

Healthy Participants

Researchers at **Johns Hopkins** are conducting a research study to learn more about how medications affect people differently.

We are looking for participants who are:

- Healthy females/males
- Between 21 and 50 years old
- Willing to stay at a comfortable residential research unit for 5 days
- Interested in earning up to \$750!

Principal Investigator: Kelly Dunn, Ph.D.; Protocol # IRB00047423
