Are you more forgetful lately?

- Do you have trouble with the names of people you’ve met recently?
- Do you get lost easily in new places?
- Do you have a greater tendency to misplace things?
- Do other people notice that you are forgetful?

If you are age 55 and older, having memory problems, not taking antidepressant medication and in good health, you may be eligible to participate in a research study.

Qualified people will participate at no cost to them. Compensation for time and transportation will be provided.
