What is schizophrenia?

Schizophrenia is a severe mental illness that affects more than 2 million adult Americans each year. It is a serious mental illness that interferes with a person’s ability to think clearly, manage emotions, make decisions and relate to others.

Symptoms may include:

- Delusions or belief in things that are not real or true
- Hallucinations
- Inability to generate a logical sequence of ideas
- Inability to manage or express emotions
- Inability to start and follow through with activities
- Lack of pleasure or interest in life
- Trouble with prioritizing tasks, memory and organizing thoughts

Seeking Treatment

The Adult Schizophrenia Clinic, located on the Johns Hopkins Bayview Medical Center campus, provides comprehensive, outpatient mental health services for adults who have been diagnosed with schizophrenia or schizoaffective disorder. Psychiatrists, therapists and social workers use a team approach to offer complete psychiatric care, including medication management, individual and family counseling, and case management.

The team works closely with the Johns Hopkins Bayview Psychosocial Rehabilitation Program and the Johns Hopkins Clinical Schizophrenia Program, including the Johns Hopkins Schizophrenia Inpatient and Day Hospital units.

Services

- Initial assessment and ongoing outpatient psychiatric treatment
- Individual and family psychotherapy
- Group psychotherapy
- Medication management
- Case management services
- Referral to on-site Adult Psychiatric Rehabilitation Program (PRP)
- Vocational and housing services through Adult PRP
- Educational support
- Referrals to Johns Hopkins Schizophrenia day hospital or inpatient services, if needed
- Referral for cognitive testing by Johns Hopkins neuropsychologists
- Mobile treatment
- Research opportunities

Appointments

The Adult Schizophrenia Clinic welcomes self- and family-referrals, hospital discharges, referrals from current providers and primary care physicians. Some private insurances, medical assistance and Medicare are accepted.
