

Johns Hopkins Bayview Medical Center

A full-service academic medical center on a completely modernized 130-acre campus, Johns Hopkins Bayview Medical Center traces its history of patient care to the founding of its ancestor, the Baltimore City and County Almshouse, in 1773; to its decades of service as an innovative municipal facility known as Baltimore City Hospitals; and to its 1984 acquisition by The Johns Hopkins Hospital. Johns Hopkins Bayview physicians hold full-time faculty positions in the Johns Hopkins University School of Medicine. The medical center campus is home to three National Institutes of Health Intramural Research Program institutes: National Institute on Aging, National Institute on Drug Abuse and National Human Genome Research Institute.

Nationally and Internationally Recognized Care

Johns Hopkins Bayview Medical Center is home to a nationally renowned geriatrics center and a state-designated Level II Trauma Center and Level IIIb neonatal intensive care unit that are part of the Maryland Institute for Emergency Medical Services Systems. The Johns Hopkins Burn Center, the only adult burn trauma and surgical facility in the region, is accredited by the American Burn Association and is federally designated as a model system of state-of-the-art, coordinated care for burn patients.

Part of a Premier, Integrated System

Johns Hopkins Bayview Medical Center is a member of Johns Hopkins Medicine, one of the world's premier, integrated health systems, with six hospitals, four community-based health care and surgery centers, more than 40 primary and specialty care outpatient sites throughout the region, and managed care and home care services. Through Johns Hopkins Medicine International, there are numerous strategic collaborations, affiliate and management agreements overseas, and multiple short-term consulting projects.

Among Johns Hopkins Bayview Medical Center's specialty services are:

Alcohol and Drug Abuse

- Center for Addiction and Pregnancy, offering inpatient and outpatient services for mothers and their infants, including psychiatric and obstetric evaluation and care
- Substance abuse treatment, including a detoxification unit and outpatient individual and group therapy

Asthma and Allergy

- Treating a wide range of allergy and respiratory conditions, specializing in rhinitis, sinusitis and asthma, food and drug reactions, eosinophilia; immune deficiency, mastocytosis, pediatric asthma and allergy, and urticaria and angioedema

Bariatrics

- Accredited as a Comprehensive Center with Adult and Adolescent Qualifications
- Completed more than 5,000 bariatric procedures with one of the lowest complication rates in the United States
- Offers options for adolescent patients ages 16 to young adult

Burn Center

- Provides care to some 400 adult inpatients and 1,600 adult outpatients each year, with a survival rate of 95 percent
- Serves as the mid-Atlantic regional burn center

Geriatrics

- Provides primary care for seniors at the Beacham Center for Geriatric Medicine, and geriatric medical-behavioral care
- Program of All-Inclusive Care for the Elderly (Hopkins ElderPlus) coordinates outpatient care to keep frail older adults living in their homes.

- Home-Based Medicine provides health care in the home to ensure that patients with restricted mobility have access to medical care
- Memory and Alzheimer's Treatment Center offers evaluation and treatment for dementia, traumatic brain injury and cerebrovascular disease.

Orthopaedics

- Hip and knee joint replacement, sports medicine, foot and ankle specialists, and orthopaedic trauma
- Member of the Pacific Business Group on Health Negotiating Alliance, a travel for care patient program for joint replacements

Rheumatology

- Offers seven disease-specific centers for diseases including arthritis, lupus, Lyme disease, myositis, scleroderma, Sjögren's syndrome and vasculitis

Women's Health

- Women's Center for Pelvic Health and Reconstructive Surgery
- Cervical Disease and Colposcopy Clinic, for women with abnormal Pap smears
- Women's Cardiovascular Health Center and Johns Hopkins Breast Center

Other Specialty Services

- Lung Cancer Program, treating mesothelioma, lung and esophageal cancers; includes a Lung Cancer Screening Program and Pulmonary Nodule Clinic
- Metabolic Bone Center, offering services to prevent, diagnose and treat osteoporosis, fragility and recurrent fractures, vitamin D deficiency, Paget's disease and more
