Cigarette Smokers Needed

Up to $3250 for completing the study.

Healthy men and women who smoke cigarettes and are 18 years old or older are needed to participate in a research study at the Johns Hopkins Bayview Medical Center.

This is not a treatment study. The study tests factors that influence smoking behavior.

Participation involves an initial phone screening and an in person 2 hour screening visit.

If qualified, this study requires an additional 32 in person visits lasting approximately 4 hours each, and 4 in person visits lasting approximately 1.5 hours each.

For more information, please call (410) 550-1465.

Principal Investigator: Matthew W. Johnson, Ph.D.
