The Johns Hopkins Hospital

Cardiovascular and Pulmonary Physical Therapy Residency

This residency, currently in candidacy status with the American Board of Physical Therapy Residencies and Fellowships as part of the American Physical Therapy Association, aims to develop physical therapists who will:

• Provide innovative and evidence-based care to persons with cardiac, vascular and/or pulmonary health conditions across the continuum of care
• Advocate for and advance the integral role of physical therapy and rehabilitation in the management and prevention of impairments
• Possess system skills such as outcome measurement, quality improvement, project management and leadership within an interdisciplinary team

Program benefits:

• Salary and full-time benefits including paid time off
• One-on-one clinical mentoring
• Variety of unique didactic experiences
• Opportunity to participate in clinical research/quality improvement
• Leadership skill development

Details:

• 12-month long program
• Clinical exposure to cardiac/pulmonary rehabilitation and primary services for cardiovascular and pulmonary care service lines
• Participation in scholarly activities, including case presentations, multidisciplinary education and clinical education
• Participation in ongoing research or quality improvement projects

Prerequisites:

• Applicant must have or be eligible to obtain a license to practice physical therapy in the state of Maryland
• We do not sponsor work visas for international applicants for residency programs
