(Revised 9/2020)

You may register for courses in most Johns Hopkins divisions outside of the School of Medicine (SOM) without being subject to tuition charges. Note, however, that there are some limitations, including:

- Acceptance of registration is subject to the rules and deadlines of the host division. There may be prerequisites or limited or restricted availability of some courses.
- Make it clear to the person registering you that you are a School of Medicine Postdoctoral Fellow to facilitate proper identification of your status and to avoid being billed for tuition charges.
- While tuition is covered, any other fees associated with a course are the responsibility of the student. Non-payment of fees will affect the student's ability to register for subsequent courses.
- Requests for transcripts should be made to the School of Medicine.
- Registration for winter intersession and summer courses will require the postdoctoral fellow to contact the School of Medicine Registrar's Office via email to obtain a Verification of Enrollment form. Failure to obtain this form prior to registration will result in the student being billed for tuition fees.
- Should you decide to seek a degree from a division outside the School of Medicine, be aware that you will no longer be able to register under these guidelines and will be subject to tuition charges.

Refer to the information below for specific registration instructions by division
