

# Are you over 60 and feeling depressed?

- Symptoms of depression in older adults are common yet often go undetected. Symptoms could include:
  - feelings of sadness or hopelessness
  - loss of energy
  - inability to enjoy pleasurable activities
  - changes in appetite or sleeping patterns
  - poor concentration/memory
  
- If you are feeling depressed, not taking antidepressant medication and in good physical health, you may be eligible to participate in a research study involving treatment.
  
- Qualified people will participate at no cost to them. Compensation for time and transportation will be provided.
