

Medical Screenings for Volunteer Applicants

All Sibley Memorial Hospital Volunteer Applicants are required to have **tuberculosis screening (PPD/TST*)**, an **influenza vaccination (while in flu season)**, and a **one-time urine drug screening**. Your tuberculosis screening (PPD/TST) and flu shot (while in season) must be complete by a licensed provider **at your own expense**. The urine drug screening is free-of-charge, and it must be completed in the Occupational Health Department at Sibley, **by appointment** on Thursdays from 9:00 am to 4:00 pm. To schedule your drug screening appointment, contact Occupational Health at (202) 537-4265. Their office is located in the Hospital Building B on Level G.

Your tuberculosis screening results and proof of influenza vaccination can be mailed or hand-delivered to the Sibley Volunteer Office at 5255 Loughboro Road NW, Washington, D.C. 20016, or faxed to the Volunteer Office at (202) 370-6585.

Any volunteer under the age of 18 must have a parent or guardian with them for the drug screening. Please have a form of picture identification and the "Drug Screening for Volunteer Applicants" form when presenting to Occupational Health. If you have any questions, please contact the Volunteer Office at (202) 537-4485.

Marianne Monek
Director, Volunteer Service
