

The Johns Hopkins Hospital Outpatient Speech-Language Pathology Clinical Fellowship

This program aims to develop speech language pathologists that will:

- Provide innovative and evidence based care to the medically complex population.
- Advocate for and advance the integral role of speech-language pathology and rehabilitation in the management and prevention of impairments.
- Possess system skills such as outcome measurement, quality improvement, project management and leadership within an interdisciplinary team.
- Act as strong patient and family advocates.

Program benefits:

- Salary and full-time benefits.
- One-on-one clinical mentoring.
- Variety of unique didactic experiences.
- Opportunity to participate in clinical research.
- Leadership skill development.

Details:

We offer a 13-month fellowship experience with a focus on outpatient care across the Johns Hopkins entities. The outpatient fellowship includes 30 hours of clinical work and 20 hours of didactic experiences and research exposure each week.

- Clinical evaluation and treatment experience in the areas of motor speech, language, cognition, swallowing, speech generating devices and alternative communication.
- One-on-one mentorship with experienced SLPs.
- Didactic experience, including: surgery observations, participation in multidisciplinary rounds, monthly swallowing conference, and monthly journal club meetings.
- MBS-IMP certification.
- Participation in scholarly activities including: case presentations, multidisciplinary education, and research project with the opportunity to present at a conference or submit for publication.
- Leadership experience including mentorship of the next CFY.
- Participation in Johns Hopkins Research Development Program.
