East Baltimore Campus

Clinical Hospital Advanced Management Program (CHAMP):
Howard County

Philosophy

Only through interdisciplinary collaboration, of both educators and learners among our multiple disciplines and schools, can one achieve maximum efficiency and effectiveness within health care systems. These efforts translate into enhanced value for our patients, greater satisfaction for clinicians providing care to their patients and superior patient-physician relationships

AIM FOR PRECISION IN EVERYTHING WE DO

Primary Goals
As a result of participation in this complete program, you will be able to:
- Apply fundamental “LEAN” methodologies to your clinical environments
- Create inter-professional teams to facilitate strategic initiatives and change management
- Utilize measurements of performance to enhance quality and innovation
- Apply and enhance best practices within you healthcare delivery environments
- Understand operational processes and prioritization strategies in an era of limited resources

Knowledge, Skills & Abilities
Upon completion of the program, learners will be able to
- Sustain competitive advantage by applying management best practices to healthcare delivery
- Adopt and implement innovations to achieve organizational excellence and improve financial outcomes
- Manage limited resources more efficiently through an increase understanding of prioritizing within clearly defined constraints

IMPROVE THE QUALITY AND AFFORDABILITY OF HEALTH CARE

Ambulatory Management Program (AMP)
AMP is a weekly, 16-week training program for practice management teams. After completing the program participants will be able to successfully operate an ambulatory clinical practice with enhanced effectiveness and efficiency that will improve patient care.

Program Curriculum
- Lean Processes
- Practice Management
- Change Leadership
- Transition Management
- Safety
- Quality
- Talent Management
- Internal Audit
- Billing Compliance
- Finance
- Final Project Presentations

Project Participation
- Provide learners with the opportunity to explore real issues in their clinic
- Demonstration the triad’s ability to synthesize and apply the knowledge and skills acquired from the program
- Affirm the learner’s ability to think critically and creatively to solve practical problems, make reasoned and ethical decisions and to communicate effectively

SUPPORT THE WELL BEING OF OUR PEOPLE AND OUR COMMUNITY

Clinical Hospital Advanced Management Program (CHAMP)
CHAMP is a monthly, 9-month training program for hospital teams. After completing the program participants will be able to successfully operate a hospital setting with enhanced effectiveness and efficiency that will improve patient care.

Program Curriculum
- Lean Processes
- Hospital Finance
- Talent Management
- Leadership
- Team Effectiveness and Service Excellence
- Practice and Program Development
- Billing Compliance, Research & Academic Advancement
- Final Project Presentations

Project Participation
- Provide learners with the opportunity to explore real issues in their clinic
- Demonstration the triad’s ability to synthesize and apply the knowledge and skills acquired from the program
- Affirm the learner’s ability to think critically and creatively to solve practical problems, make reasoned and ethical decisions and to communicate effectively
