

Clinical Curriculum Attendance Policy

Attendance is required in all required clinical courses. This policy encompasses the following courses, hereafter referred to as required clinical courses:

- Longitudinal Clerkship
- Transition to the Wards
- PRECEDE
- Transition to Residency and Preparation for Life (TRIPLE)
- Core Clerkships: Emergency Medicine, Medicine, Neurology, Women's Health, Pediatrics, Psychiatry, and Surgery
- Advanced Clerkships:
 - * Chronic Disease and Disability
 - * Critical Care
 - * Subinternships in Medicine, Surgery, Pediatrics, Women's Health, Orthopedics, Otolaryngology, Plastic Surgery, Emergency Medicine

Attendance rules are governed by the School of Medicine in the following ways:

1. School Holidays

The School of Medicine publishes an annual calendar that identifies official SOM holidays for students (<http://www.hopkinsmedicine.org/som/students/academics/calendar.html>). These holidays currently include the following:

- Labor Day (Quarter 1, 1 day)
- Thanksgiving (Quarter 2, 4 days [2 weekdays, 2 weekend days])
- Christmas and New Year (winter break)
- Martin Luther King Day (Quarter 3, 1 day)
- Spring vacation (spring break)
- Memorial Day (Quarter 4, 1 day)
- Independence Day (Summer Quarter, 1 day)

The holidays which occur during the required clinical course time generally fall on a Monday or Friday adjacent to a weekend. These weekend days adjacent to these weekday holidays are **NOT** considered official school holidays (with the exception of Thanksgiving) and required activities may be scheduled on those weekend days at the discretion of the course or clerkship director. University Commencement and Convocation are **NOT** considered holidays for required clinical course students. Similarly, election day, presidential inauguration, and other public or civic events are not considered holidays for required clinical course students. Students in subinternships should anticipate that the department expects them to function in the role of interns and rotate in the intern call schedule regardless of University holidays.

2. Excused & Unexcused Absences

There are no given 'personal days' allowed in a required clinical course. Clarification on what qualifies as an excused and unexcused absence is as follows:

a). Residency Interviews

The following policy is to address the amount of time that fourth year students can miss from their required clinical courses for residency interviews. The goal is to ensure that students obtain sufficient experience in each of the basic disciplines to meet the objectives of the Hopkins curriculum. Interview days should not be considered the equivalent of PERSONAL days. Students should make

every effort to leave as late as possible and return as early as possible when interviewing to minimize time lost from a core clerkship.

- 1) On 6-9 week clerkships, students will be allowed to miss 3 full days of responsibilities as excused absences for interviews.
- 2) On 4-4.5 week clerkships, students will be allowed to miss 2 full days of responsibilities as excused absences for interviews.
- 3) Students must inform course directors of any such absences in advance of the beginning of the clerkship when possible. If students do not contact the course director in advance of any absences, they will be considered unexcused and will impact on the student's final grade.
- 4) All students who miss more than the allowed days above will be required to develop a plan for remediation of missed days with the clerkship director. Such remediation is a necessary requirement for successful graduation from the M.D. curriculum.

Comprehensive Clinical Skills Exam (CCSE)

The CCSE is a required educational activity for all graduating medical students. Students are encouraged not to schedule their CCSE during a required clinical course, but this is not always possible. The student is to be excused from required clinical course duties for the duration of the exam (approximately 7-9 hours, since the current 10-case version of the exam runs from about 7AM to 4PM). Students should expect to attend required clinical course educational activities after they have completed the exam.

Other Required Coursework

Certain required courses (e.g., Rational Therapeutics) may occasionally be scheduled concurrently with a required clinical course. If this occurs, scheduled activities for these other courses take priority over all scheduled required clinical course activities. Nevertheless, if such a conflict arises for a particular student, remediation may be required (*see below*).

Elective Coursework

Under no circumstances will elective coursework supersede required clinical course activities. Students will not be excused from required clinical course duties to attend clinical elective courses (or similar activities, such as research electives or ACLS training), whether such electives are internal or external to Johns Hopkins SOM. This includes elective experiences requiring complex or expensive travel arrangements, such as those conducted overseas. ***It is the responsibility of the student to ensure that no such conflicts arise.*** Students should consult the SOM calendar and the Registrar's office for official start and end dates for each required clinical course.

Personal Reasons (including Religious Holidays)

Students must notify the course or clerkship director as early as possible **before** the start of the required clinical course regarding any scheduled absence other than those described above, and should expect that they will need to make up missed time. This includes (but is not limited to) any absence for religious holidays, academic events (e.g., presentations at national and scientific meetings, including within Johns Hopkins), and civic responsibilities (e.g., election day, jury duty). Although each course or clerkship director has discretion to allow or disallow such absences (except for jury duty and religious holidays, see below*) based on their potential impact on the educational

experience, the general rule is “a day for a day” (i.e., each missed day will generally result in one additional day made up at a later time).

Clarifications for specific instances:

1. Since most family events (weddings, family reunions, etc.) are planned for weekends, most of these events could be attended with minimum time lost from the required clinical courses with advance planning. However, some personal events (e.g., graduations) typically occur on weekdays. Family events are excused only when the director has been notified at least 6 weeks prior to the start of the required clinical course, and when students will not miss more than 2 days (8-week clerkship)/1 day (4-week clerkship) or any required activities that would be difficult to remediate.
2. Attending JHU School of Medicine Graduation is excused only if a family member or spouse is graduating.
3. Attendance at a professional meeting for networking or professional development, or to accompany a family member, during a required clinical course is not excused. Students who are funded by the Office of Student Affairs or Office for Student Diversity to attend national student association meetings should follow the 5-step process outlined by the Office for Student Diversity.

**University policy regarding religious holidays states, “Religious holidays are valid reasons to be excused from class. Students who must miss a class or an examination because of a religious holiday must inform the instructor as early as possible in order to be excused from class or to make up any work that is missed.”*

- Weather and Other Related Emergencies Within the Baltimore Area

Weather-related policies are stipulated by the Johns Hopkins University and may be found at the URL below:

http://webapps.jhu.edu/jhuniverse/administration/emergency_weather_security_information/

Weather emergencies are available at the phone numbers and website below, as well as on radio and TV broadcasts:

Baltimore 410-516-7781

Outside Baltimore 800-548-9004

URL: <http://webapps.jhu.edu/emergencynotices>

Students in required clerkships and subinternships are not considered “Required Attendance Employees” and are excused from attendance at normally-required clerkship activities if affected by circumstances (e.g., weather) related to University delays or closings. As necessary, remediation plans will be made on a case-by-case basis by the Clerkship Director.

- Weather and Other Related Emergencies Outside the Baltimore Area

Students who travel during (e.g., on weekends) or in close temporal proximity to (e.g., just before) a required clinical course may be delayed in their return travel plans by inclement weather, flight cancellations, or other similar events outside their control. In such circumstances, safety is the first priority. Once the student’s safety is assured, they should immediately notify people related to the course or clerkship, as appropriate (e.g., course or clerkship director or coordinator, clinical team or preceptor with whom they are rotating, etc.). Students will generally be required to remediate any time

or activities upon safe return or at a later date. Students should be advised, however, that extended or repeated travel-related absences will be considered unprofessional behavior and will likely result in grade reductions, failure, or disciplinary action.

- Illness or Injury (Personal or Family)

Illnesses or injuries are handled on a case by case basis by course or clerkship directors. In almost all cases, such events cannot be predicted in advance. When either occurs, the student's first responsibility is to their own personal safety and the safety and well-being of those around them. Once the situation has stabilized sufficiently and it is safe to do so, a student should immediately notify people related to the course or clerkship, as appropriate (e.g., course or clerkship director or coordinator, clinical team or preceptor with whom they are rotating, etc.). Family emergencies (including illness or death of a loved one) should be handled similarly. As necessary, remediation plans will be made on a case-by-case basis by the course or clerkship director.
