefits (EOB of primary carrier required)
- Itemized bill requested
- Invoice attached/MUE denial

- Overpaid/underpaid per contract
- Fee schedule
- Contract rate/SCA
- Not duplicate claim
- Authorization on file (authorization number required)
- Referral attached

Responses to itemized bill requests, submission of corrected claims and submission of COB/third-party liability information should also be sent with the Provider Claims/Payment Dispute and Correspondence Submission Form.

No action is required by the member. Payment disputes do not include medical appeals. Providers will not be penalized for filing a payment dispute. All information will be confidential in accordance with Priority Partner's policies and/or applicable law or regulation. The Adjustments department will receive, distribute and coordinate all payment disputes. To submit a payment dispute, complete the Provider Claims/Payment Dispute and Correspondence Submission Form located online at [https://www.hopkinsmedicine.org/johns\\_hopkins\\_healthcare/providers\\_physicians/resources\\_guidelines/forms.html](https://www.hopkinsmedicine.org/johns_hopkins_healthcare/providers_physicians/resources_guidelines/forms.html) and mail to:

Johns Hopkins HealthCare LLC Adjustments Department  
 7231 Parkway Drive, Suite 100  
 Hanover, MD 21076  
 Or fax to 410-424-2800

Priority Partners must receive the payment dispute within 90 business days of the paid date of the explanation of payment (EOP). The provider must submit **a written request, including an explanation of the issue in dispute, the reason for dispute and supporting documentation** such as an EOP, a copy of the claim, medical records or contract page.

The Adjustments department will research and determine the current status of a payment dispute. A determination will be made based on the available documentation submitted with the dispute and a review of Priority Partners systems, policies and contracts.

A determination will be sent to the provider within 30 business days from receipt of the payment dispute. If the decision is made to adjust the claim to allow full reimbursement, an EOP will be mailed to the provider. If the decision is made to partially adjust the claim or uphold the previous decision, a payment dispute response letter will be mailed to the provider. The response letter will include:

- Provider name
- Member name, ID number and date of birth
- Date of service
- Claim number
- Dispute number
- Date of initial filing of concern
- Written description of the concern
- Decision
- Further dispute options

If a provider is dissatisfied with the payment dispute resolution, the provider may file another payment dispute in the form of a written dispute submitted and received by Priority Partners within 30 business days of the date of the determination letter.

The provider can request a hearing with the Priority Partners chief executive officer or his or her designee.

## Provider Appeals Process

Johns Hopkins HealthCare (JHHC) will reconsider denial decisions upon request by a provider.

The appeals process is as follows:

- Providers may file an appeal to request reconsideration of a denial.
- Providers may only appeal post-service denials.
- Providers may submit preservice appeals for members. These are processed as member appeals and follow member appeals guidelines.
- If a provider is submitting a standard preservice appeal for the member, the provider will need a signed authorization form or written authorization from the member.
- Providers have two levels of appeal for postservice cases
- Providers will receive written acknowledgement within five business days of receipt of an appeal.
- The first-level appeal must be filed within 90 business days after notification of the denial.
- The second-level appeal must be filed within 20 business days after notification of the first-level appeal decision.
- The first- and second-level appeals will be resolved within 90 business days of receipt of the first-level appeal.
- Written notification of the appeal resolution decision will be generated and sent to the appellant within 30 days.
- Payment for claim denials that have been overturned after the appeal will be paid within 30 days. We will not take any punitive action against a provider for utilizing our provider complaint process. Appeals should be faxed or mailed to:

Johns Hopkins HealthCare LLC  
Attention: Appeals Department  
7231 Parkway Drive, Suite 100

Fax: 410 762-5304

## Provider Appeal Requests Process

### Administrative Appeals vs. Clinical Medical Necessity Appeals

A clinical/medical necessity and administrative appeal is any appeal between the health care provider and Priority Partners for reason(s) including but not limited to:

- ER
- Observation
- Code review/claim check
- Level of care
- Out of network
- Not a covered benefit
- Lack of authorization/authorization discrepancy
- Medical necessity
- Pharmacy claims
- Preservice claims

### Administrative Appeals

An administrative denial is a denial of services based on reasons other than medical necessity. Administrative

denials are made when a contractual requirement is not met, such as late notification of admissions, lack of precertification or failure by the provider to submit clinical information when requested.

Appeals for administrative denials must address the reason for the denial (i.e., why precertification was not obtained or why clinical information was not submitted).

If Priority Partners overturns its administrative decision, the case is reviewed for medical necessity and, if approved, the claim will be reprocessed or the requestor will be notified of the action that needs to be taken.

### **Clinical/Medical Necessity Appeals**

A medical necessity appeal is the request for a review of an adverse decision. An appeal encompasses requests to review adverse decisions of care denied before services are rendered (preservice) and care denied after services are rendered (postservice), such as medical necessity decisions, benefit determination related to coverage, rescission of coverage or the provision of care or service.

Priority Partners offers a medical necessity appeal process that provides members, member representatives and providers the opportunity to request and participate in the re-evaluation of adverse actions. The member, member representatives and providers will be given the opportunity to submit written comments, medical records, documents or any other information relating to the appeal. Priority Partners will investigate each appeal request, gathering all relevant facts for the case before making a decision.

Both administrative and clinical/medical necessity appeals must be received within 90 business days of the date on the denial letter. The provider must submit **an appeal letter, including the reason for appeal, and supporting documentation** including medical records.

Clinical documentation relevant to the decision will be retrospectively reviewed by a licensed/registered nurse. Established clinical criteria will be applied to the appeal. After retrospective review, the appeal may be approved or forwarded to the plan medical director for further review and resolution.

A determination will be sent to the provider within 30 business days from receipt of the appeal. If the decision is made to adjust the claim to allow full reimbursement, an EOP will be mailed to the provider. If the decision is made to partially adjust the claim or uphold the previous decision, an appeal response letter will be mailed to the provider. The response letter will include:

- Provider name
- Member name, ID number and date of birth
- Date of service
- Claim number
- Dispute number
- Date of initial filing of concern
- Written description of the concern
- Decision
- Further dispute options

If a provider is dissatisfied with the Level I appeal resolution, the provider may file a Level II appeal in the form of a written appeal submitted and received by Priority Partners within 30 business days of the date of the Level I determination letter.

At the Level II appeal, the provider can request a hearing with the Priority Partners chief executive officer or his or her designee.

Please fill out the Provider Appeal Request Form-Clinical/Medical Necessity/Administrative Appeals Only form, which is located online at [https://www.hopkinsmedicine.org/johns\\_hopkins\\_healthcare/providers\\_](https://www.hopkinsmedicine.org/johns_hopkins_healthcare/providers_)

physicians/resources\_guidelines/forms.html.

The form and other related clinical information should be filled out and mailed to:

Johns Hopkins HealthCare LLC  
Appeals Department  
7231 Parkway Drive, Suite 100  
Hanover, MD 21076  
Or fax to 410-762-5304

## Reconsideration

If the treating physician would like to discuss their case with a physician reviewer for reconsideration of their original denial, the physician can call the Care Management department at 888-401-3592.

# STATE'S QUALITY OVERSIGHT: COMPLAINT AND APPEAL PROCESSES

The HealthChoice and Acute Care Administration operate the central complaint investigation process. The HealthChoice Help Line and the Complaint Resolution and Provider Hotline Units are responsible for the tracking of both provider and member complaints and grievances called into the hotlines, or sent to the department in writing.

## HealthChoice Help Line

The HealthChoice Help Line is available Monday through Friday from 7:30 a.m. to 5:30 p.m. The toll free telephone number is: 800-284-4510 or TDD at 800-735-2258 for the hearing impaired.

The Help Line staff is trained to answer questions about the HealthChoice program. Help Line staff will:

- Direct members to our member services line, 800-654-9728, when needed
- Attempt to resolve simple issues by contacting us or other parties as needed
- Refer medical issues to the state's Complaint Resolution Division for resolution

The Help Line has the capability to address callers in languages other than English either through bilingual staff or through the use of a language line service.

The Help Line uses an automated system for logging and tracking member inquiries and grievances. Information is analyzed monthly and quarterly to determine if specific intervention with a particular MCO is required or changes in state policies and procedures are necessary.

## HealthChoice Provider Hotline

The Provider Hotline provides HealthChoice providers access to MDH staff for grievances and inquiries. Provider Hotline staff respond to general inquiries and resolves complaints from providers concerning member access and quality of care as well as educating providers about the HealthChoice Program. The telephone number for the Provider Hotline is 800-766-8692; TDD 800-735-2258. We will not take any punitive action against you for accessing the Provider Hotline.

As with the Help Line, provider inquiries and complaints are tracked and analyzed monthly and quarterly to determine if specific intervention with particular MCOs is required or changes in state policies and procedures are necessary.

## SECTION V. Pharmacy Management

# PRIORITY PARTNERS PRESCRIPTION AND DRUG FORMULARY

Priority Partners has a closed formulary, which should be used when prescribing medication for members. Only those drugs listed in the formulary are covered. The drugs listed have been reviewed and approved by the Priority Partners Pharmacy and Therapeutics Committee, and were selected to provide the most clinically appropriate and cost-effective medications for patients who have their drug benefit administered through Priority Partners.

Priority Partners covers medical supplies or equipment used in the administration or monitoring of medication prescribed or ordered for a member by a qualifying provider. Most behavioral health and substance abuse medications are on the state's formulary and are the responsibility of the state. Effective January 1, 2020 HIV/AIDS drugs are covered by the Health Plan. Priority Partner's Formulary includes a listing of preferred products in the HIV therapeutic class.

In addition to prescription benefits, Priority Partners covers some over-the-counter (OTC) medications as listed in the pharmacy formulary. These drugs are covered up to a maximum 30-day supply when ordered by a network provider. OTC products are restricted to generics whenever available. If both a prescription and OTC product are available, and clinically appropriate, providers are encouraged to prescribe OTC products.

Pharmaceutical services and counseling ordered by an in-plan provider, by a provider to whom the member has legitimately self-referred (if provided onsite), or by an emergency medical provider are covered, including:

- Legend (prescription) drugs
- Insulin
- All FDA approved contraceptives (we may limit which brand drugs we cover)
- Latex condoms and emergency contraceptives (to be provided without any requirement for a provider's order)
- Non-legend ergocalciferol liquid (Vitamin D)
- Hypodermic needles and syringes
- Enteral nutritional and supplemental vitamins and mineral products given in the home by nasogastric, jejunostomy, or gastrostomy tube
- Enteric coated aspirin prescribed for treatment of arthritic conditions
- Non-legend ferrous sulfate oral preparations
- Non-legend chewable ferrous salt tablets when combined with vitamin C, multivitamins, multivitamins and minerals, or other minerals in formulation, for members under age 12
- Formulas for genetic abnormalities
- Medical supplies for compounding prescriptions for home intravenous therapy

## **The following are not covered by the state or the MCO:**

- Prescriptions or injections for central nervous system stimulants and anorectic agents when used for controlling weight
- Non-legend drugs other than insulin and enteric aspirin ordered for treatment of an arthritic condition
- Medications for erectile dysfunction
- Ovulation stimulants

Priority Partners formulary is available at:

[https://www.ppmco.org/wp-content/uploads/2018/12/ppmco\\_formulary.pdf](https://www.ppmco.org/wp-content/uploads/2018/12/ppmco_formulary.pdf)

[https://www.hopkinsmedicine.org/johns\\_hopkins\\_healthcare/providers\\_physicians/our\\_plans/priority\\_partners/pharmacy.html](https://www.hopkinsmedicine.org/johns_hopkins_healthcare/providers_physicians/our_plans/priority_partners/pharmacy.html)

Priority Partners' members must have their prescriptions filled at a network pharmacy. Priority Partners contracts with CVS/caremark to provide the following services: pharmacy network contracting and network Point-of-Sale (POS) claim processing.

Maryland Department of Health (MDH) is responsible for formulary management of most drugs used for behavioral health purposes, which are covered under the Medicaid Mental Health Formulary as well as Substance Use Disorder Medications. Drugs in these classes are carved out of the MCO pharmacy benefit and are payable as fee-for-service through Maryland Medical Assistance.

## Request for Formulary Addition

The formulary is updated quarterly. To submit a request for consideration of an addition to the formulary, mail a request for formulary addition or deletion to:

### **Priority Partners**

7231 Parkway Drive, Suite 100

Hanover, MD 21076

Attn: Chairperson, Pharmacy and Therapeutics Committee

## PRESCRIPTION COPAYS

There are no copays for children under 21, pregnant women and for family planning. For members who are 21 and over or not pregnant, pharmacy copays are \$1 for generic and \$3 for brand-name drugs.

As a provider, it is critical to explain the proper utilization of pharmacy services to your patients, our members, including the following:

- It is important that members understand that they might need both their Priority Partners' identification card and their regular Medical Assistance ID card when filling a prescription.
- It is important for members to always use the same pharmacy within the Priority Partners network to fill all of their prescriptions. This enables the pharmacist to know about possible problems that may occur when a member is taking more than one medication.
- Members should always present their Priority Partners identification card when they have a prescription filled. They will also need to present their Medical Assistance ID card for drugs prescribed by their mental health provider.

# PRIOR AUTHORIZATION

To assure medical necessity, clinical appropriateness, and/or cost effectiveness, certain medications listed on the formulary may be subject to preauthorization. Coverage of these drugs is subject to criteria approved by the Priority Partners P&T committee. Established criteria are based upon medical literature, physician expert opinion and FDA-approved labeling information.

Providers are strongly encouraged to write prescriptions for preferred products as listed on the Priority Partners formulary. If a drug is not listed on the formulary but the provider believes that a drug is medically necessary a medical exception must be requested. Coverage of a non-formulary drug may be approved if documentation is provided indicating that the formulary alternative is not medically appropriate.

To request a Prior Authorization/Formulary Exception Request Form, call 888-819-1043 Option 4 or download a copy from the plan website at [https://www.hopkinsmedicine.org/johns\\_hopkins\\_healthcare/downloads/ppmco/pp\\_prior\\_authorization\\_form.pdf](https://www.hopkinsmedicine.org/johns_hopkins_healthcare/downloads/ppmco/pp_prior_authorization_form.pdf). Fax the completed form to the Priority Partners Pharmacy department at 410-424-4607. Prior authorization requests are not taken over the phone.

Priority Partners follows the state's medical criteria for coverage of Hepatitis C drugs.

# STEP THERAPY

Certain covered medications are required to satisfy specific step therapy criteria. Step therapy criteria simply means that for certain drug products, members must first have tried one or more prerequisite medications to treat their condition before other medications are covered through their benefit.

Step therapy involves prescribing a safe, clinically effective, and cost-effective medication as the first step in treating a medical condition. The preferred medication is often a generic medication that offers the best overall value in terms of safety, effectiveness, and cost. Non-preferred drugs are only prescribed if the preferred medication is ineffective or poorly tolerated.

**Note:** If a prescription was filled within 180 days prior to implementation of step therapy the member will not be affected by step therapy requirements and will not be required to switch medications.

# QUANTITY LIMITS

Some prescription medications have specific dispensing limitations for quantity and maximum dose allowed per fill. These dispensing limitations are based on generally accepted guidelines, FDA-approved drug label information, current medical literature and input from a committee of physicians and pharmacists. The Priority Partners Pharmacy and Therapeutics Committee may place a limit on the amount of drug a plan participant may receive based upon cost and/or clinical reasons. The list of quantity limits may change. Please refer to the Priority Partners formulary for updated information at [https://www.hopkinsmedicine.org/johns\\_hopkins\\_healthcare/providers\\_physicians/our\\_plans/priority\\_partners/pharmacy.html](https://www.hopkinsmedicine.org/johns_hopkins_healthcare/providers_physicians/our_plans/priority_partners/pharmacy.html).

All prescriptions are limited to a maximum 30-day supply per fill. Exceptions are medications for which the package size cannot be broken, for example, some contraceptive medications.

## **Preauthorization Determination Time Frames**

For formulary drugs requiring preauthorization, a decision is faxed to the requesting provider within 24 hours of request. Detail regarding approval or denial and next steps (how to speak with reviewer or how to appeal) are included in the letter that is faxed to the provider.

# MARYLAND PRESCRIPTION DRUG MONITORING PROGRAM

Priority Partners complies with the Maryland Prescription Drug Monitoring Program (PDMP). The PDMP is an important component of the MDH initiative to halt the abuse and diversion of prescription drugs. The MDH has a statewide database that collects prescription data on Controlled Dangerous Substances (CDS) and Human Growth Hormone (HGH) dispensed in outpatient settings.

Pharmacies must submit data to the MDH at least once every 15 days. This requirement applies to pharmacies that dispense CDS or HGH in outpatient settings in Maryland, and by out-of-state pharmacies dispensing CDS or HGH into Maryland. Patient information in the MDH is intended to help prescribers and pharmacists provide better-informed patient care. The information will help supplement patient evaluations, confirm patients' drug histories, and document compliance with therapeutic regimens.

New registration access to the MDH database (<https://crisphhealth.org/services/prescription-drug-monitoring-program-pdmp/pdmp-registration/>) is granted to prescribers and pharmacists who are licensed by the state of Maryland and in good standing with their respective licensing boards. Prescribers and pharmacists authorized to access the MDH database must certify before each search that they are seeking data solely for the purpose of providing healthcare to current patients. Authorized users agree that they will not provide access to the MDH to any other individuals, including members of their staff.

## CORRECTIVE MANAGED CARE PROGRAM

We restrict members to one pharmacy if they have abused pharmacy benefits. We follow the state's criteria for corrective managed care. The Corrective Managed Care (CMC) program is an ongoing effort by the Maryland Medicaid Pharmacy Program (MMPP) to monitor and promote appropriate use of controlled substances. Call 888-819-1043 Option 4 if a member is having difficulty filling a prescription. The CMC program is particularly concerned with appropriate utilization of opioids and benzodiazepines. Priority Partners will work with the state in these efforts and adhere to the state's opioid preauthorization criteria.

## MARYLAND OPIOID PRESCRIBING GUIDANCE AND POLICIES

The following policies apply to both Priority Partners and Medicaid Fee-for-Service:

### Policy

Prior authorization is required for long-acting opioids, fentanyl products, methadone for pain, and any opioid prescription that results in a patient exceeding 90 morphine milliequivalents (MME) per day.<sup>1</sup> A standard 30 day quantity limit for all opioids is set at or below 90 MME per day.

The CDC advises that "clinicians should use caution when prescribing opioids at any dosage, should carefully reassess evidence of individual benefits and risks when considering increasing dosage to  $\geq 50$  MME/day, and should avoid increasing dosage to  $\geq 90$  MME/day or carefully justify a decision to titrate dosage to  $\geq 90$  MME/day." In order to prescribe a long-acting opioid, fentanyl products, methadone for pain and opioids above 90 MME daily, a prior authorization must be obtained every 6 months.

<sup>1</sup>Instructions on calculating MME is available at: [https://www.cdc.gov/drugoverdose/pdf/calculating\\_total\\_daily\\_dose-a.pdf](https://www.cdc.gov/drugoverdose/pdf/calculating_total_daily_dose-a.pdf)

The prior authorization requires the following attestations:

- The provider has reviewed CDS prescriptions in the PDMP
- A patient-provider agreement
- Screening of patient with random urine drug screen(s) before and during treatment
- A naloxone prescription was given/offered to the patient/patient's household members.

Patients with cancer, sickle cell anemia or in hospice are excluded from the prior authorization process but they should also be kept on the lowest effective dose of opioids for the shortest required duration to minimize risk of harm. Priority Partners may choose to implement additional requirements or limitations beyond the state's policy.

**Naloxone should be prescribed to patients that meet certain risk factors.** Both the CDC and Centers for Medicaid and Medicare Services have emphasized that clinicians should incorporate strategies to mitigate the risk of overdose when prescribing opioids.<sup>2</sup> We encourage providers to prescribe naloxone - an opioid antagonist used to reverse opioid overdose - if any of the following risk factors are present: history of substance use disorder; high dose or cumulative prescriptions that result in over 50 MME; prescriptions for both opioids and benzodiazepine or non-benzodiazepine sedative hypnotics; or other factors, such as drug-using friends/family.

## Guidance:

**Non-opioids are considered first line treatment for chronic pain.** The CDC recommends expanding first line treatment options to non-opioid therapies for pain. In order to address this recommendation, the following evidence-based alternatives are available within the Medicaid program:

- NSAIDs
- Duloxetine for chronic pain
- Diclofenac topical
- Certain first line non-pharmacological treatment options (e.g. physical therapy).

**Providers should screen for substance use disorder.** Before writing for an opiate or any controlled substance, providers should use a standardized tool(s) to screen for substance use. Screening, Brief Intervention and Referral to Treatment (SBIRT) is an example of a screening tool.<sup>3</sup> Caution should be used in prescribing opioids for any patients who are identified as having any type of or history of substance use disorder. Providers should refer any patient whom is identified as having a substance use disorder to a substance use treatment program. Some MCOs have optional expanded coverage that is outlined in the attached document.

SBIRT is an evidenced-based practice used to identify, reduce and prevent problematic use, abuse and dependence on alcohol and drugs. The practice has proved successful in hospitals, specialty medical practices, emergency departments and workplace wellness programs. SBIRT can be easily used in primary care settings and enables providers to systematically screen and assist people who may not be seeking help for a substance use problem, but whose drinking or drug use may cause or complicate their ability to successfully handle health, work or family issues. The provision of SBIRT is a billable service under Medicaid. Information on billing may be accessed here: [https://mmcp.health.maryland.gov/MCOupdates/Documents/pt\\_43\\_16\\_edicaid\\_program\\_updates\\_for\\_spring\\_2016.pdf](https://mmcp.health.maryland.gov/MCOupdates/Documents/pt_43_16_edicaid_program_updates_for_spring_2016.pdf)

<sup>2</sup>CDC guidance: <https://www.cdc.gov/mmwr/volumes/65/rr/tr6501e1.htm>; and CMS guidance: <https://www.medicaid.gov/federal-policy-guidance/downloads/cib-02-02-16.pdf>)

<sup>3</sup>A description of these substance use screening tools may be accessed at: <http://www.integration.samhsa.gov/clinical-practice/screening-tools>

**Patients identified with substance use disorder should be referred to substance use treatment.** Maryland Medicaid administers specialty behavioral health services through a single administrative services organization - Beacon Health Options. If you need assistance in locating a substance use treatment provider, Beacon Health Options may be reached at 800-888-1965. If you are considering a referral to behavioral health treatment for one of your patients, additional resources may be accessed at [http:// maryland.beaconhealthoptions.com/med\\_hc\\_professionals.html](http://maryland.beaconhealthoptions.com/med_hc_professionals.html).

**Providers should use the PDMP every time they write a prescription for CDS.**

Administered by MDH, the PDMP gives healthcare providers online access to their patients' complete CDS prescription profile. Practitioners can access prescription information collected by the PDMP at no cost through the CRISP health information exchange, an electronic health information network connecting all acute care hospitals in Maryland and other healthcare facilities. Providers that register with CRISP get access to a powerful virtual health record that includes patient hospital admission, discharge and transfer records, laboratory and radiology reports and clinical documents, as well as PDMP data.

For more information about the PDMP, visit the MDH website: <http://bha.health.maryland.gov/pdmp/Pages/Home.aspx>. If you are not already a registered CRISP user you can register for free at [https://crisphealth.force.com/crisp2\\_login](https://crisphealth.force.com/crisp2_login). PDMP usage is highly encouraged for all CDS prescribers and has become mandatory to check patients CDS prescriptions if prescribing CDS at least every 90 days (by law) effective July 1, 2018.

If Priority Partners is implementing any additional policy changes related to opioid prescribing, Priority Partners will notify providers and beneficiaries.

## PHARMACY NETWORK

- Priority Partners contracts with CVS/caremark to provide the following services: pharmacy network contracting and network Point-of-Sale (POS) claim processing.
- All in-network Maryland pharmacies may fill prescriptions for Priority Partners members.
- For specialty pharmacy services, Priority Partners contracts with CVS/caremark Specialty Pharmacy.

## SPECIALTY MEDICATIONS

Specialty medications are usually high-cost prescription medications used to treat complex chronic conditions. These drugs typically require special storage and handling, and may not be readily available at a local pharmacy. Specialty medications may also have side effects that require pharmacist and/or provider monitoring.

**Specialty Medications – Pharmacy Benefit:** Are self-administered and processed through the member's pharmacy benefit. These medications are available at a local retail or specialty pharmacy and may require prior authorization. You may find a list of these self-administered specialty medications and their specific authorization requirements on the Priority Partners formulary. Use the Prior Authorization form to request prior authorization for self-administered specialty medications.

**Specialty Medications – Medical Benefit:** Are administered by a provider or under supervision of a provider and processed through the member's medical benefit. Providers may supply these medications and bill the health plan for the medication and related administration using HCPCS Codes or J codes. To find the HCPCS Codes that require medical necessity prior authorization and site-of-service prior authorization, visit: [https://www.hopkinsmedicine.org/johns\\_hopkins\\_healthcare/providers\\_physicians/our\\_plans/priority\\_partners/specialty-medications.html](https://www.hopkinsmedicine.org/johns_hopkins_healthcare/providers_physicians/our_plans/priority_partners/specialty-medications.html).

## SECTION VI.

### Claims Submission, Provider Appeals, Priority Partners Quality Initiatives and Pay-for-Performance

# FACTS TO KNOW BEFORE YOU BILL

You must verify through the Eligibility Verification System (EVS) that participants are assigned to Priority Partners before rendering services. EVS can be reached at 866-710-1447.

- You are prohibited from balance billing anyone that has Medicaid including Priority Partners members.
- You may not bill Medicaid or Priority Partners members for missed appointments.
- Medicaid regulations require that a provider accept payment by the program as payment in full for covered services rendered and make no additional charge to any person for covered services.
- Any Medicaid provider that practices balance billing is in violation of their contract.
- For covered services Priority Partners providers may only bill us or the Medicaid program if the service is covered by the State but is not covered by the MCO.
- Providers are prohibited from billing any other person, including the Medicaid participant or the participant's family members, for covered services.
- HealthChoice participants may not pay for covered services provided by a Medicaid provider that is outside of their Priority Partners provider network.
- If a service is not a covered service and the member knowingly agrees to receive a non-covered service the provider MUST:
  - Notify the member in advance that the charges will not be covered under the program
  - Require that the member sign a statement agreeing to pay for the services and place the document in the member's medical record.
  - We recommend you call us to verify that the service is not covered before rendering the service.

## BILLING INFORMATION

### Physician Fees

Providers should bill their customary fee for covered services that are not reimbursable under capitation. These services will be reimbursed according to the terms of the Priority Partners Payor Addendum.

### Coordination of Benefits/Copays

When Priority Partners' members have other insurance, including Medicare, the other insurance must be billed as the primary payor. As the secondary payor, Priority Partners is responsible to pay within our

allowable payment amount for copays, deductibles and other services covered under the HealthChoice benefit that are not covered under the primary plan. Priority Partners' members should not be billed for copays or deductibles. These charges should be billed directly to Priority Partners. Priority Partners does not routinely reimburse members for out-of-pocket expenses. To expedite claims payment, providers should first submit claims to the primary insurance carrier and then submit a claim to Priority Partners with the primary carrier remittance attached. Claims will be paid based on allowable payment amount.

### Subrogation (MVA)

Priority Partners requires providers to seek reimbursement from the responsible third party when a third party is liable such as a motor vehicle accident or a workman's compensation claim. If a potential third-party liability claim is submitted to Priority Partners, it will be paid normally. If, however, it is later discovered that a third party is liable for the charges, Priority Partners will retract any monies paid and will send the provider a letter advising them to bill the responsible party.

## Claims Submission

Claims or encounter data should be filed on a standard CMS 1500 claim form. Facilities should submit claims on a UB-04 form.

Claims must be submitted within 180 days of the date of service to the address below:

Johns Hopkins HealthCare  
7231 Parkway Drive, Suite 100  
Hanover, MD 21076  
Attn: Priority Partners Claims

If you would like to submit claims electronically, email [providerrelations@jhhc.com](mailto:providerrelations@jhhc.com) for additional billing information.

Attachments to a CMS 1500 form or UB-04 form, which may be required, and the circumstances under which they may be requested are:

- A referral or consultant treatment plan
  - Referrals may be required for an appeal of a claim denied for failure to coordinate care with PCP. Treatment plans may be required for certain specialty services such as physical therapy, mental health, substance abuse treatment, etc.
- An explanation of benefits statement from the primary payor
  - Required if JHHC is the secondary payor
- A Medicare Remittance Notice
  - Is required if the claim involves Medicare as a primary payor
- A description of the procedure or service, which may include the medical record
  - May be required if a procedure or service rendered has no corresponding CPT or HCPCS code
- Operative notes
  - May be required if the claim is for multiple surgeries, or includes modifier 22, 58, 62, 66, 78, 80, 81 or 82
- Anesthesia records documenting the time spent on the service
  - May be required if the claim for anesthesia services rendered includes modifiers P4 or P5
- Documents referenced as contractual requirements in a global contract
  - May be required if there is a global contract between JHHC and a health care practitioner, hospital, or person entitled to reimbursement
- An ambulance trip report
  - May be required if the claim is for ambulance services submitted by an ambulance company licensed by the Maryland Institute for Emergency Medical Services Systems
- Office visit notes
  - May be required if the claim includes modifier 21 or 22, or an audit of the health care practitioner, hospital, or person entitled to reimbursement demonstrated a pattern of fraud, improper billing or improper coding
- Admitting notes, except in the case of emergency services rendered in accordance with Health-General Article, §§190701(d) and 19-712.5, Annotated Code of Maryland
  - May be required if the claim for services provided is outside of the time or scope of the authorization, or when there is an authorization in dispute

- Physician notes, except in the case of emergency services rendered in accordance with Health-General Article, §§190701(d) and 19-712.5, Annotated Code of Maryland
  - May be required if the claim for services provided is outside the time or scope of the authorization, or when there is an authorization in dispute
- Itemized bill, except in the case of emergency services rendered in accordance with Health-General Article, §§190701(d) and 19-712.5, Annotated Code of Maryland
  - May be required if the service is rendered in a hospital and the hospital claim has no prior authorization for admission, or is inconsistent with JHHC/Medicaid Services Coordinator concurrent review determination rendered before the delivery of services, regarding the medical necessity of the service
- Administrative days must be billed separately from acute hospital days on the DHMH 1288 form and must be attached.

**Providers will ensure their medical documentation has the correct service and diagnoses that reflect their claim submissions.**

## Claims Resolution

Priority Partners is dedicated to providing timely resolution of claims. Priority Partners processes all claims according to generally accepted claims coding and payment guidelines defined by the CPT-4 and ICD-10 manuals. Providers must use HIPAA-compliant billing codes when billing by paper or electronically. When billing codes are updated, providers are required to use appropriate replacement codes for submitted claims. Priority Partners will reject claims submitted with noncompliant billing codes. Priority Partners uses code editing software to determine which services are considered part of, incidental to, or inclusive of the primary procedure.

## Timely Filing

Paper and electronic claims must be filed within 180 calendar days. Timely filing periods begin from the date of discharge for inpatient services and from date of service for outpatient/physician services. Timely filing requirements are defined in the provider agreement. Priority Partners will deny claims submitted after the filing deadline.

## Documentation of Timely Claim Receipt

Claims will be considered timely if submitted:

- By United States mail first class, return receipt requested or by overnight delivery service; you must provide a copy of the claim log that identifies each claim included in the submission
- Electronically; you must provide the clearinghouse-assigned receipt date from the reconciliation reports
- By hand delivery; you must provide a claim log identifying each claim included in the delivery and a copy of the signed receipt acknowledging the hand delivery

The claims log maintained by providers must include the following information:

- Name of claimant
- Address of claimant
- Telephone number of claimant

# Remittance Advice Statement

The items below correspond with the Remittance Advice Form. Together, they provide specific information regarding the review and interpretation of the Priority Partners Remittance Advice.

This remittance is used for all providers who submit claims to Priority Partners. Thus, there may be sections that are not applicable for posting and reconciliation of certain claims.

<b>Payee</b>	The name and address of the payee as indicated on the submitted claim
<b>Check Date</b>	The date the check (if any) was prepared.
<b>Payee Number</b>	The payee’s tax identification number.
<b>Check Number</b>	The number of the check (if any).
<b>Date of Service</b>	The “from and to” dates submitted on the claim.
<b>Procedure Code</b>	Procedure/revenue code that best describes service rendered.
<b>Billed Amount</b>	The amount identified by the provider as a charge for a service or procedure.
<b>Charges Above Max</b>	The portion of the billed amount that is in excess of the established fee maximum for the procedure. This amount is NOT a member’s liability.
<b>Disallowed Amount</b>	The dollar value of a service which is not eligible for payment. A disallowed amount is not a deductible, coinsurance or copayment. It may represent that portion of the charge above the benefit maximum (and would not be a member’s liability) and/or the charge for a non-covered procedure (which would be a member’s liability).
<b>Allowed Amount</b>	The amount eligible for payment.
<b>Deduct/Copay/Coinsurance</b>	Identifies the member’s liability for cost-sharing features (deductible, copayment and/ or coinsurance) of the program.
<b>Other Insurance Paid</b>	The total dollar amount paid by any other insurance carrier or Medicare.
<b>Subscriber Liability</b>	The dollar amount which the provider may collect from the subscriber. This amount includes any applicable deductible, copayment, coinsurance and charges for non- covered services.
<b>Net Payable</b>	The total dollar amount being paid for the procedure. The allowed amount minus deductible/copayment/coinsurance minus other insurance paid equals the net payable.
<b>Remark Code</b>	The code number that identifies a message to the provider regarding payment of the claim. Codes are defined at the end of the remittance.
<b>EPSDT</b>	Indication whether billed procedure is related to Early, Periodic Screening, Diagnosis and Treatment (EPSDT) services.
<b>Provider Name</b>	The name of the provider who provided services for a submitted claim.
<b>Provider ID</b>	The identification number assigned to the specific provider submitting the claim.
<b>Line of Business</b>	The code indicating in which line of business the patient is a member. Priority Partners’ line of business code is 300.
<b>Claim Total</b>	The total dollar value of all individual line items submitted on a single claim.
<b>Payable Total</b>	The total of all payable claims included in the remittance advice.
<b>Remittance Total</b>	The overall total of all claims included in the remittance advice.
<b>Remark Code</b>	Definition of all remark codes indicated on the remittance.

# PROVIDER APPEAL OF DENIED CLAIMS

Denial of claims is considered a contractual issue between Priority Partners and the provider. Providers must contact Priority Partners directly. The Maryland Insurance Administration refers Priority Partners billing disputes to MDH. MDH may assist providers in contacting the appropriate representative at Priority Partners but MDH cannot compel Priority Partners to pay claims that Priority Partners administratively denied. See Section IV under the **Provider Appeal Process** heading for complete information on the Priority Partners provider appeals process and the proper forms to use for submission.

## STATE'S INDEPENDENT REVIEW ORGANIZATION (IRO)

The MDH contracts with an IRO for the purpose of offering providers another level of appeal for providers who wish to appeal **medical necessity denials** only. Providers must first exhaust all levels of the Priority Partners appeal process. By using the IRO, you agree to give up all appeal rights (e.g., administrative hearings, court cases). The IRO only charges after making the case determination. If the decision upholds the Priority Partners denial, you must pay the fee. If the IRO reverses the Priority Partners denial, then Priority Partners must pay the fee. The web portal will walk you through submitting payments. The review fee is \$425. More detailed information on the IRO process can be found at <https://mmcp.MDH.maryland.gov/SitePages/IRO%20Information.aspx>.

The IRO does not accept cases for review that involve disputes between the Behavioral Health ASO and Priority Partners.

## QUALITY IMPROVEMENT PROGRAM DESCRIPTION

### Introduction

The Johns Hopkins HealthCare LLC (JHHC) Quality Improvement (QI) program is designed to achieve the highest level of performance when compared to industry benchmarks. The QI program is accountable to national benchmarks as evidenced by involvement with the NCQA accreditation and Healthcare Effectiveness Data and Information Set (HEDIS®) programs.

### Mission of the Quality Improvement Program

JHHC QI program activities support and promote the JHHC mission to improve the lives of our plan members by providing access to high quality, cost effective, member-centered health care. In addition, the JHHC QI program supports the Johns Hopkins Medicine mission to improve the health of the community and the world by setting the standard of excellence in medical education, research, and clinical care. JHHC QI program uses nationally recognized measures of quality as follows:

- Agency for Healthcare Research and Quality (AHRQ)
- National Quality Forum (NQF)
- NCQA standards for quality and member safety
- National Institute of Medicine (IOM)

## Continuous Quality Improvement

The QI program functions within the Institute for Healthcare Improvement's triple aim framework ([www.ihf.org](http://www.ihf.org)), which is to simultaneously: 1) Improve the experience of care (including quality and satisfaction) verified on IHI.org; 2) improve the health of populations; and 3) reduce the per capita cost of health care. The QI program uses the Continuous Quality Improvement (CQI) (Longest, 2008) process to develop and evaluate initiatives to improve member health, experience, and quality of care in alignment with the triple aim.

## Quality Improvement Program Goals

The QI program goals are as follows:

- Be a top performing health plan in Maryland
- Improve the quality and safety of clinical care, including behavioral health, and services provided to members
- Support and promote the JHHC mission to improve the lives of members by providing access to high quality and member-centered health care
- Promote utilization of the principles of CQI
- Utilize data, outcome studies and evidence-based criteria in order to analyze, monitor, evaluate, and report clinical quality and member safety
- Support programs and initiatives lead by other JHHC departments through the provision of quality data and analytics
- Serve a culturally and linguistically diverse membership through customer service and marketing led activities
- Serve members with complex health needs through the care management and special needs programs
- Support coordination of activities and audits that demonstrate compliance with applicable regulatory and accreditation requirements

## Member Safety Program

JHHC has embraced the innovative patient safety model developed by the Johns Hopkins Medicine Armstrong Institute of Patient Safety and Quality in order to promote quality improvement and patient safety activities within the health plan. The Armstrong Institute is working to advance the science of safety and quality through an array of projects and initiatives. The director of QI attends Armstrong Institute Quality Improvement and Patient Safety committees and share information regarding patient outcomes (HEDIS® and Value Based Purchasing (VBP)), patient satisfaction, and patient safety trends.

The member safety program outlines JHHC's plan for monitoring quality of care, disparities of care, and tracking outcomes of QI initiatives and studies related to safety. Activities of the Member Safety program include but are not limited to the following activities:

- Quality of Care (QOC) reviews (clinical, behavioral and pharmacy quality issues)
- Medical record chart audits identified through AHRQ Patient Safety Indicator software
- Safety activities associated with regulatory compliance oversight

## Quality Improvement Objectives

QI objectives are developed annually as a result of the analysis of quality initiatives and studies. Additional objectives are developed throughout the year as needed and are based upon gap analysis of HEDIS, VBP, Consumer Assessment of Healthcare Providers and Systems (CAHPS®) complaint data, and other quality-related data.

## HEDIS, VBP and CAHPS

HEDIS measures performance on important dimension of care and service. HEDIS consists of 60 to 75 measures, depending on product type, across eight domains of care. JHHC reports on approximately 22 to 30 measures/sub-measures, which may vary from year to year and by product/line of business. The QI department coordinates all activities associated with the collection, validation, and submission of HEDIS data. JHHC has contracted with an NCQA-certified vendor to conduct external HEDIS audit to ensure compliance with data collection processes and validation of data prior to submission. JHHC has IT resources with strict controls allowing for the confidential transmission of data via Interactive Data Submission System (IDSS) tool to NCQA.

MDH VBP program is designed to provide incentives and disincentives based on performance indicators that measure access and quality of care. The VBP measures change annually, and may vary from the HEDIS measures.

The CAHPS survey is designed to capture information regarding member experience with network providers and health plan operations. Surveys are administered annually by an external NCQA-certified survey vendor per protocol as defined in the current HEDIS Specifications Volume 3.

## Quality Improvement Initiatives

A quality initiative is a focused action that is taken by the health care organization, provider or practitioner with the goal of improving the quality of health care services, access to care, and member health outcomes.

QI initiatives are identified through analysis of data that include, but are not limited to, the following areas:

- HEDIS and VBP results
- Member Satisfaction Survey results (CAHPS)
- QOC reviews
- Provider Satisfaction Survey results
- UM data
- Pharmacy and medical claims data
- Member complaint data

Multiple factors are considered during initiative development to include the prospective impact to members, as well as the likelihood that measurable improvement will occur. In light of differences in the populations served across Maryland, the QI department also considers national health care campaigns deemed significant and supported by the various regulatory agencies governing JHHC product lines (i.e. MDH's Partnership for Patients and Million Hearts campaigns) during the initiative development process. QI initiatives and projects are routinely monitored and revised as appropriate through the QI work plan.

## Quality Improvement Annual Program Description and Work Plan

The QI work plan is a dynamic document that reflects planned activities for the upcoming year in addition to objectives and goals related to those activities. The program description is updated annually, or more frequently, if necessary. The work plan is routinely evaluated and updated as recommended, by JHHC QI committees. Various departments at JHHC are responsible for action items in this work plan. Both the QI program description and work plan are approved annually through the QI committees, and then ultimately by the JHHC Board of Directors, and are submitted to regulatory agencies as required.

## Quality Improvement Program Evaluation

On an annual basis, a multidisciplinary team evaluates the outcomes of quality initiatives and studies and the overall effectiveness of the QI program. The QI evaluation is approved by QI committees, with ultimate approval by the JHHC Board of Directors, and is submitted to regulatory agencies as required.

### Provider's Role

Providers are expected to cooperate with health plan quality improvement, patient safety, and performance improvement activities to improve the quality of care, quality of service, and member experience. Providers also are expected to allow the health plan to use performance data for the purposes of quality improvement initiatives. Examples of the provider's role in the health plan quality program include the following:

- Review quality reports and take action to improve clinical outcomes as measured by HEDIS and VBP
- Collaborate with the health plan to resolve member complaints regarding access to care, quality of care, provider service or other issues upon request
- Provide feedback on the health plan via provider satisfaction surveys
- Provide medical records as requested for HEDIS, quality of care investigations, or other medical record audits
- Collect and share quality and performance data for the purposes of joint quality initiatives
- Participate in member satisfaction initiatives, including improving access to care
- Participate in quality improvement committees upon request

A number of providers are invited to participate in quality improvement committees. Their perspective as participating providers is valuable in evaluating and improving clinical effectiveness, provider satisfaction and member satisfaction. Priority Partners also relies on participating providers to provide feedback on clinical practice guidelines, preventive health guidelines, medical policy and pharmacy policy.

If you are interested in obtaining additional information about the quality improvement program, including <https://mmcp.MDH.maryland.gov/SitePages/IRO%20Information.aspx> a copy of the full QI program description, please contact your Provider Relations network manager.

## ENCOUNTER DATA REPORTING REQUIREMENTS

MDH requires Priority Partners to submit data as set forth in the Annotated Code of Maryland 10.09.65.15. An encounter is any health care service rendered to an enrolled Medical Assistance recipient by a state-contracted MCO or subcontractor to the MCO. The regulations also state that encounter data must be submitted within 60 days after the last day of the month in which the service was rendered.

The encounter data is intended to reflect 100 percent of the medical services performed as well as the equipment, supplies and tests provided in the medical care of a member. That is, every service rendered to a Medicaid recipient by a provider for Priority Partners must be reported to MDH as an encounter record. In addition, any service for which Priority Partners pays on behalf of the Medicaid recipient (e.g. one for which the recipient has self-referred) must be reported as an encounter. These encounters include, but are not limited to: physician, inpatient, outpatient, long-term care, home health, pharmacy, dental, vision, laboratory, durable medical equipment, disposable medical supplies and other medical practitioner services.

The data will be used for:

- Overall program assessment
- Quality assurance monitoring
- Rate-setting
- Generating federal and state reports on service utilization

In order for the MDH to comply with the state and federal requirements and to perform its necessary quality and financial analyses, it is imperative that encounter data be submitted accurately. It is the provider's responsibility to submit to Priority Partners encounter or claims data using the national standard 837 electronic format or a clean paper claim using the national standard CMS 1500 form for professional services or the UB-04 form for facility services for each service provided. It is Priority Partners' responsibility to submit the encounter data to the state within 60 calendar days after receipt of the claim from the provider.

## SECTION VII. Provider Services and Responsibilities

# OVERVIEW OF PRIORITY PARTNERS PROVIDER RELATIONS

Delivering quality medical services to our members is the hallmark of Johns Hopkins HealthCare LLC (JHHC), and we rely on our network providers to do this.

JHHC's Provider Relations department is dedicated to the partnerships we've established within our provider network. Provider Relations Network Managers and Coordinators work closely with providers and facilities to satisfy the needs of our program enrollees. These include but aren't limited to:

- Rate negotiation and services coordination for non-par providers/vendors
- Needs analyses for network expansions
- Orientation for new providers
- Routine office visits for ongoing training and assurance of contractual compliance
- Annual seminars on general and specific topics of interest
- Updated policies and procedure information
- Network management/monitoring for adequacy, access, appointment and availability
- Immediate response to inquiries, requests and/or issues
- Routine correspondence and communication

## PRIORITY PARTNERS WEB PORTAL

Our secure web portal, [www.jhhc.com](http://www.jhhc.com) gives our providers and facilities convenient, safe access to the following resources:

- Provider manuals
- Timely updates and announcements
- Forms
- *Provider Pulse*, our quarterly provider newsletter
- [HealthLINK@Hopkins](mailto:HealthLINK@Hopkins)
- Online provider directory
- Policies and procedures
- Compliance guidance
- Drug formularies
- Preauthorization updates
- Health care performance measures and more!

# PROVIDER INQUIRIES AND UPDATES

If there are any changes in your practice or facility, you are **required** to notify Johns Hopkins Provider Relations department by email at [ProviderChanges@jhhc.com](mailto:ProviderChanges@jhhc.com). You can also inform us of changes via the following:

- Phone: 410-762-4385  
888-895-4998
- Fax: 410-424-4604
- Mail: Johns Hopkins HealthCare LLC  
Provider Relations  
7231 Parkway Drive, Suite 100  
Hanover, MD 21076

## RE-CREDENTIALING

At the time of re-credentialing (every three years), each provider must show evidence of satisfying these policy requirements and must have satisfactory results relative to the Priority Partners measures for quality health care and service.

Priority Partners started a credentialing committee and a medical advisory committee for the formal determination of recommendations regarding credentialing decisions. The credentialing committee makes decisions regarding participation of initial applicants and their continued participation at the time of re-credentialing. The oversight rests with the medical advisory committee. During re-credentialing, information for PCPs from quality improvement activities and member complaints is presented for credentialing committee review.

The provider will be notified by telephone or in writing if information obtained in support of the reassessment process varies substantially from the information submitted by the provider. Providers have the right to review the information submitted in support of the re-credentialing process and to correct errors in the documentation. This will be accomplished by submission of a written explanation or by appearance before the credentialing committee if so requested.

## OVERVIEW OF PROVIDER RESPONSIBILITIES

### **Affirmative Statement**

Priority Partners ensures utilization management decisions are fair, independent, and according to approved criteria and available benefits. Utilization management decisions are based only upon appropriateness of care and service and the existence of coverage. Priority Partners does not specifically reward providers or other individuals for issuing denials of coverage of care, and financial incentives for utilization management decision-makers do not encourage decisions that result in utilization.

### **Nondiscrimination Statement**

Priority Partners does not engage in, aid or perpetuate discrimination against any person by providing significant assistance to any entity or person that discriminates on the basis of race, color or national origin in providing aid, benefits or services to beneficiaries. Priority Partners does not utilize or administer criteria having the effect of discriminatory practices on the basis of gender or gender identity. Priority Partners does

not select site or facility locations that have the effect of excluding individuals from, denying the benefits of or subjecting them to discrimination on the basis of gender or gender identity. In addition, in compliance with the Age Act, Priority Partners may not discriminate against any person on the basis of age, or aid or perpetuate age discrimination by providing significant assistance to any agency, organization or person that discriminates on the basis of age. Priority Partners provides health coverage to members on a nondiscriminatory basis, according to state and federal law, regardless of gender, gender identity, race, color, age, religion, national origin, physical or mental disability, or type of illness or condition.

Members who contact Priority Partners with an allegation of discrimination are informed immediately of their right to file a grievance. This also occurs when a Priority Partners representative working with a member identifies a potential act of discrimination. The member is advised to submit a verbal or written account of the incident and is assisted in doing so, if the member requests assistance. Priority Partners documents, tracks and trends all alleged acts of discrimination.

Members are also advised to file a civil rights complaint with the U.S. Department of Health and Human Services Office for Civil Rights (OCR):

- Through the OCR complaint portal at <https://ocrportal.hhs.gov/ocr/portal/lobby.jsf>
- By mail to: U.S. Department of Health and Human Services, 200 Independence Ave. SW, Room 509E, HHH Building, Washington DC 20201
- By phone at: 800-368-1019 (TTY/TTD: 800-537-7697)

Complaint forms are available at [www.hhs.gov/ocr/office/file/index.html](http://www.hhs.gov/ocr/office/file/index.html).

Priority Partners provides free tools and services to people with disabilities to communicate effectively. Priority Partners also provides free language services to people whose primary language isn't English (e.g. qualified interpreters and information written in other languages). These services can be obtained by calling the Customer Service number on their member ID card.

## **Equal Program Access on the Basis of Gender**

Priority Partners provides individuals with equal access to health programs and activities without discriminating on the basis of gender. Priority Partners must also treat individuals consistently with their gender identity, and is prohibited from discriminating against any individual or entity on the basis of a relationship with, or association with, a member of a protected class (i.e., race, color, national origin, gender, gender identity, age or disability).

Priority Partners may not deny or limit health services that are ordinarily or exclusively available to individuals of one gender, to a transgender individual based on the fact that a different gender was assigned at birth, or because the gender identity or gender recorded is different from the one in which health services are ordinarily or exclusively available.

## **PRIMARY CARE PROVIDERS (PCPS)**

The PCP serves as the entry point for access to health care services. The PCP is responsible for providing members with medically necessary covered services, or for referring a member to a specialty care provider to furnish the needed services. The PCP is also responsible for maintaining medical records and coordinating comprehensive medical care for each assigned member. Members can choose a Physician, Nurse Practitioner or Physician's Assistant as their PCP. The PCP will act as a coordinator of care and has the responsibility to provide accessible, comprehensive, and coordinated health care services covering the full range of benefits.

The PCP is required to:

- Address the member's general health needs;
- Treat illnesses
- Coordinate the member's health care;
- Promote disease prevention and maintenance of health;
- Maintain the member's health records; and
- Refer for specialty care when necessary.

If a woman's PCP is not a women's health specialist, Priority Partners will allow her to see a women's health specialist within the Priority Partners network without a referral, for covered services necessary to provide women's routine and preventive health care services. Prior authorization is required for certain treatment services.

## ROLE OF SPECIALTY CARE PROVIDERS

Obligations of the specialist also include the following:

- Complying with all applicable statutory and regulatory requirements of the Medicaid program
- Meeting eligibility requirements to participate in the Medicaid program
- Accepting all members referred to him or her if the referrals are within the scope of the specialist's practice
- Submitting required claims information
- Arranging for coverage with other network providers while off-duty or on vacation
- Verifying member eligibility and precertification of services (when required) at each visit
- Providing consultation summaries or appropriate periodic progress notes to the member's PCP on a timely basis following a referral or routinely scheduled consultative visit
- Notifying both the PCP and Priority Partners, as well as requesting precertification from Priority Partners as appropriate, when scheduling a hospital admission or any other procedure requiring Priority Partners' approval.

## MEDICAL RECORD DOCUMENTATION

Providers must safeguard/secure the privacy and confidentiality of and verify the accuracy of any information that identifies a Priority Partners member. Original medical records must be released only in accordance with federal or Maryland laws, court orders, or subpoenas.

Providers must follow both required and voluntary provision of medical records must be consistent with the Health Insurance Portability and Accountability Act (HIPAA) privacy statute and regulations (<http://www.hhs.gov/ocr/privacy/>).

It is the policy of Johns Hopkins HealthCare LLC (JHHC) to ensure that the medical records of network practitioners are maintained in a manner that is current, detailed, organized, permits effective and confidential patient care and quality review, and meets established goals for medical record keeping.

The JHHC standards for medical record documentation include the following:

**Confidentiality of medical records:**

- Medical records are stored securely.
- Only authorized personnel have access to records.
- Medical practice has a policy that ensures the staff receives training in member information confidentiality.

**Each medical record must include:**

- History and physicals
- Allergies and adverse reactions
- Problem list
- Medications
- Documentation of clinical findings and evaluation for each visit
- Preventive services/risk screening
- Documentation of follow-up for all diagnostic, therapeutic, and ancillary services

**Availability of medical records:**

- Medical records are organized and stored in a manner that allows easy retrieval.
- Medical records are stored in a secure manner that allows access by authorized personnel only.

JHHC will conduct medical record documentation reviews on a randomly selected sample of primary care practitioners. Those practitioners who document in EMR or who have received recognition in the National Committee for Quality Assurance’s (NCQA) Physician Practice Connections Program will be excluded from reviews.

JHHC has set the following performance goals for reviews of medical record documentation:

Best practice . . . . .	.80 percent to 100 percent
Acceptable . . . . .	.50 percent to 79 percent
Not acceptable. . . . .	.0 percent to 49 percent

**Providers will ensure their medical documentation has the correct service and diagnoses that reflect their claim submissions.**

## PRIMARY CARE PROVIDER (PCP) CONTRACT TERMINATIONS

If you are a PCP and we terminate your contract for any of the following reasons, the member assigned to you may elect to change to another MCO in which you participate by calling the enrollment broker within 90 days of the contract termination:

- For reasons other than the quality of care or your failure to comply with contractual requirements related to quality assurance activities; or
- Priority Partners reduction of your reimbursement to the extent that the reduction in rate is greater than the actual change in capitation paid to Priority Partners by the MDH, and Priority Partners and you are unable to negotiate a mutually acceptable rate.

# SPECIALTY REFERRALS

- We will maintain a complete network of adult and pediatric providers adequate to deliver the full scope of benefits as required by COMAR 10.67.05 and 10.09.67
- If a specialty provider cannot be identified contact us at 800-654-9728 or the Provider Hotline at 800-766-8692 for assistance.

# PROVIDER REQUESTED MEMBER TRANSFER

When persistent problems prevent an effective provider-patient relationship, a participating provider may ask a member to leave their practice. Such requests cannot be based solely on the member filing a grievance, an appeal, a request for a fair hearing or other action by the patient related to coverage, high utilization of resources by the patient or any reason that is not permissible under applicable law.

The following steps must be taken when requesting a specific provider-patient relationship termination:

- The provider must send a letter informing the member of the termination and the reason(s) for the termination. A copy of this letter must also be sent to:  
Johns Hopkins Health Care-Priority Partners  
7231 Parkway Drive, Suite 100  
Hanover, MD 21076  
Attn: Provider Relations
- The provider must support continuity of care for the member by giving sufficient notice and opportunity to make other arrangements for care.
- Upon request, the provider will provide resources or recommendations to the member to help locate another participating provider and offer to transfer records to the new provider upon receipt of a signed patient authorization.

# REPORTING COMMUNICABLE DISEASE

You must ensure that all cases of reportable communicable disease that are detected or suspected in a member by either a clinician or a laboratory are reported to the LHD as required by Health – General Article, §§18-201 to 18-216, Annotated Code of Maryland and COMAR 10.06.01 Communicable Diseases.

Any health care provider with reason to suspect that a member has a reportable communicable disease or condition that endangers public health, or that an outbreak of a reportable communicable disease or public health-endangering condition has occurred, must submit a report to the health officer for the jurisdiction where the provider cares for the member.

- The provider report must identify the disease or suspected disease and demographics on the member including the name, age, race, sex and address of residence, hospitalization, date of death, etc. on a form provided by the MDH (DHMH-1140) as directed by COMAR 10.06.01.
- With respect to patients with tuberculosis, you must:
  - Report each confirmed or suspected case of tuberculosis to the LHD within 48 hours
  - Provide treatment in accordance with the goals, priorities, and procedures set forth in the most recent edition of the Guidelines for Prevention and Treatment of Tuberculosis, published by MDH

## Other Reportable Diseases and Conditions

- A single case of a disease of known or unknown etiology that may be a danger to the public health, as well as unusual manifestation(s) of a communicable disease, are reportable to the local health department.
- An outbreak of a disease of known or unknown etiology that may be a danger to the public health is reportable immediately by telephone.

## Reportable Communicable Diseases – Laboratory Providers

Providers of laboratory services must report positive laboratory results as directed by Health – General Article §18-205, Annotated Code of Maryland.

In order to be in compliance with the Maryland HIV/AIDS Reporting Act of 2007, laboratory providers must report HIV positive members and all CD4 test results to the Health Department by using the member's name. The State of Maryland HIV/CD4 Laboratory Report Form DHMH 4492 must be used. The reporting law and the revised reporting forms may be found at the following website: <http://phpa.dhmf.maryland.gov/SitePages/reportable-diseases.aspx>

Laboratories that perform mycobacteriology services located within Maryland, must report all positive findings to the health officer of the jurisdiction in which the laboratory is located. For out-of-state laboratories licensed in Maryland and performing tests on specimens from Maryland, the laboratory may report to the health officer of the county of residence of the patient or to the MDH Division of Tuberculosis Control within 48 hours by telephone 410-767-6698 or fax 410-669-4215.

We cooperate with LHDs in investigations and control measures for communicable diseases and outbreaks.

## CONFIDENTIALITY

Providers are expected to maintain policies and procedures within their offices to prevent the unauthorized or inadvertent disclosure of confidential information according to the terms of the Participating Provider Agreement and Payor Addendum.

## ADVANCE DIRECTIVES

Providers are required to comply with federal and state law regarding advance directives for adult members. Maryland advance directives include Living Will, Health Care Power Of Attorney, and Mental Health Treatment Declaration Preferences and are written instructions relating to the provision of health care when the individual is incapacitated. The advance directive must be prominently displayed in the adult member's medical record. Requirements include:

- Providing written information to adult members regarding each individual's rights under Maryland law to make decisions regarding medical care
- Providing written information to adult members of provider-written policies concerning advance directives that include the provider's rights concerning conscientious objections
- Documenting in the member's medical record, whether or not the adult member has been provided the information and whether an advance directive has been executed
- Not discriminating against a member because of his or her decision to execute or not execute an advance directive and not making it a condition for the provision of care

- Educating staff on issues related to advance directives, as well as communicating the member's wishes to attending staff at hospitals or other facilities
- Educate patients on advance directives (durable power of attorney and living wills)

Advance directive forms, a guide to Maryland law, and frequently asked questions can be found at: [www.marylandattorneygeneral.gov/Pages/HealthPolicy/advancedirectives.aspx](http://www.marylandattorneygeneral.gov/Pages/HealthPolicy/advancedirectives.aspx).

## CULTURAL COMPETENCY

Title VI of the Civil Rights Act of 1964 prohibits discrimination on the basis of race, color, and national origin in programs, and activities receiving federal financial assistance, such as Medicaid. Cultural competency is the ability of individuals, as reflected in personal and organizational responsiveness, to understand the social, linguistic, moral, intellectual, and behavioral characteristics of a community or population, and translate this understanding systematically to enhance the effectiveness of health care delivery to diverse populations.

Members are to receive covered services without concern about race, ethnicity, national origin, religion, gender, age, mental, or physical disability, sexual orientation, genetic information or medical history, ability to pay or ability to speak English.

Priority Partners expects providers to treat all members with dignity and respect as required by federal law including honoring member's beliefs, be sensitive to cultural diversity, and foster respect for member's cultural backgrounds. Title VI of the Civil Rights Act of 1964 prohibits discrimination on the basis of race, color, and national origin in programs, and activities receiving federal financial assistance, such as Medicaid.

Cultural competency is the ability of individuals and systems to provide effective services to people of all cultures, races, ethnic backgrounds and religions in a manner that identifies affirms, values and respects the worth of the individuals while protecting and preserving the dignity of each.

Priority Partners members come from diverse cultural backgrounds. Sensitivity to cultural differences allows Priority Partners to recognize and avoid situations that may discourage a member from using services or following treatment plans.

The culture of poverty may also create lifestyle issues such as inability to afford telephone service, frequent residential moves, homelessness and attributes like low literacy or language barriers that make it difficult to effectively interact with members. Priority Partners believes positive member interactions may encourage members to use services more appropriately.

Cultural competency training is a requirement for participating providers in the Priority Partners network. HHS offers [A Physician's Practical Guide to Culturally Competent Care](#), a free, online educational program accredited for physicians, physician assistants, and nurse practitioners. This [HHS website](#) offers CME/CE credit and equips health care professionals with awareness, knowledge, and skills to better treat the increasingly diverse U.S. population they serve.

# HEALTH LITERACY – LIMITED ENGLISH PROFICIENCY (LEP) OR READING SKILLS

Priority Partners is required to verify that Limited English Proficient (LEP) members have meaningful access to health care services. Because of language differences and inability to speak or understand English, LEP persons are often excluded from programs they are eligible for, experience delays, denials of services, receive care, services based on inaccurate or incomplete information. Providers must deliver services in a culturally effective manner to all members, including those with limited English proficiency (LEP) or reading skills.

## INTERPRETATION SERVICES AND AUXILIARY AIDS

Interpreter services are available for all Priority Partners members regardless of their primary spoken language. Interpreter services also provide assistance to those who are deaf, hard of hearing, or have difficulty speaking.

To request an interpreter, members can call Priority Partners Member Services. Individuals who are deaf, hard of hearing, or have difficulty speaking can use the Maryland Relay Service (711). Priority Partners is required to provide auxiliary aids at no cost to members when requested. Auxiliary aids include assistive listening devices, written material, and modified equipment/devices.

If your patient needs interpreter services for an appointment, they need to contact your office first. It is best for patients to notify you in advance of an appointment to ensure there is enough time to set-up the interpreter service and to avoid a delay in their medical care services. In some situations, Priority Partners may help facilitate interpreter services for provider appointments. Patients can call Priority Partners Member Services if they have questions.

## ACCESS FOR INDIVIDUALS WITH DISABILITIES

Title III of the Americans with Disabilities Act (ADA) mandates that public accommodations, such as a physician's office, be accessible and flexible to those with disabilities. Under the provisions of the ADA, no qualified individual with a disability may be excluded from participation in or be denied the benefits of services, programs, or activities of a public entity; or be subjected to discrimination by any such entity. Provider offices must be accessible to persons with disabilities. Providers must also make efforts to provide appropriate accommodations such as large print materials and easily accessible doorways.

## **SECTION VIII.** Quality Assurance Monitoring Plan and Reporting Fraud, Waste and Abuse

# QUALITY ASSURANCE MONITORING PLAN

The quality assurance monitoring plan for the HealthChoice program is based upon the philosophy that the delivery of health care services, both clinical and administrative, is a process that can be continuously improved. The state of Maryland's quality assurance plan structure and function support efforts to deal efficiently and effectively with any identified quality issue. On a daily basis and through a systematic audit of MCO operations and health care delivery, the MDH identifies both positive and negative trends in service delivery. Quality monitoring and evaluation and education through member and provider feedback are an integral part of the managed care process and help to ensure that cost containment activities do not adversely affect the quality of care provided to members.

The MDH's quality assurance monitoring plan is a multifaceted strategy for assuring that the care provided to HealthChoice members is high quality, complies with regulatory requirements, and is rendered in an environment that stresses continuous quality improvement. Components of the MDH's quality improvement strategy include: establishing quality assurance standards for MCOs; developing quality assurance monitoring methodologies; and developing, implementing and evaluating quality indicators, outcome measures, and data reporting activities, including:

- Health Service Needs Information form completed by the participant at the time they select an MCO to assure that the MCO is alerted to immediate health needs, e.g., prenatal care service needs
- A complaint process administered by MDH staff
- A complaint process administered by Priority Partners
- A systems performance review of each MCO's quality improvement processes and clinical care performed by an External Quality Review Organization (EQRO) selected by the MDH. The audit assesses the structure, process, and outcome of each MCO's internal quality assurance program
- Annual collection, validation and evaluation of the HEDIS, a set of standardized performance measures designed by the NCQA audited by an independent entity
- Other performance measures developed and audited by MDH and validated by the EQRO.
- An annual member satisfaction survey using CAHPS, developed by NCQA for the Agency for Healthcare Research and Quality.
- Monitoring of preventive health, access and quality of care outcome measures based on encounter data.
- Development and implementation of an outreach plan.
- A review of services to children to determine compliance with federally required EPSDT standards of care.
- Production of a Consumer Report Card.
- An annual technical report that summarizes all quality activities

In order to report these measures to MDH, Priority Partners must perform chart audits throughout the year to collect clinical information on our members. Priority Partners truly appreciates the provider offices' cooperation when medical records are requested.

In addition to information reported to MDH, Priority Partners collects additional quality information. Providers may need to provide records for standard medical record audits that ensure appropriate record documentation. Our Quality Improvement staff may also request records or written responses if quality issues are raised in association with a member complaint, chart review, or referral from another source.

# HEALTH CARE FRAUD AND ABUSE

Johns Hopkins HealthCare (JHHC) wants to find and stop health care fraud and abuse. It is estimated that billions of dollars are lost annually due to health care fraud and abuse. JHHC takes its responsibility seriously to protect the integrity of the care its members receive, its health plans, and the federal and state programs it administers.

Fraud is defined as any deliberate and dishonest act committed with the knowledge that it could result in an unauthorized benefit to the person committing the act or someone else who is similarly not entitled to the benefit. Examples of healthcare fraud are:

- Misrepresentation of the type or level of service provided
- Misrepresentation of the individual rendering service
- Billing for items and services that have not been rendered
- Billing for services that have not been properly documented
- Billing for items and services that are not medically necessary
- Seeking payment or reimbursement for services rendered for procedures that are integral to other procedures performed on the same date of service (unbundling)
- Seeking increased payment or reimbursement for services that are correctly billed at a lower rate (up-coding)

Abuse is defined as practices that are inconsistent with accepted sound fiscal, business, or medical practices, and result in an unnecessary cost or in reimbursement for services that are not medically necessary or that fail to meet professionally recognized standards for health care.

- Misusing codes on a claim
- Charging excessively for services or supplies
- Billing for services that were not medically necessary

Both fraud and abuse can expose a provider or vendor to criminal and civil liability.

## Reporting Suspected Fraud and Abuse

Participating providers are required to report to Priority Partners all cases of suspected fraud, waste and abuse, inappropriate practices, and inconsistencies of which they become aware within the Medicaid program.

You can also report provider fraud to the MDH Office of the Inspector General at 410-767-5784 or 866-770-7175), the Maryland Medicaid Fraud Control Division of the Office of the Maryland Attorney General, at 410-576-6521 (888-743-0023) or to the Federal Office of Inspector General in the U.S. Department of Health and Human Services at 800-HHS-TIPS (800-447-8477).

The Maryland Medicaid Fraud Control Division of the Office of the Maryland Attorney General created by statute to preserve the integrity of the Medicaid program by conducting and coordinating Fraud, Waste, and Abuse control activities for all Maryland agencies responsible for services funded by Medicaid.

## How Can I Help Prevent Fraud and Abuse?

- Validate all member ID cards prior to rendering service
- Ensure accuracy when submitting bills or claims for services rendered
- Submit appropriate referral and treatment forms
- Avoid unnecessary drug prescription and/or medical treatment

- Report lost or stolen prescription pads and/or fraudulent prescriptions
- Report *all* suspicions of fraud by contacting one of the following:
  - ▶ **Call:**  
Local: 410-424-4996  
Toll-free: 844-422-6957  
or contact your JHHC Provider Relations representative who will forward your inquiry to the Corporate Compliance department
  - ▶ **Write:**  
JHHC Corporate Compliance Department  
7231 Parkway Drive, Suite 100  
Hanover, MD 21076
  - ▶ **Email:**  
Compliance@jhhc.com
  - ▶ **Fax:**  
410-762-1527

## What Should You Do If You Suspect or Have Knowledge of Fraud and Abuse?

All JHHC providers, subcontractors and vendors are required to report concerns about actual, potential or perceived misconduct to the JHHC Corporate Compliance department at the numbers/addresses noted above.

## What Happens to Me If I Report a Concern?

JHHC takes its responsibility to protect your reporting of actual or suspected fraud and abuse seriously. No employee may threaten, coerce, harass, retaliate, or discriminate against any individual who reports a compliance concern. To support this effort, JHHC has enacted zero-tolerance policies and annually trains all personnel on their obligation to uphold the highest integrity when handling compliance related matters. Any individual who reports a compliance concern has the right to remain anonymous and JHHC commits to enforcing this right.

In an effort to deter these and other instances of fraud and abuse, the JHHC Corporate Compliance department routinely performs validation audits of claims and medical record documentation.

In addition, the JHHC Corporate Compliance department investigates all detected outliers and other deviations from standard practice as well as all allegations of health care fraud and abuse that it receives from recipients and others. The Corporate Compliance department reports substantiated allegations to the appropriate regulatory authorities who may, in turn, perform its own fraud and/or abuse investigation and take action against those who are found to have committed health care fraud and/or abuse.

## Relevant Laws

There are several relevant laws that apply to fraud, waste, and abuse:

**The Federal False Claims Act (FCA)** (31 U.S.C. §§ 3729-3733) was created to combat fraud & abuse in government health care programs. This legislation allows the government to bring civil actions to recover damages and penalties when healthcare providers submit false claims. Penalties can include up to three times actual damages and an additional \$5,500 to \$11,000 per false claim. The False Claims Act prohibits, among other things:

- Knowingly presenting a false or fraudulent claim for payment or approval;
- Knowingly making or using, or causing to be made or used, a false record or statement in order to have a false or fraudulent claim paid or approved by the government; or
- Conspiring to defraud the government by getting a false or fraudulent claim allowed or paid

**The Anti-Kickback Statute** makes it a criminal offense to knowingly and willfully offer, pay, solicit, or remuneration to induce or reward referrals of items of services reimbursable by a Federal health care program. Remuneration includes anything of value, directly or indirectly, overtly or covertly, in cash or in kind.

**The Self-Referral Prohibition Statute (Stark Law)** prohibits providers from referring members to an entity with which the provider or provider's immediate family member has a financial relationship, unless an exception applies.

**The Red Flag Rule (Identity Theft Protection)** requires "creditors" to implement programs to identify, detect, and respond to patterns, practices, or specific activities that could indicate identity theft.

**The Health Insurance Portability and Accountability Act (HIPAA)** requires:

- Transaction standards
- Minimum security requirements
- Minimum privacy protections for protected health information
- National Provider Identification (NPIs) numbers

**The Federal Program Fraud Civil Remedies Act (PFCRA)**, codified at 31 U.S.C. §§ 3801-3812, provides federal administrative remedies for false claims and statements, including those made to federally funded health care programs. Current civil penalties are \$5,500 for each false claim or statement, and an assessment in lieu of damages sustained by the federal government of up to double damages for each false claim for which the government makes a payment. The amount of the false claims penalty is to be adjusted periodically for inflation in accordance with a federal formula.

**Under the Federal Anti-Kickback statute** (AKA), codified at 42 U.S.C. § 1320a-7b, it is illegal to knowingly and willfully solicit or receive anything of value directly or indirectly, overtly or covertly, in cash or in kind, in return for referring an individual or ordering or arranging for any good or service for which payment may be made in whole or in part under a federal health care program, including programs for children and families accessing Priority Partners services through Maryland HealthChoice.

**Under Section 6032 of the Deficit Reduction Act of 2005 (DRA)**, codified at 42 U.S.C. § 1396a(a)(68), Priority Partners providers will follow federal and Maryland laws pertaining to civil or criminal penalties for false claims and statements, and whistleblower protections under such laws, with respect to the role of such laws in preventing and detecting fraud, waste, and abuse in Federal health care programs, including programs for children and families accessing Priority Partners services through Maryland HealthChoice.

**Under the Maryland False Claims Act**, Md. Code Ann., Health General §2-601 et. seq.

**Administrative sanctions** can be imposed, as follows:

- Denial or revocation of Medicare or Medicaid provider number application (if applicable)
- Suspension of provider payments
- Being added to the OIG List of Excluded Individuals/Entities database
- License suspension or revocation

**Remediation** may include any or all of the following:

- Education
- Administrative sanctions
- Civil litigation and settlements
- Criminal prosecution
- Automatic disbarment
- Prison time

### **Exclusion Lists & Death Master Report**

Priority Partners is required to check the Office of the Inspector General (OIG), the National Plan and Provider Enumeration System (NPPES), the List of Excluded Individuals/Entities (LEIE), the Excluded Parties List System (EPLS), the Social Security Death Master Report, and any other such databases as the Maryland MMA Providers and other Entities Sanctioned List may prescribe.

Priority Partners does not participate with or enter into any provider agreement with any individual, or entity that has been excluded from participation in Federal health care programs, who have a relationship with excluded providers or who have been terminated from the Medicaid, or any programs by Maryland Department of Health for fraud, waste, or abuse. The provider must agree to assist [Priority Partners] as necessary in meeting our obligations under the contract with the Maryland Department of Health to identify, investigate, and take appropriate corrective action against fraud, waste, and abuse (as defined in 42 C.F.R. 455.2) in the provision of health care services.
