CHRONIC PAIN VOLUNTEERS NEEDED FOR A SENSORY TESTING RESEARCH STUDY

JOHNS HOPKINS IS STUDYING HOW THE BRAIN PROCESSES SENSATIONS

- You may be eligible if you:
  - Are between 33-65 years old
  - Have chronic pain
  - Are not taking specific medications (e.g. opioids, gabapentin, tramadol)

- The study includes 4 visits, each lasting between 2 - 4 hours:
  - 1 Screening session
  - 1 MRI scan of the brain
  - 2 PET imaging scans of the brain

- This study involves applying moderately painful cream (made of hot chili pepper) to the back of your hand (in two of the sessions)
- The study provides compensation (up to $300)
- There is no cost to you for any of the procedures

This study is funded by the National Institutes of Health
Principal Investigator: Dr. Claudia Campbell
Johns Hopkins IRB # NA_00017018
